Educating for Human Greatness Lynn Stoddard, 2004 *Young Men in Israeli Haredi Yeshiva Education* Yohai Hakak, 2012-09-28 By looking at the case of Lithuanian yeshivas in Israel Yohai Hakak's book explores the internal tensions and dynamics of religious orders during a stage of a relative loss of charisma in which the enthusiasm of the founding generation has diminished It is the first study to include participant observations conducted within these institutions which are the sacred heart of this segregated and highly religious community The book highlights the current crisis these fundamentalist institutions are going through marked by a dramatic growth in yeshiva dropout rates It examines the new and innovative ways the rabbis are trying to respond to the crisis As part of these attempts the rabbinical discourse portrays a unique utopian and egalitarian world governed by supernatural forces and unlimited spiritual resources and incorporates Western psychological and democratic ideas Hakak's book is a great scholarly achievement Motti Inbari University of North Carolina at Pembroke In sum the book manages to elaborate on important developments and changes in the Haredi world The emergence of cautious deviance questioning of old ideals or the rise of individuality At the same time Hakak explains how these changes inflict strains upon the social structure of the Haredi world The book can be therefore recommended particularly to scholars dealing with the development within the Haredi society Peter Lintl Institut r Politische Wissenschaft Friedrich Alexander Universit t Erlangen N rnberg *Reach for Greatness* Yong Zhao, 2018-01-09 Make education personalizable Every child can be great when they own their learning For years focusing on the achievement gap has led to the same result We hope for greatness and settle for competence But why settle It's time to recognize that the potential for greatness lies in a unique form within each child and that the goal of education should be to encourage and develop it This inspiring manifesto brings in research from different disciplines to show where children's strengths and passions can be found and how personalizable education uncovers them Also included Strategies for implementing personalizable education Examples showing practices that have gone wrong and right Guidance for teaching disadvantaged students Every child has the potential to be great Teaching for greatness gives students control of their own learning and guides them toward future happiness and success Are you tired of gimmicks like personalized learning that have become empty slogans but keen for the real depth and substance of an education that helps all students to reach their full potential If so Yong Zhao's *Reaching for Greatness* is the book for you With vivid examples and carefully scaffolded argumentation Zhao shows how what he calls personalizable education offers an exciting and practical future for all of our students truly to become great Zhao's writing is full of whimsy and humor so that you can't wait to see what this wonderful alchemist of educational change is going to say next Best of all this gem of a book is one that not only all teachers but also a rising generation of students will cherish as well Dennis Shirley Professor Lynch School of Education Boston College Editor in Chief Journal of Educational Change Once again Yong pulls us from our narrow view of what education is and reminds us what it needs to be Personalized education as
