Twentieth-Century Ireland (New Gill History of Ireland 6) Dermot Keogh, 2005-09-27

Professor Dermot Keogh's *Twentieth Century Ireland* is the sixth and final book in the New Gill History of Ireland series. It is a wide-ranging, informative, and hugely engaging study of the long twentieth century, surveying political, administrative, social, and religious history, culture, and censorship, politics, literature, and art. It focuses on the consolidation of the new Irish state over the course of the twentieth century. Professor Keogh highlights the long tragedy of emigration, its effect on the Irish psyche, and on the underperformance of the Irish economy. He emphasises the lost opportunities for reform of the 1960s and early 70s. Membership of the EU had a diminished impact due to short-term and sectionally motivated political thinking and an antiquated government structure. Professor Keogh looks at how the despair of the 1950s revisited the country in the 1980s, as almost an entire generation felt compelled to emigrate, very often as undocumented workers in the United States. Professor Keogh also argues that the violence in Northern Ireland from the late 1960s was an Anglo-Irish failure, which was turned around only when Britain acknowledged the role of the Irish government in its resolution. He extends his analysis of the twentieth century to include a wide-ranging survey of the most contentious events: financial corruption, child sexual abuse scandals in the Catholic Church between 1994 and 2005.

Constructions of Illiteracy in Twentieth Century Ireland

Contesting the Narrative of Full Literacy offers new insights into literacy and illiteracy in the context of twentieth century

Ireland Through a close analysis of archived documentation from educational military and parliamentary sources the book reveals a potent narrative of full literacy that promoted literacy proficiency as a facet of the Irish national identity and suppressed any formal acknowledgment of illiteracy within the adult population Tobin applies a sociological approach and uses Foucauldian concepts of knowledge power discourse and silence to examine how constructions of illiteracy and the illiterate person varied over time while also being entwined with activities of nation building in the twentieth century Though focused on Irish society from 1900 to 1980 this volume also offers a resonant lens through which to approach the Decade of Centenaries an Irish Government initiative spanning 2012 2023 that commemorates significant events in the history of the Irish state Relevant to any readers with an interest in the Irish experience of independence decolonisation and postcolonialism this book will be a useful companion for scholars and postgraduate students of literacy and Irish studies more broadly

Vocationalism and Social Catholicism in Twentieth-century Ireland Don O'Leary, 2000 The purpose of this book is to present a comprehensive explanation of the origins development and decline of vocationalism in twentieth century Ireland Vocationalism based on papal social teaching featured prominently in social Catholicism through the 1930s and 40s The vocationalist lobby demanded radical reforms which if realized would have replaced the political economic and social structure of Irish national life with corporatist organizations based on Roman Catholic social principles In the newly independent southern Irish state with its large Catholic majority vocationalism attracted significant support and the extent of its popular appeal in the 1930s is reflected by the inclusion of vocationalist provisions in the Constitution of Ireland 1937 The popularization of vocationalist ideas occurred against a background of momentous political developments Popularization however did not lead to spontaneous proliferation and growth of vocational organizations Despite the difficulties which confronted them the vocationalists persisted with their demands attempting to persuade successive Irish governments to implement their recommendations This book examines the outcome of their protracted campaign focusing in particular on the attitude of amon de Valera Gaelic Prose in the Irish Free State, 1922-1939 Philip O'Leary, 2004 This is an authoritative account of the a major but neglected aspect of the Irish cultural renaissance prose literature of the Gaelic Revival The period following the War of Independence and Civil War saw an outpouring of book length works in Irish from the state publishing agency An Gum The frequency and production of new plays both original and translated have never been approached since This book investigates all of these works as well as journalism and manuscript material and discusses them in a lively and often humorous manner Publisher description *Irish Education* Antonia McManus, 2014-07-07 In this important new work the author analyses the contributions that our Ministers for Education made to the Irish education system between the years 1919 and 1999 Covering the social economic and political realities of the time and taking in the involvement of the OECD what emerges is a picture of how Irish education was shaped and moulded over the course of the twentieth century **Transnationalism, Gender and the History of Education** Deirdre Raftery, Marie Clarke, 2018-10-03 In the past decade historians have begun to make use of the optic of transnationalism a perspective used traditionally by social anthropologists and sociologists in their study of the movement and flow of ideas between continents and countries Historical scholarship has adopted this tool and in this book historians of education use it to add nuance and depth to research on gender and education and particularly to the education experiences of women and girls The book brings together a group of internationally regarded scholars who are doing important research on transnationalism and the social construction of gender with particular reference to education environments such as schools and colleges The book is therefore very much at the cutting edge of theoretical and methodological advances in the history of education This book was originally published as a special issue of the History of Education **The Pedagogy of Protest** Brendan Walsh, 2007 This book provides the first complete account of Patrick Pearse s educational work at St Enda s and St Ita s schools Dublin

Extensive use of first hand accounts reveals Pearse as a humane energetic teacher and a forward looking and innovative educational thinker Between 1903 and 1916 Pearse developed a new concept of schooling as an agency of radical pedagogical and social reform later echoed by school founders such as Bertrand Russell This placed him firmly within the tradition of radical educational thought as articulated by Paulo Freire and Henry Giroux The book examines the tension between Pearse s work and his increasingly public profile as an advocate of physical force separatism and by employing previously unknown accounts questions the perception that he influenced his students to become active supporters of militant separatism The book describes the later history of St Enda s revealing the ambivalence of post independence administrations and shows how Pearse s work which has long been neglected by historians has had a direct influence on a later generation of school founders up to the present

The Palgrave Handbook of Religion and State Volume II Shannon Holzer, 2023-10-19 The Palgrave Handbook of Religion and State Volume II Global Perspectives addresses issues of Religion and State from a multitude of disciplines The volume begins with the philosophical discussion of perennial issues that have to do with the

origin and nature of rights One question centers on the right to use one's religious beliefs to enact laws This discussion alone sets this handbook apart from other handbooks of its type While addressing these perennial questions this volume includes authors who interact with the work of John Rawls Hobbes Rousseau and a host of contemporary philosophers The subsequent sections address the American Constitutional Experiment religion state and law in the Americas Passionate Principalship Ciaran Sugrue, 2005 This is a no holds barred account of school leaders' lives and work as they juggle with competing and often conflicting policy initiatives *Irish Speakers and Schooling in the Gaeltacht, 1900 to the Present* Tom O'Donoghue, Teresa O'Doherty, 2019-08-02 This book offers the first full length study of the education of children living within the Gaeltacht the Irish speaking communities in Ireland from 1900 to the present day While Irish was once the most common language spoken in Ireland by 1900 the areas in which native speakers of Irish were located contracted to such an extent that they became clearly identifiable from the majority English speaking parts In the mid 1920s the new Irish Free State outlined the broad parameters of the boundaries of these areas under the title of the Gaeltacht This book is concerned with the schooling of children there The Irish Free State from its establishment in 1922 eulogized the people of the Gaeltacht maintaining they were pious heroic and holders of the characteristics of an invented ancient Irish race Simultaneously successive governments did very little to try to regenerate the Gaeltacht or to ensure Gaeltacht children would enjoy equality of education opportunity Furthermore children in the Gaeltacht had to follow the same primary school curriculum as was prescribed for the majority English speaking population The central theme elaborated on throughout the book is that this schooling was one of a number of forces that served to maintain the people of the Gaeltacht in a marginalized position in Irish society
