Education and Development ,1999

Education and Development Walter W. McMahon,2012

Education and

Development in India Jandhyala B.G. Tilak,2018-09-15 Drawing on empirical interdisciplinary research this book presents a critical review of some of the major issues that are of interest to researchers policymakers and planners in developing as well as advanced countries including specifically in India It provides an in depth review of some of the major development policy issues in education in general and in India in particular over the past 2 3 decades Besides presenting an overview of the educational developments in India that reflects issues such as growth equity efficiency foreign aid decentralization center state relations financing and cost recovery the book puts forward in depth analyses of education poverty interrelations between education and poverty low level of outcomes in elementary education effects of structural adjustment policies and approaches on education south south cooperation etc It also critically discusses changes in policies relating to financing higher education external assistance for education and how the growth of private higher education is affecting society at large The dichotomy between public policy and action is also highlighted in many chapters On the whole while the importance of education is being increasingly recognized the state does not seem to be as willing to foot the bill for education as the households and even the private sector Occasionally contrasting with international evidence on for example financing higher education private higher education or the effects of neo liberal policies the book offers an interesting read for a wider audience

Development, Education and Learning in Sri Lanka Angela W. Little,2024-06-13 Sri Lanka s early achievements in education and literacy became well known among the international development community in the middle of the last century and were often used to benchmark progress elsewhere Development Education and Learning in Sri Lanka presents an illuminating narrative of changing education fortunes and inequalities based on half a century of research This research journey was undertaken in collaboration with Sri Lankan researchers island wide in myriad communities schools classrooms and education offices through conversations with countless parents teachers students community members trade union officers politicians and members of local national and international development agencies as well as through extensive documentary analysis The book delineates the distinctive and changing features of the Sri Lankan education system through comparisons with systems elsewhere through an understanding of national political economic and social conditions crises and upheavals through changes in education policy and through shifting patterns of opportunity among diverse social groups These analyses are framed by themes in the international development discourse ranging from modernisation to basic needs to globalisation and sustainable development some of which themes have been influenced by the Sri Lankan story The book s overriding messages are the need to understand education and development in a country s own terms and to place learning at the heart of education policy situating it within broader conceptions of the purpose values and means of development Praise for Development Education and Learning in Sri Lanka Through rigorous and comprehensive research and a blend of

local and global perspectives this book offers invaluable insights for academics and policymakers alike Tara de Mel Director Bandaranaike Academy for Leadership and Public Policy and former Secretary Sri Lanka Ministry of Education Reflecting on a career long engagement with education and development Angela Little brilliantly co locates the personal political and the theoretical A privilege to read Simon McGrath University of Glasgow This passionate engagement with education reform and development offers very instructive lessons for academics and policymakers in Sri Lanka and beyond Siri T Hettige University of Colombo Fifty years of personal experience in Sri Lanka from many vantage points A focus on education and society rather than education alone And a concern to understand rather than prescribe This book has no competitors Mick Moore Institute of Development Studies Sussex Handbook of Social Indicators and Quality of Life Research Kenneth C. Land,Alex C. Michalos,M. Joseph Sirgy,2011-11-25 The aim of the Handbook of Social Indicators and Quality of Life Research is to create an overview of the field of Quality of Life QOL studies in the early years of the 21st century that can be updated and improved upon as the field evolves and the century unfolds Social indicators are statistical time series used to monitor the social system helping to identify changes and to guide intervention to alter the course of social change Examples include unemployment rates crime rates estimates of life expectancy health status indices school enrollment rates average achievement scores election voting rates and measures of subjective well being such as satisfaction with life as a whole and with specific domains or aspects of life This book provides a review of the historical development of the field including the history of QOL in medicine and mental health as well as the research related to quality of work life QWL programs It discusses several of QOL main concepts happiness positive psychology and subjective wellbeing Relations between spirituality and religiousness and QOL are examined as are the effects of educational attainment on QOL and marketing and the associations with economic growth The book goes on to investigate methodological approaches and issues that should be considered in measuring and analysing quality of life from a quantitative perspective The final chapters are dedicated to research on elements of QOL in a broad range of countries and populations *Understanding the Social Outcomes of Learning* OECD,2007-07-04 This report is OECD s first attempt to gather and synthesise developments in measuring the social effects of education It focuses on health and civic and social engagement *International Handbook on the Economics of Education* Geraint Johnes,Jill Johnes,2007-01-01 is a voluminous and timely collection of 18 essays that addresses a number of core issues on the economics of education An exhaustive survey of the literature on the role of universities as multi product firms at various levels and disciplines identifies the nature of the economies of scope and scale This enriches the volume further Economic Analysis Policy the endeavour of bringing together very knowledgeable contributors including some of the leading contributors to the literature in the UK and beyond to write a handbook on the economics of education is highly appreciated The Handbook contains 18 substantive chapters encapsulated by a brief introduction and an extensive and a very useful index the Handbook should be praised as a useful overview of the field of

economics of education as it stands today Ludger W mann Economic Issues This major Handbook comprehensively surveys the rapidly growing field of the economics of education It is unique in that it comprises original contributions on an exceptional range of topics from a review of human capital signalling and screening models to consideration of issues such as educational externalities and economic growth funding models determinants of educational success the educational production function educational standards and efficiency measurement Labour market issues such as the market for teachers and the transition of students from school to work are also explored The International Handbook on the Economics of Education will be warmly welcomed by academic economists educational researchers and practitioners in educational management as well as policymakers Comprising specially commissioned articles the Handbook will become indispensable reference for this ever topical field of study

