## **Freudian Astrology Uranus Ego:**

Astrology, Karma & Transformation Stephen Arroyo, 2011-11-26 This widely praised and internationally acclaimed classic on the spiritual aspects of astrology a continual best seller since publication has now been translated into more than 20 languages including Chinese Turkish Russian Serbian Romanian It has been enthusiastically reviewed by Library Journal Isabel Hickey CAO Times and dozens of others Often ranked as my favorite astrology book in surveys it is now as it has always been a profound book far ahead of its time that speaks to readers personally in a life changing way Tarot Awareness Stephen Walter Sterling, 2000 Have you ever looked at the mysterious symbols on the Tarot cards and wondered what they meant Or perhaps you have read the Tarot for others for many years but still don't understand how to use them for meditation and spiritual development Or perhaps you use the intense imagery of the Tarot for meditation but don't think it is appropriate to use this mystical tool for readings Well now you can learn the meaning of the symbols for spiritual development and for giving great readings in Stephen Walter Sterling's Tarot Awareness The Tarot is composed of two major sections the illustrated cards that form the Major Arcana and the cards of the Minor Arcana which are like a deck of playing cards with an extra court card for each suit Each card has a meaning for a reading The meanings of the cards are given in the text The Major Arcana cards also are about the spiritual development of your consciousness As you go through the cards from zero to twenty one you follow the progression of your spirituality The fifty six cards of the Minor Arcana are associated with your development from the spiritual to the physical In fact they deal with the four levels of progression to manifestation the spiritual emotional mental and physical Put this all together and for the first time you have a book which integrates spiritual and practical meditative and divinatory One of the great things about the Tarot is that it's symbolic Since the unconscious works through symbols it speaks to you Just working with the Tarot helps you to evolve especially when you understand the Tarot's spiritual truths In order to work with the cards the book shares five different readings you can do As an added bonus the book also deals with the difficult subject of proximity relating the cards in a spread to each other as opposed to just their positions in the spread This can enhance your readings on your quest for spirituality Subject Guide to Children's Books in Print 1997 Bowker Editorial Staff, R R Bowker Publishing, 1996-09 Paperbound Books in Print, 1992

*The Quindecile* Ricki Reeves, 2001 We like to think we are sensible beings who base our actions on conscious decisions The fact is all of us are subject to the occasional irrational impulse the wild hair that surprises us and those around us Usually this is not a big problem in fact it can act as a safety valve for our creative abilities and a check against unnecessary self restriction But it s not so healthy when we find ourselves driven by compulsions and obsessions that seem to take over our lives and consume our attention and energy How can we discover the origins of these forces Can we turn them into something constructive Astrology provides a key to these questions in the quindecile This newly researched 165 degree aspect of hidden driving forces is thoroughly explored in these pages by an experienced astrologer and mental health professional Numerous chart examples support the analysis of the quindecile in natal transit progressed and synastry horoscopes A full set of delineations and interpretations lets you quickly add this illuminating factor to your understanding of any chart In these pages you will explore The psychological dynamics of

Power of the Midheaven Stephanie Jean Clement,2001 The horoscope is a map of the heavens at any particular time usually at the birth of a person An important aspect to consider when creating charts is the Midheaven Before computers it was a vital computation in setting up horoscopes Curiously many astrologers ignore this point in their interpretations During over twenty five years as a professional astrologer Stephanie Jean Clement Ph D has emphasized that no point of a chart is unimportant She reveals what she has learned in The Power of the Midheaven Attention to the Midheaven can revolutionize your understanding of astrology If you are an astrologer you need the information in this book to make your readings more complete and to have a full understanding of a chart The Midheaven indicates what we know about ourselves The primary form of analysis is to examine the sign the Midheaven is in For example people with Leo Midheavens set their goals high and have the staying power to achieve them They want to rise to the top socially Jacqueline Kennedy is an example as is Grace Kelly They are self confident generous know they are fine leaders and have organizational capability but may not be able to admit their own shortcomings A Leo Midheaven is the master of control and free will and achieves spiritual enlightenment by knowing that the physical body is necessary Dr Clement points out that both Charlie Chaplin and Adolf Hitler have a Leo Midheaven they were born within days of each other She gives quotes showing how they used their wills to control people and both worked hard to eventually reach the top Obviously they were quite different people but the way they achieved their goals was similar Chaplin actually experienced his first movie making disappointment with The Little Dictator a film about Hitler This book covers the Midheaven through all the signs It also includes planets in aspect transits and much more If you are an astrologer or if you are at all interested in your horoscope you need this book **Astrotherapy** Gregory
