Comparisons of Real Output in Manufacturing Angus Maddison,Bart van Ark,1988 A Rabble of Dead Money Charles R. Morris,2017-03-07 The Great Crash of 1929 profoundly disrupted the United States confident march toward becoming the world s superpower The breakneck growth of 1920s America with its boom in automobiles electricity credit lines radio and movies certainly presaged a serious recession by the decade s end but not a depression The totality of the collapse shocked the nation and its duration scarred generations to come In this lucid and fast paced account of the cataclysm award winning writer Charles R Morris pulls together the intricate threads of policy ideology international hatreds and sheer individual cantankerousness that finally pushed the world economy over the brink and into a depression While Morris anchors his narrative in the United States he also fully investigates the poisonous political atmosphere of postwar Europe to reveal how treacherous the environment of the global economy was It took heroic financial mismanagement a glut induced global collapse in agricultural prices and a self inflicted crash in world trade to cause the Great Depression Deeply researched and vividly told A Rabble of Dead Money anatomizes history s greatest economic catastrophe while noting the
