She provides an example of a Christian thinker deeply engaged in the debates of her own day and her work offers models and insights for addressing the questions of the twenty first century. Sarah Borden presents an overview of St Edith Stein's life and thought beginning with her biography. She then covers her early work in phenomenology her political writings her studies on women and women's education as well her later turn to medieval metaphysics and spiritual and religious texts. The final chapter covers the controversies surrounding Stein's beatification and canonization. Arranged by topic and proceeding largely in chronological order the book is accessible and aimed at a general audience although the material is presented in such a way as to be useful to specialists. A History of Women Philosophers M.E. Waithe, 1995 Like their predecessors and like their male counterparts most women philosophers of the 20th century have significant expertise in several specialities. Moreover their work represents the gamut of 20th century philosophy's interests in moral pragmatism logical positivism philosophy of mathematics of psychology and of mind. Their writings include feminist philosophy classical moral theory reevaluated in light of Kant Mill and the 19th century feminist and abolitionist movements and issues in logic and perception. Included in the fourth volume of the series are discussions of L Susan Stebbing Edith Stein Hedwig Conrad Martius Simone de Beauvoir Simone Weil Mary Whiton Calkins Gerda Walther and others. While pre 20th century women philosophers were usually self educated those of the 20th century had greater access to academic preparation in philosophy. Yet for all the advances made by women philosophers over two and a half millennia the philosophers discussed in this volume were sometimes excluded from full participation in academic life and sometimes denied full professional academic status.

**The Unnecessary Problem of Edith Stein** Harry J. Cargas, 1994 Why it may be inappropriate for the Catholic Church to canonize Edith Stein a Jewish convert who became a Carmelite nun and was murdered in Auschwitz. **Ciphers of Transcendence** Fran O'Rourke, 2019-11-28 The title Ciphers of Transcendence reflects the philosophical interests of Patrick Masterson Emeritus Professor of Philosophy of Religion University College Dublin. Transcendence is a millefeuille term conveying layered and diverse nuances from the first openness of human awareness towards the outside world to the

ultimate affirmation of and commitment to a loving and infinite Transcendent Patrick Masterson has devoted his philosophical career to reflection upon the unfathomable nature of the latter seeking to decipher instances and images of transcendence within the realm of limited human experience Through teaching and writing he has shared with students and readers his deeply personal reflections on questions of primal importance Patrick Masterson s colleagues and students all devoted friends here offer in return their diverse perspectives The essays deal in one way or another with transcendence examined in dialogue with a roll call of thinkers across the ages from ancient authors to medieval masters modern giants to recent luminaries The volume is enhanced by the inclusion of an essay by leading contemporary thinker Alasdair MacIntyre and a poem from Seamus Heaney that evokes across the silence of solitude the tender presence of transcendence *Person in the World* Mary Catherine Baseheart, 2013-03-14 Edith Stein has become almost a legend in recent years largely because of her heroic personality and her death in Auschwitz at the hands of the Nazis She is known also as an eminent German jewish Christian intellectual and feminist but more in the realm of the sacred than of the secular Both are essential to understanding her To know the real Edith Stein one must have some knowledge of her as philosopher for philosophy was central to her very being For this reason the present work is designed to be of interest to the general reader as well as to philosophers Many of the latter have given evidence of interest in Stein s phenomenology and may welcome an introduction that gives clues to its substance and quality Those who knew Edith Stein personally and professionally Edmund Husserl Roman Ingarden Hedwig Conrad Martius Peter Wust and other friends at the universities of Göttingen and Freiburg affirm her genius and her passionate pursuit of truth in philosophy James Collins distinguished American historian of philosophy who discovered some of her works about the time she died wrote that we may expect critical studies on her philosophy to multiply rapidly with the issuance of her collected works and the recognition of her high philosophical genius I The fact is that this has not happened although fourteen of her major works have been published posthumously by Nauwelaerts and Herder and many are available from other sources **The Life and Thought of St. Edith Stein** Freda Mary Oben, 2001 Canonized by Pope John Paul II on October 11 1998 Edith Stein was named one of the co patrons of Europe in 1999 This book will introduce the reader to the life and thought of this truly extraordinary woman