Advancing Global Education Janet R. Dickson, Barry B. Hughes, Mohammed T. Irfan, 2015-12-22 Education is one of the most fundamental prerequisites to economic growth and social stability in the world It is also one of the most inadequately realised goals of development with the average education of global adults remaining essentially at primary levels Advancing Global Education is the second in a series of volumes that explores prospects for human development how development appears to be unfolding globally and locally how we would like it to evolve and how better to assure that we move it in desired directions The first volume addressed the reduction of global poverty The third will turn to the enhancement of global health Advancing Global Education presents the most extensive set of forecasts of global education participation and attainment levels to date providing and exploring a massive multi issue database and proposing a scenario for accelerating educational attainment throughout major world regions and 183 countries

Education, Democracy and Development Clive Harber, Vusi Mncube, 2012-05-14 Education is often seen as the key agency in international development and poverty reduction Frequently the emphasis is on the economic and social role of education in development This book on the other hand is unusual in explicitly examining the political role of education in development In particular it sets out the theories evidence and arguments concerning the potential and actual relationships between education and democracy and critically explores the contradictory role of formal education in both supporting and hindering democratic political development A key theme of the book is the importance of considering the type and nature of the education actually provided and experienced what goes on inside the black box of education Currently in developing countries and elsewhere this is often at odds with democratic principles but the book also provides many examples of successful democratic practice in schools in developing countries as well as discussing a detailed case study of South Africa where democratic change in education is a key aspect of the policy agenda

An Introduction to the Human Development and Capability Approach Séverine Deneulin, Lila Shahani, 2009 First Published in 2009 Routledge is an imprint of Taylor Francis an informa company

Education, Society, and Development Jandhyala B. G. Tilak, 2003

Contributed articles **Gender Justice, Development, and Rights** Maxine Molyneux, Shahra Razavi, 2002-11-07 This text

examines contemporary issues such as neoliberal policies democracy and multiculturalism analyzing them from a gender perspective It examines how liberal rights and ideas of democracy and justice have been absorbed into the political agendas of women s movements

The Political Economy of Educational Reforms and Capacity Development in Southeast Asia Yasushi Hirosato,Yuto Kitamura,2009-02-07 Yasushi Hirosato and Yuto Kitamura Developing countries including Southeast Asian countries face an enormous challenge in ensuring equitable access to quality education in the context of deepening globalization and increasing international competition They must simultaneously meet the goals of Education for All EFA at the basic education level and of developing a more sophisticated workforce required by the knowledge based economy at the post basic especially tertiary education level To meet this challenge developing countries need to reform renovate their education systems and service deliveries as an integral part of national development However most of them have not yet fully developed the individual institutional and system capacities in undertaking necessary education reforms especially under decentralization and privatization requiring new roles at various central and local or public and private levels of administration and stakeholders Provided that an ultimate vision of educational development and cooperation in the twenty first century would be to develop indigenous capacity in engineering education reforms this book analyzes the overall education reform context and capacity including the status of sector program support using the sector wide approach SWAP program based approach PBA in developing countries We also address how different stakeholders have been interacting in order to promote equitable access to quality education particularly from the perspectives of capacity development under the system of decentralization

Learning for Well Being Richard Desjardins,2004 [Taking Public Universities Seriously](#) Frank Iacobucci,Carolyn J. Tuohy,Carolyn Hughes Tuohy,2005-01-01 Taking Public Universities Seriously includes all the papers given at this conference and is enhanced by a comprehensive introduction by two of Canada s most prominent and experienced university administrators Frank Iacobucci and Carolyn Tuohy

International Encyclopedia of Education ,2009-04-17 The field of education has experienced extraordinary technological societal and institutional change in recent years making it one of the most fascinating yet complex fields of study in social science Unequaled in its combination of authoritative scholarship and comprehensive coverage International Encyclopedia of Education Third Edition succeeds two highly successful previous editions 1985 1994 in aiming to encapsulate research in this vibrant field for the twenty first century reader Under development for five years this work encompasses over 1 000 articles across 24 individual areas of coverage and is expected to become the dominant resource in the field Education is a multidisciplinary and international field drawing on a wide range of social sciences and humanities disciplines and this new edition comprehensively matches this diversity The diverse background and multidisciplinary subject coverage of the Editorial Board ensure a balanced and objective academic framework with 1 500 contributors representing over 100 countries capturing a complete portrait of this evolving field A totally new work revamped with a wholly new editorial board structure and brand new list of meta sections

and articles Developed by an international panel of editors and authors drawn from senior academia Web enhanced with supplementary multimedia audio and video files hotlinked to relevant references and sources for further study Incorporates ca 1 350 articles with timely coverage of such topics as technology and learning demography and social change globalization and adult learning to name a few Offers two content delivery options print and online the latter of which provides anytime anywhere access for multiple users and superior search functionality via ScienceDirect as well as multimedia content including audio and video files

