**Éducation et liberté** Luc Vincenti,1992      **Anthropology, History, and Education** Immanuel Kant,2007-11-29

Anthropology History and Education first published in 2007 contains all of Kant s major writings on human nature Some of these works which were published over a thirty nine year period between 1764 and 1803 had never before been translated into English Kant s question What is the human being is approached indirectly in his famous works on metaphysics epistemology moral and legal philosophy aesthetics and the philosophy of religion but it is approached directly in his extensive but less well known writings on physical and cultural anthropology the philosophy of history and education which are gathered in the present volume Kant repeatedly claimed that the question What is the human being should be philosophy s most fundamental concern and Anthropology History and Education can be seen as effectively presenting his philosophy as a whole in a popular guise    *The Cambridge History of Eighteenth-century Philosophy* Knud Haakonssen,2006 This two volume set presents a comprehensive and up to date history of eighteenth century philosophy The subject is treated systematically by topic not by individual thinker school or movement thus enabling a much more historically nuanced picture of the period to be painted    **Les équivoques de la civilisation** Bertrand Binoche,2005 Ces contributions étudient le concept de civilisation En croisant les axes géographique et historique elles montrent que ce terme recouvre des significations incompatibles et des statuts bien distincts et que la civilisation se définit donc par ses équivoques lesquelles résultent de ses usages    **Dictionnaire des philosophes - 4e éd.** Noëlla Baraquin,Jacqueline Laffitte,2025-05-07 De l Antiquité nos jours les philosophes les plus importants dans l histoire de la philosophie occidentale leur vie leur pensée et la portée de leur doctrine Les œuvres principales de chacun d entre eux classées chronologiquement avec les éditions de référence Les études les critiques et éventuellement les satires publiées sur chacun d entre eux diteurs années et pages classées par ordre alphabétique Les concepts clés et caractéristiques particuliers de chaque philosophe    **Skepsis** ,1999    Entendre raison Michèle Cohen-Halimi,2004 Alors que Kant présente la fondation de la moralité comme une simple formulation cet ouvrage étudie la démarche kantienne dans sa dimension stratégique et langagière Stratégique car le philosophe déjoue les préventions communes contre la métaphysique analyse la signification des concepts pratiques et restaure la force rhétorique de la langue pour favoriser l écoute du commandement moral Langagière car la fondation kantienne d une métaphysique des mœurs recèle une conception originale de la fonction signitive de l imagination dans le champ pratique l imposition de la loi morale et son écoute conduisent le discours kantien hors de la représentation La philosophie critique se libère ainsi des lectures anhistoriques et partisanes pour dévoiler une manière très singulière d inventer des concepts et d agir par cette invention même    *Jean-Jacques Rousseau et la pensée du malheur: Apothéose du désespoir* Alexis Philonenko,1984    Routledge Encyclopaedia of Educational Thinkers Joy A. Palmer Cooper,2016-05-20 The Routledge Encyclopaedia of Educational Thinkers comprises 128 essays by leading scholars analysing the most important influential innovative and interesting

thinkers on education of all time Each of the chronologically arranged entries explores why a particular thinker is significant for those who study education and explores the social historical and political contexts in which the thinker worked Ranging from Confucius and Montessori to Dewey and Edward de Bono the entries form concise accessible summaries of the greatest or most influential educational thinkers of past and present times Each essay includes the following features concise biographical information on the individual an outline of the individual's key achievements and activities an assessment of their impact and influence a list of their major writings suggested further reading Carefully brought together to present a balance of gender and geographical contexts as well as areas of thought and work in the broad field of education this substantial volume provides a unique history and overview of figures who have shaped education and educational thinking throughout the world Combining and building upon two internationally renowned volumes this collection is deliberately broad in scope crossing centuries boundaries and disciplines The Encyclopaedia therefore provides a perfect introduction to the huge range and diversity of educational thought Offering an accessible means of understanding the emergence and development of what is currently seen in the classroom this Encyclopaedia is an invaluable reference guide for all students of education including undergraduates and post graduates in education or teacher training and students of related disciplines

Wissenschaftslehre vor Im Vordergrund steht der Bezug des Bildes zur Einbildungskraft und zum Selbstbewusstsein sowohl in einer transzentalphilosophischen Perspektive als auch das Verhältnis zu Gott dem Absoluten und der Welt betreffend Zugleich werden hierbei auch praktische und sthetische Aspekte der Bildproblematik mitberücksichtigt Die verschiedenen Beiträge machen deutlich inwiefern diese Problematik den Bezug zum französischen Fichte herzustellen und auch einen Ausblick auf die späteren Arbeiten des Begründers der Wissenschaftslehre zu geben vermag Dank der Vielfalt der Ansätze bietet dieser Band einen wertvollen Einblick in die jüngste internationale Fichte Forschung bezüglich eines grundlegenden Aspekts im Denken eines der Hauptvertreter der Klassischen Deutschen Philosophie *La cohérence de la doctrine kantienne de la liberté* Bernard Caroïs, 1973-01-01T00:00:00+01:00 Peut-on enchaîner dans un ordre systématique les divers sens que Kant donne au concept de liberté? Poser cette question c'est sonder la consistance et la cohérence de toute la pensée kantienne. Le présent texte s'emploie à articuler entre eux les différents visages que Kant présente de la liberté. Il en organise la grammaire, il les isolera, il les définit, il gage leurs implications et les limites de ces implications. Il détermine comment la notion de caractère intelligible permet de passer d'un état préliminaire à l'autre et de faire la synthèse entre d'une part la liberté transcendantale comme concept philosophique de la raison et d'autre part la liberté pratique comme fait démontré par l'expérience. Se démontre ainsi une métaphysique selon laquelle partir de quoi il est possible de montrer comment le concept d'autonomie de la volonté est la clé de toute covariance entre la liberté kantienne. Enfin ce texte examine avec insistance le rôle de la négativité chez Kant, l'interieurisme de la magistrale cohérence du système, qui inscrit l'imperfection de la finitude humaine. Ceci introduit l'histoire de notre liberté qui se pose elle-même et qui pourtant ne manque pas de se renier tout en conservant la possibilité de se révolter.
