Swift,2015-07-08 Excerpt from Education in Ancient Israel From Earliest Times to 70 A D Most treatments of Hebrew education available in English are either out of date or inadequate The longer one studies the origins of modern education the more difficult does he find it to explain the meagerness of the accounts of Hebrew education thus far presented Authors of educational histories who have felt it incumbent upon them to include in their treatment of Greek education a discussion of music dancing physical and military training have omitted these and other equally important topics from their discussions of Hebrew education The fact that the information concerning these phases of ancient Hebrew education is in many cases meager and incomplete is no reason for failing to present such data as are available The following account is I believe the first attempt in English to give education in Ancient Israel any such broad treatment as has long been accorded to that of other ancient peoples There is no people whose history presents more difficulties and none which leaves more room for the play of the personal equation of the writer It is not to be expected that all the positions presented in this little volume will commend themselves to every reader It is not offered in any sense as an apologetic of any theory of Hebrew history Its aim is set forth in the statement of its problem see page 4 It is hoped that whatever may be its defects it will lead the reader to see that the environment in which the native genius of the Hebrews ripened was a rich and varied one and that the educative influences were many not few About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing

"To Teach" in Ancient Israel Wendy L. Widder, 2014-01-31 This book employs cognitive linguistics to determine the foundational elements of the ancient Israelites concept of teaching as reflected in the text of the Hebrew Bible and Ben Sira It analyzes four prominent lexemes that comprise a lexical set referring to the act of teaching H D H and D The study concludes that in its most basic form the concept of teaching in ancient Israel was that a teacher creates the conditions in which learning can occur The methodology employed in this project is built on a premise of cognitive studies namely that because teaching is a universal human activity there is a universal concept of teaching one person A recognizes that another person B lacks knowledge belief skills and the like or has incomplete or distorted knowledge etc and person A attempts to bring about a changed state of knowledge belief or skill in person B This universal concept provides the starting place for understanding the concept of teaching that Biblical Hebrew reflects and it also forms the conceptual base against which the individual lexemes are profiled The study incorporates a micro level analysis and a macro level analysis At the micro level each lexeme is examined with respect to its linguistic forms the linguistic analysis and the contexts in which the lexeme occurs the conceptual analysis The linguistic analysis considers the clausal constructions of each instantiation and determines what transitivity ditransitivity or intransitivity contributes to the meaning Collocations of the lexeme including prepositional phrases adverbial adjuncts and parallel verbs are evaluated for their contribution to meaning The conceptual analysis of each lexeme identifies the meaning potential of each word as well as what aspect of the meaning potential each instantiation activates The study then determines the lexeme s prototypical meaning which is profiled on the base of the universal concept of teaching This step of profiling represents an important adaptation of the cognitive linguistics tool of profiling to meet the special requirements of working with ancient texts in that it profiles prototype meanings not instantiations In the macro analysis the data of all four lexemes in the lexical set are synthesized The relationships among the lexemes are assessed in order to identify the basic level lexeme and consider whether the lexemes form a folk taxonomy Finally the profiles of the four prototype meanings are collated and compared in order to describe the ancient Israelite concept of teaching The study finds that the basic level item of the lexical set is D based on frequency of use and distribution In its prototypical definition D means to intentionally put another person in a state in which s he can acquire a skill or expertise through experience and practice In contrast to this sustained kind of teaching the prototypical meaning of H is situational in nature a person of authority or expertise gives specific situational instruction to someone who lacks knowledge about what to do The lexemes D and H represent the most restricted and the most expansive lexemes respectively the prototypical meaning of D is to attempt to bring about changed behavior in another person through verbal or physical means often to the point of causing pain the prototypical meaning of H is that a person of authority causes another person to be in a

state of knowing something from the divine realm or related to experiences with the divine realm The study determines that while the four lexemes of the Biblical Hebrew lexical set to teach have significant semantic overlap they cannot be construed in a folk taxonomy because the words are not related in a hierarchical way **Education in Ancient Israel** James Lee Crenshaw,1998 *Old Testament Wisdom* James L. Crenshaw,2010-01-01 For decades James Crenshaw's *Old Testament Wisdom* has been the premier introduction to the wisdom books of the Old Testament That tradition continues with this newly updated edition This popular textbook introduces readers to the wisdom tradition as well as the biblical books of Proverbs Job Ecclesiastes Sirach and the Wisdom of Solomon In addition Crenshaw has expanded the discussion to include sapiential works from the Dead Sea Scrolls the impact of wisdom traditions on the New Testament writers and a new chapter on knowledge about God and the ancient sages understanding of revelation He provides expert analysis of the legacy of wisdom in other parts of the canon and in other cultures offering new insights and fresh perspectives that can only come from one so well versed on the significance of Old Testament wisdom BACK COVER Elementary Education in Ancient Israel - Primary Source Edition Eliezer Ebner,2014-03 This is a reproduction of a book published before 1923 This book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process We believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide We appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book Elementary Education in Ancient Israel to 70 A.d.... Melford S. Knutson,1930 Pedagogical Theory of the Hebrew Bible Dr. Adrian E. Hinkle,2016-02-10 Every generation must accept the responsibility of training the next Yet are modern Christian pastors and educators using teaching paradigms that impact memory and long term memory retention Pedagogical Theory of the Hebrew Bible is a cross disciplinary book that connects religious education with active learning theory and demonstrates how these two areas are intimately connected within the biblical texts of Genesis through 2 Kings Through vivid discussion of the literary texts Adrian Hinkle demonstrates that religious educators never used isolated oral stories or instructions Instead these are purposefully connected with other learning formats to increase memory retention and ensure each generation experiences the traditions of Yahweh
