## **Economic Voting:**

*The Economic Vote* Raymond M. Duch, Randolph T. Stevenson, 2008-03-17 This book proposes a selection model for explaining cross national variation in economic voting Rational voters condition the economic vote on whether incumbents are responsible for economic outcomes because this is the optimal way to identify and elect competent economic managers under conditions of uncertainty This model explores how political and economic institutions alter the quality of the signal that the previous economy provides about the competence of candidates The rational economic voter is also attentive to strategic cues regarding the responsibility of parties for economic outcomes and their electoral competitiveness Theoretical propositions are derived linking variation in economic and political institutions to variability in economic voting The authors demonstrate that there is economic voting and that it varies significantly across political contexts The data consist of 165 election studies conducted in 19 different countries over a 20 year time period

**Economic Voting** Han Dorussen, Michael Taylor, 2003-09-02 Economic voting is a phenomenon that political scientists and economists can hardly overlook There is ample evidence for a strong link between economic conditions and government popularity However not everything is that simple and this edited collection focuses on the comparative puzzle of economic voting Economic Voting emphasises the importance of comparative research design and argues that the psychology of the economic voter model needs to be developed further

strategy this study challenges the notion that economic performance necessarily drives electoral outcomes

**The Defeat of Barisan Nasional** Francis E Hutchinson, Lee Hwok Aun, 2019-12-16 The results of Malaysia's 14th General Elections of May 2018 were unexpected and transformative Against conventional wisdom the newly reconfigured opposition grouping Pakatan Harapan PH decisively defeated the incumbent Barisan Nasional BN ending six decades of uninterrupted dominant one party rule Despite a long running financial scandal dogging the ruling coalition pollsters and commentators predicted a solid BN victory or at least a narrow parliamentary majority Yet on the day deeply rooted political dynamics and influential actors came together sweeping aside many prevailing assumptions and reconfiguring the country's political reality in the process In order to understand the elections and their implications this edited volume brings together contributions from ISEAS Yusof Ishak Institute researchers and a group of selected collaborators to examine the elections from three angles campaign dynamics important trends among major interest groups and local level dynamics and developments in key

states This analytical work is complemented by personal narratives from a selection of GE 14 participants      *The Oxford Handbook of American Elections and Political Behavior* Jan E. Farrell, Theresa Reidy, 2018-08-31 This is the definitive study of the Irish general election of 2016 the most dramatic election in a generation which resulted in the worst electoral outcome for Ireland's established parties the most fractionalized party system in the history of the state and the emergence of new parties and groups These outcomes follow a pattern seen across a number of Western Europe's established democracies in which the deep crisis of the Great Recession has wreaked havoc on party systems The objective of this book is to assess this most extraordinary of Irish elections both in its Irish and wider cross national context With contributions from leading scholars on Irish elections and using a unique dataset the Irish National Election Study 2016 this volume explores voting patterns at Ireland's first post crisis election and it considers the implications for the electoral landscape and politics in Ireland      **A Conservative Revolution?** Michael Marsh, David M.

Farrell, Gail McElroy, 2017-03-02 The 2011 general election in the Republic of Ireland which took place against a backdrop of economic collapse was one of the most dramatic ever witnessed The most notable outcome was the collapse of Fianna Fáil one of the world's most enduring and successful parties In comparative terms Fianna Fáil's defeat was among the largest experienced by a major party in the history of parliamentary democracy It went from being the largest party in the state a position it had held since 1932 to being a bit player in Irish political life And yet ultimately there was much that remained the same perhaps most distinctly of all the fact that no new parties emerged It was if anything a conservative revolution A Conservative Revolution examines underlying voter attitudes in the period 2002-11 Drawing on three national election studies the book follows party system evolution and voter behaviour from boom to bust These data permits an unprecedented insight into a party system and its voters at a time of great change as the country went through a period of rapid growth to become one of Europe's wealthiest states in the early twenty first century to economic meltdown in the midst of the international Great Recession all of this in the space of a single decade In the process this study explores many of the well established norms and conventional wisdoms of Irish electoral behaviour that make it such an interesting case study for comparison with other industrialized democracies      The Taiwan Voter Christopher Henry Achen, T. Y. Wang, 2017-07-26

The Taiwan Voter examines the critical role ethnic and national identities play in politics utilizing the case of Taiwan Although elections there often raise international tensions and have led to military demonstrations by China no scholarly books have examined how Taiwan's voters make electoral choices in a dangerous environment Critiquing the conventional interpretation of politics as an ideological battle between liberals and conservatives The Taiwan Voter demonstrates in

Taiwan the party system and voters responses are shaped by one powerful determinant of national identity the China factor Taiwan s electoral politics draws international scholarly interest because of the prominent role of ethnic and national identification While in most countries the many tangled strands of competing identities are daunting for scholarly analysis in Taiwan the cleavages are powerful and limited in number so the logic of interrelationships among issues partisanship and identity are particularly clear The Taiwan Voter unites experts to investigate the ways in which social identities policy views and partisan preferences intersect and influence each other These novel findings have wide applicability to other countries and will be of interest to a broad range of social scientists interested in identity politics

**Economics and Politics** Helmut Norpoth, Michael S. Lewis-Beck, Jean-Dominique Lafay, 1991 An important

study on the effects of economic performance on elections      The Comparative Study of Electoral Systems Hans-Dieter Klingemann, 2009-02-05 Citizens living in presidential or parliamentary systems face different political choices as do voters casting votes in elections governed by rules of proportional representation or plurality Political commentators seem to know how such rules influence political behaviour They firmly believe for example that candidates running in plurality systems are better known and held more accountable to their constituencies than candidates competing in elections governed by proportional representation However such assertions rest on shaky ground simply because solid empirical knowledge to evaluate the impact of political institutions on individual political behaviour is still lacking The Comparative Study of Electoral Systems has collected data on political institutions and on individual political behaviour and scrutinized it carefully In line with common wisdom results of most analyses presented in this volume confirm that political institutions matter for individual political behaviour but contrary to what is widely believed they do not matter much      **The Economic Vote** Duch Raymond M Stevenson Randolph T, Raymond M.
