Jackson, 2014-09-03 For centuries philosophers have argued about the existence and nature of God Do we need God to explain the origins of the universe Can there be morality without a divine source of goodness How can God exist when there is so much evil and suffering in the world All these questions and many more are brought to life with clarity and style in The God of Philosophy The arguments for and against God s existence are weighed up along with discussion of the meaning of religious language the concept of God and the possibility of life after death This new edition brings the debate right up to date by exploring the philosophical arguments of the new atheists such as Richard Dawkins as well as considering what the latest discoveries in science can tell us about why many believe in the existence of the divine Psychology and Adult Learning Mark Tennant, 2019-08-29 The fourth edition of Psychology and Adult Learning has been thoroughly updated to encompass shifts in the concerns of adult educators as they respond to changing global social and economic issues It examines the role of psychology in informing adult education practice and explores the seminal traditions of key psychological theories as well as discussing issues and problems in applying them to an understanding of adult learning and development Providing a thoughtful and accessible approach to understanding self and personal change in adult education and with a new emphasis on diversity this new edition has been revised and updated in light of the impact of globalising processes the emphasis on diversity among educators developments in cognitive neuroscience the impact of social media and the theoretical move away from grand theory It examines the formation of identities and places increased emphasis on how a conception of selfhood lies at the heart of teaching adults Considering adult learning in a variety of contexts topics covered

include Humanistic psychology Selfhood in the adult years The relevance of neuroscience Adult intelligence and cognition Behaviourism Group learning Transformative learning Psychology and Adult Learning examines the psychological dimension of adult education work by analysing and critiquing key psychological theories that have informed our understanding It is essential reading for all those who seek a critical account of how psychology informs contemporary adult education theory and practice

Tales from the Freudian Crypt Todd Dufresne, 2000 A fundamental reassessment of the Freud legend that aims to shake the very foundations of Freud studies

Continuity and Change in Psychoanalysis Luciana Nissim Momigliano, 2018-11-09 This book reflects certain continuity dealing with the issue of how to be an analyst through the different stages by which the author's psychoanalytic identity develops from candidate to analyst and sometimes on to training analyst in the continually changing world of our time

Richard J. Bernstein and the Expansion of American Philosophy Marcia Morgan, Megan Craig, 2016-12-24 Thinking The Plural Richard J Bernstein and the Expansion of American Philosophy is a text devoted to highlighting scrutinizing and deploying Bernstein's philosophical research as it has intersected and impacted American and European philosophy Collecting essays written explicitly for the volume from former students of Bernstein's the book shows the breadth and scope of his work while expanding key insights into new contexts and testing his work against thinkers outside the canon of his own

scholarship In light of urgent contemporary ethical and political problems the papers collected here show the continuing relevance of Bernstein s lifelong focus on democracy dialogue pragmatism fallibilism and pluralism Bernstein has always contested the supposed Analytic Continental divide insisting on the pluralism of philosophical discourses and styles that contribute to genuine debate and save philosophy from stale academicism This book enacts Bernstein s pluralistic spirit by crossing traditions and generating new avenues for ongoing research A central argument of the book is that thinkers of different backgrounds using diverse and even clashing methodologies contribute to the understanding of a given problem issue or theme This argument lies at the heart of Bernstein s published works and is central to the fallibilistic pragmatism of his pedagogy This book therefore does not rest on a single answer to a question or a univocal theme but shows the differentiation of Bernstein s scholarship through the extension of pluralism into territory Bernstein himself did not enter The chapters individually and collectively demonstrate the force of Bernstein s pluralism beyond mere commentary on his works This book will be of interest to many people 1 scholars students and others in American philosophy who have worked on or with Richard J Bernstein or in the tradition of American Pragmatism widely construed 2 those interested in the intersections between American and European philosophy or between the Analytic and Continental traditions 3 professional philosophers philosophy students and public intellectuals concerned with the application of theory to contemporary ethical and political problems and 4 those interested in an introduction to the key concepts animating Bernstein s work and their relationship to the history of philosophy