The Economics of Social Determinants of Health and Health Inequalities World Health Organization,2013 This resource book discusses the economic arguments that could and could not be put forth to support the case for investing in the social determinants of health on average and in the reduction in socially determined health inequalities It provides an overview and introduction into how economists would approach the assessment of the economic motivation to invest in the social determinants of health and socially determined health inequities including what the major challenges are in this assessment It illustrates the extent to which an economic argument can be made in favour of investment in 3 major social determinants of health areas education social protection and urban development and infrastructure It describes whether education policy social protection and urban development housing and transport policy can act as health policy

The Changing Identity of Rural India Elisabetta Basile,Ishita Mukhopadhyay,2009 The book explores the pattern of rural development in contemporary India from a multidisciplinary and historical perspective The essays overcome the limits of disciplinary approaches to provide a comprehensive analysis of the processes of change and growth at work in the Indian countryside and to review the social and cultural dynamics that have led to the contemporary situation Providing an analysis of the economic political and social changes experienced in rural India they examine the interactions between actors and institutions at different levels Some contributions focus on the impact of state policies on rural development and on the rationale of capitalistic expansion in the Indian countryside while others analyse how the changes are promoted adopted and resisted at the local level The general issue raised in the book refers to the assessment of the nature and working of contemporary Indian rural economy In order to analyse the complexity of the rural economy and the forms it takes in different Indian contexts this issue has been deconstructed considering in turn the process of rural change the impact of rural growth on working and living conditions and finally the categories of the inhabitants of rural areas and the construction of their identities in colonial and post colonial rural India

The Elgar Companion to Development Studies David Clark,2006 If handbooks can be inspiring this is it Like a true companion it takes in its stride conversations both big and small Its entries do not just present an international and multidisciplinary mix but true to life they work on several different scales And importantly the book makes its authority evident For it is like an extended website but with all the added advantages of an encyclopaedia that actually tells you about the authors and the sources on which they have drawn The resulting compilation is highly intelligent thoughtful and above all usable

Dame Marilyn Strathern University of

Cambridge UK The Elgar Companion to Development Studies is a major production in the development studies field authored by a star studded cast of contributors With 136 entries covering a vast range of topics it should quickly establish itself as a leading work of reference We should all feel indebted to David Clark who has successfully brought this substantial publishing project to completion John Teye University of Oxford UK This is a most comprehensive handbook on development studies It brings together a wide varied array of carefully crafted summaries of 136 key topics in development by an international cast of well respected academics and other experts in respective areas of study The handbook is heavily interdisciplinary organically combining economic political historical social cultural institutional ethical and human aspects of development While the wide range of entries might appear as a simple glossary listing or an encyclopedic collection each of the 136 entries offers more depth and discussion than the average handbook Viewed in this light this companion is highly likely to become known as a leading reference work on the topic Highly recommended Ismael Hossein Zadeh Choice The Elgar Companion to Development Studies is an innovative and unique reference book that includes original contributions covering development economics as well as development studies broadly defined This major new Companion brings together an international panel of experts from varying backgrounds who discuss theoretical ethical and practical issues relating to economic social cultural institutional political and human aspects of development in poor countries It also includes a selection of intellectual biographies of leading development thinkers While the Companion is organised along the lines of an encyclopaedia each of its 136 entries provide more depth and discussion than the average reference book Its entries are also extremely diverse they draw on different social science disciplines incorporate various mixes of theoretical and applied work embrace a variety of methodologies and represent different views of the world The Elgar Companion to Development Studies will therefore appeal to students scholars researchers policymakers and practitioners in the field of development as well as the interested layman

Higher Education for and beyond the Sustainable Development Goals Tristan

McCowan, 2019-08-29 This book analyses the role of the university in working towards the Sustainable Development Goals In contrast to the previous Millennium Development Goals higher education is seen to have a crucial role in this new agenda Yet how can the university fulfil these weighty expectations and are the dominant trends in higher education supporting or undermining this vision This book draws on the idea of the developmental university a model characterised by its porous boundaries with society and commitment to teaching research and community engagement in the public interest The author examines case studies from Latin America Africa and other regions to analyse how this model can be revived countering recent trends of marketisation status competition and unbundling The book also considers alternatives to the developmental model drawing on indigenous knowledge systems looking beyond the SDG framework to the creation of a new form of society This timely volume will be of interest and value to those working in the field of sustainable development and to students and scholars of comparative education international development and higher education studies
