*Education of a Congressman* Morris K. Udall, 1972      **How Congress Evolves** Nelson W. Polsby, 2005-04-07 From the end of the New Deal until quite recently the U S House of Representatives was dominated by a conservative coalition that thwarted the Democratic majority and prevented the enactment of measures proposed by a succession of liberal Presidents Today Presidents aren't necessarily liberal and the House of Representatives is not necessarily the graveyard of presidential proposals What happened Congress evolved It all began with airconditioning In this entertaining tale of one of our most august institutions Nelson Polsby describes how the Democratic majority finally succeeded in overcoming the conservative coalition changing the House The evolution required among other things the disappearance of Dixiecrats from the House Democratic caucus Dixiecrats were replaced by the rise of the Republican party in the south The Republican party in southern states was strengthened by an influx of migrants from the north who came south to settle after the introduction of residential air conditioning which made the climate more tolerable to Northerners This evolutionary process led to the House's liberalization and concluded with the House's later transformation into an arena of sharp partisanship visible among both Democrats and Republicans A fascinating read by one of our most influential political scientists *How Congress Evolves* breathes new life into the dusty corners of institutional history and offers a unique explanation for important transformations in the congressional environment      *The Congressional Journal of Barber B. Conable, Jr., 1968-1984* Bill

Kauffman, 2021-06-30 Barber B Conable Jr perhaps the most respected member of Congress of his era kept a frank insightful revealing journal available now for the first time thanks to the efforts of editor Bill Kauffman in *The Congressional Journal of Barber B Conable Jr 1968 1984* The journal is an honest searching sometimes humorous occasionally cutting and always fascinating look inside Congress Conable a Republican member of the House from upstate New York wrote perceptively about Presidents Nixon Ford H W Bush and the leading congressional figures of the day For seventeen years he wrote about the big events as well as daily political life in an era that included Vietnam Watergate political realignment and major changes in entitlements and taxes where he played a key role Displaying his gift for clear expression and astute insight Conable narrates the machinations of major tax measures trade bills and such special interests of his as public financing of congressional campaigns While he is never shy about expressing personal judgments he revels in the give and take of legislative politics Conable had an acute sense of the human dynamics of legislating In addition to the tax bills he shaped and struggled with as the leading Republican on the powerful House Ways and Means Committee his work with the 1982 1983 Social Security Commission led by Alan Greenspan is a classic exercise Conable thought a deal was critical for the solvency of the Social Security Trust Fund but politically almost impossible given the differing priorities of the chief protagonists President Reagan and House Speaker Tip O Neill In the journal Conable pronounces the effort doomed on January 13 1983 Two days later he marvels at the political and personal dexterity and skill that ended up producing a deal The journal

illuminates Conable's intellect, his commitment to his constituents and his appreciation of principled pragmatism. His writings are in real time, not rendered retrospectively to make himself look better, a rarity among political legacies. The Austin-Boston Connection Anthony Champagne, 2009. For the more than fifty years that Democrats controlled the U.S. House of Representatives, leadership was divided between Massachusetts and Texas. When the Speaker was from Texas or nearby Oklahoma, the Majority Leader was from the Boston area, and when the Speaker was from Boston, the Majority Leader was from Texas. The Austin-Boston Connection analyzes the importance of the friendships, especially mentor-protégé relationships and enmities, within congressional delegations, regional affinities, and the lynchpin practice of appointing the Democratic Whip.

Mo Donald W. Carson, James W. Johnson, 2015-10-19. Everybody liked Mo. Throughout his political life and especially during his bid for the Democratic presidential nomination in 1976, thousands of people were drawn to Arizona congressman Morris K. Udall by his humor, humanity, and courage. This biography traces the remarkable career of the candidate who was too funny to be president and introduces readers to Mo the politician, Mo the environmentalist, and Mo the man. Journalists Donald Carson and James Johnson interviewed more than one hundred of Udall's associates and family members to create an unusually rich portrait. They recall Udall's Mormon boyhood in Arizona, when he lost an eye at age six, his service during World War II, his brief career in professional basketball, and his work as a lawyer and county prosecutor, which earned him a reputation for fairness and openness. Mo provides the most complete record of Udall's thirty-year congressional career ever published. It reveals how he challenged the House seniority system and turned the House Interior Committee into a powerful panel that did as much to protect the environment as any organization in the twentieth century. It shows Udall to have been a consensus builder for environmental issues who paved the way for the Alaska Lands Act of 1980, helped set aside 24 million acres of wilderness in Arizona, and fought for the Central Arizona Project, one of the most ambitious water projects in U.S. history. Carson and Johnson record Udall's early opposition to the Vietnam War at a time when that conflict was largely perceived as a just cause, as well as his early advocacy of campaign finance reform. They also provide a behind-the-scenes account of his run for the presidency, the first House member to seek the office in nearly a century, which gained him an intensely loyal national following. Mo explores the paradoxes that beset Udall. He was a man able to accomplish things politically because people genuinely liked and respected him, yet he was a loner and workaholic whose focus on politics overshadowed his personal life. Carson and Johnson devote a chapter to the famous Udall sense of humor. They also look sensitively at his role as a husband and father and at his proud and stubborn bout with Parkinson's disease. Mo Udall will long be remembered for his contributions to environmental legislation, for his unflagging efforts in behalf of Arizona, and for the gentle humor with which he conducted his life. This book secures his legacy.