Who Owns Psychoanalysis? Ann Casement, 2018-05-08 So who does own psychoanalysis

Equally pertinent what is psychoanalysis Even before the death of Sigmund Freud psychoanalysis was splintering into different groups each convinced of their superiority to the other There was little co operation between them plus a great deal of resentment recrimination and suspicion The status quo has been evolving slowly in recent years with increased tolerance and communication between the different factions leading to the birth of this book The result is an international and inter group collaboration of eminent psychoanalysts and scholars of psychoanalysis discussing and reflecting on the meaning psychoanalysis holds for them Their contributions have been grouped into four sections academic historical political and scientific Each paper is varied in its subject matter looking at such issues as psychoanalytic ownership the genealogy of the word psychotherapy historical perspectives on the situation whether there can be a monopoly on psychoanalysis and the role of the brain in relation to the mind and has been grouped according to its main theme

The Language of Psychotherapy Rudolf Ekstein, 1989-01-01 Ekstein s book brings together papers on a number of themes which have occupied his thinking during the last 40 years In the Wiener Kreis the Vienna circle of philosophers he studied together with his professor Moritz Schlick the philosophy of science the analysis of language and the clarification of meaning Throughout his life he has always been inspired by the work of Ludwig Wittgenstein In the Vienna Psychoanalytic Institute his interest in psychotherapy and psychoanalysis was reinforced and he established for himself a bridge between the kind of thinking that looks for

philosophical clarification and that which searches for psychological meaning The psychotherapeutic and psychoanalytic methods of psychological clarification depend on the language tools of the thinking process But these language tools referring now to different theories of psychoanalysis and psychotherapy in the various schools have their usefulness as well as their limitations Ekstein's chronological assessment allows us to arrive at a philosophical and psychological clarification of present psychotherapeutic and psychoanalytic schools

Transitions in Continental Philosophy Arleen B. Dallery, Stephen H. Watson, E. Marya Bower, 1994-01-01 This book challenges and renews the discussions that have historically characterized the tradition of continental thought in the areas of ethics feminism aesthetics and political theory The classical origins of this tradition phenomenology existentialism and hermeneutics emerged according to models that were foundational and systematic in character The book shows that continental philosophy is now woven between counter discourses and concrete interventions complicated in the relationship between theory and practice that is in the transition between concept and determination idea and intuition the ontic and the ontological experience and judgment

Freud Philip Rieff, 1979-05-15 Now a classic this book was hailed upon its original publication in 1959 as An event to be acclaimed a book of genuine brilliance on Freud's cultural importance a permanently valuable contribution to the human sciences Alastair MacIntyre Manchester Guardian This remarkably subtle and substantial book with its nicely ordered sequences of skilled dissections and refined appraisals is one of those rare products of profound analytic thought The author weighs each major article of the psychoanalytic canon in the scales of his sensitive understanding then gives a superbly balanced judgement Henry A Murray American Sociological Review Rieff's tremendous scholarship and rich reflections fill his pages with memorable treasures Robert W White Scientific American Philip Rieff's book is a brilliant and beautifully reasoned example of what Freud's influence has really been an increasing intellectual vigilance about human nature What the analyst does for the patient present the terms for his new choices as a human being Mr Rieff does in respect to the cultural significance of Freudianism His style has the same closeness the same undertone of hypertense alertness Again and again he makes brilliant points Alfred Kazin The Reporter

