Wideen,Peter P. Grimmer,2013-05-13 Pressures for reform in teacher education have begun to take on the same sense of urgency as school reform Those faculties of education who have been strong advocates for change in the schools now find themselves the subject of similar pressures from governmental policy makers Attempts at change have taken place in many different countries and jurisdictions around

the world This book details through a series of international vignettes how teachers are responding to the changing times and social contexts in which they do their work The authors hold the view that changes are inevitable in teacher education but what is not clear is who will control the changes and whether the end result will actually improve the preparation of teachers The theme of the book is that the reform of teacher education should be informed by intelligent debate and that any attempt to restructure teacher preparation should result from a careful reconceptualisation of its purposes and processes