Losing the Center Jeffrey Bloodworth, 2013-07. Many Americans consider John F. Kennedy's presidency to represent the apex of American liberalism. Kennedy's Vital Center blueprint united middle-class and working-class Democrats and promoted freedom abroad while

recognizing the limits of American power Liberalism thrived in the early 1960s but its heyday was short lived In *Losing the Center* Jeffrey Bloodworth demonstrates how and why the once dominant ideology began its steep decline exploring its failures through the biographies of some of the Democratic Party s most important leaders including Daniel Patrick Moynihan Henry Scoop Jackson Bella Abzug Harold Ford Sr and Jimmy Carter By illuminating historical events through the stories of the people at the center of the action Bloodworth sheds new light on topics such as feminism the environment the liberal abandonment of the working class and civil rights legislation This meticulously researched study authoritatively argues that liberalism s demise was prompted not by a Republican revolution or the mistakes of a few prominent politicians but instead by decades of ideological incoherence and political ineptitude among liberals Bloodworth demonstrates that Democrats caused their own party s decline by failing to realize that their policies contradicted the priorities of mainstream voters who were more concerned about social issues than economic ones With its unique biographical approach and masterful use of archival materials this detailed and accessible book promises to stand as one of the definitive texts on the state of American liberalism in the second half of the twentieth century *The Politics of Western Water* Stephen C. Sturgeon, 2022-12-06 As the Democratic congressman from Colorado s Fourth District from 1949 to 1973 Wayne Aspinall was an advocate of natural resource development in general and reclamation projects in particular A political loner considered crusty and abrasive he carved a national reputation by helping secure the passage of key water legislation in the process clashing with colleagues and environmentalists alike Fiercely protective of western Colorado s water supply Aspinall sought to secure prosperity for his district by protecting its share of Colorado River water through federal reclamation projects and he made this goal the centerpiece of his congressional career He became chair of the House Interior Committee in 1959 and ruled it with an iron fist for more than a dozen years a role that placed him in a key position to shape the nation s natural resource legislation at a time when the growing environmental movement was calling for a sharp change in policy This full length study of Aspinall s importance to reclamation in the West clarifies his role in influencing western water policy By focusing on Aspinall s congressional career Stephen Sturgeon provides a detailed account of the political machinations and personal foibles that shaped Aspinall s efforts to implement water reclamation legislation in support of Colorado s Western Slope along the way shedding new light on familiar water controversies Sturgeon meticulously traces the influences on Aspinall s thinking and the arc of his career examining the congressman s involvement in the Colorado River Storage Project bill and his clash with conservationists over the proposed Echo Park Dam recounting the fight over the Frying Pan Arkansas Project and his decision to support diverting water out of his own district and exploring the battles over the Central Arizona Project in which Aspinall fought not only environmentalists but also other members of Congress Finally he assesses the Aspinall legacy including the still disputed Animas La Plata Project and shows how his vision of progress shaped the history of western water development *The Politics of Western Water* portrays Aspinall in human terms not as a pork barrel politician but as a

representative who believed he was protecting his constituents interests It is an insightful account of the political financial and personal variables that affect the course by which water resource legislation is conceived supported and implemented a book that is essential to understanding the history and future of water in the West Westward in Eden William K. Pearson, 2002 Between 1963 and 1968 environmentalists were outraged when western water interests sought to construct two dams in Grand Canyon as part of the Central Arizona Project The Sierra Club led a national campaign opposed to the project which most environmental historians credit with defeating the dams In the wake of its victory the Sierra Club has been lauded as the savior of Grand Canyon Byron Pearson now takes a closer look at history to show that the Sierra Club's ability to mobilize public opinion did not appreciably influence Congress where the issue was actually decided When Arizona congressman Stewart Udall became Interior Secretary in 1960 he promoted a plan to import water from the Pacific Northwest to California in order to placate that state's opposition to the CAP with its proposed dams When this support dissolved in the face of resistance from Washington senator Henry Jackson who chaired the Senate Interior Committee the pragmatic Udall sought passage of a bare bones CAP bill without the dams before he and Arizona senator Carl Hayden retired Despite this congressional deal making the Sierra Club received credit for blocking the dams and was propelled to the undisputed leadership of the environmental movement Using the myth that it had saved the Canyon the club transformed its image of power into real political influence after Congress passed the National Environmental Policy Act in 1970 giving environmental advocates access to the policy making process for the first time In revealing how the Sierra Club played a much lesser role in blocking the dams than they would have had the public believe Pearson contrasts the ways in which the controversy unfolded in the court of public opinion versus the actual political process He takes readers into congressional chambers and conference rooms reconstructing the legislative process to convey the full flavor of this political give and take Based on research in archives from all over the country *Still the Wild River Runs* will itself be a subject of controversy as it challenges long standing notions about the power of environmental lobbies By putting this chain of historical events in clearer perspective it can give citizens concerned with future causes a better understanding of the political process and what really moves it      **Population Crisis** United States.