Autobiographics in Freud and Derrida Jane Marie Todd, 2015-08-14 Originally published in 1990 This uniquely fascinating study approaches the problem of autobiography from two directions first assessing theories of the self consciousness and language developed by both Freud and Derrida second through the reading of the autobiographical aspects of their writings The book begins with looking at the issue of making sense of a life by means of representation through autobiography within the field of psychological phenomena screen memories mourning obsession hysteria transference Part 1 focuses on Freud's case histories and psychoanalysis being used to make a narrative of behaviour in language Part two considers Freud's own Interpretation of Dreams and its autobiographical nature Part 3 examines intellectual movements such as phenomenology speech act theory and structuralism while Parts 4 and 5 turn to Derrida's use of autobiography as self criticism and his debt to Freud

Maimonides' Cure of Souls David Bakan, Dan

Merkur, David S. Weiss, 2010-07-02 Is Moses Maimonides an unacknowledged ancestor of the psychoanalytic movement In this book David Bakan Dan Merkur and David S Weiss look at the great medieval Jewish philosopher's prescription for the cure of souls and its psychological significance In the Guide of the Perplexed Maimonides who was also a physician describes the soul's illness when sinners rationalize evil as good they limit their capacities to reason imagine and behave well which also produces physical symptoms The cure depends on repentance in love and fear of God that is attained through philosophical knowledge the interpretation of dreams and visions and mystical contemplation The authors look at the Aristotelian background of Maimonides psychology Maimonidean mysticism his beliefs about prophecy and sexuality and what is known of Maimonides client population A final chapter discusses Maimonides and Freud noting that many distinctive features of the cure of souls are shared by Freud's original formulation of psychoanalysis Indeed the many points of convergence suggest Freud's direct or indirect contact with Maimonides legacy Freud - The Key Ideas: Teach Yourself

Volney Patrick Gay, 1992-01-01 This book is the only full length treatment of the relationship between aesthetic truths and psychoanalytic discoveries of art artists and a new concept of sublimation It provides a radical and unique study of the concept of sublimation and proposes a modest replacement for it In the first third of the book the author reviews critically the psychoanalytic sources of the concept of sublimation In the second third he shows how the concept developed from Freud's nineteenth century notions of perception In the last third he revises a concept of sublimation using a contemporary theory of perception In the final chapter he examines four works of literature short stories of John Cheever a Japanese novel portions of Hamlet and sublimation and perversion in Orson Welles Citizen Kane **Gender, Experience, and Knowledge in Adult Learning**

Elana Michelson, 2015-05-15 In this wide ranging book Elana Michelson invites us to revisit basic understandings of the experiential learner How does experience come to be seen as the basis of knowledge How do gender class and race enter into the ways in which knowledge is valued What political and cultural belief systems underlie such practices as the assessment of prior learning and the writing of life narratives Drawing on a range of disciplines from

feminist theory and the politics of knowledge to literary criticism Michelson argues that particular understandings of experiential learning have been central to modern Western cultures and the power relationships that underlie them Presented in four parts this challenging and lively book asks educators of adults to think in new ways about their assumptions theories and practices Part I provides readers with a short history of the notion of experiential learning Part II brings the insights and concerns of feminist theory to bear on mainstream theories of experiential learning Part III examines the assessment of prior experiential learning for academic credit and or professional credentials Part IV addresses a second pedagogical practice that is ubiquitous in adult learning namely the assigning of life narratives Gender Experience and Knowledge in Adult Learning will be of value to scholars and graduate students exploring adult and experiential learning as well as academics wishing to introduce students to a broad range of feminist critical race materialist and postmodernist thinking in the field

Handbook on Peace Education Gavriel Salomon,Ed Cairns,2011-02-25 This handbook encompasses a range of disciplines that underlie the field of peace education and provides the rationales for the ways it is actually carried out The discipline is a composite of contributions from a variety of disciplines ranging from social psychology to philosophy and from communication to political science That is peace education is an applied subject which is practiced in differing ways but must always be firmly based on a range of established empirical disciplines The volume is structured around contributions from expert scholars in various fields that underpin peace education plus contributions from experts in applying peace education in a range of settings all complemented by chapters which deal with issues related to research and evaluation of peace education
