Holger Henke, Ian Boxill, 2000-03-15 With the economic crisis in Asia which unfolded in recent years the development model on which the phenomenal earlier success of several countries in the region was built requires increasing scrutiny This anthology questions the validity of the notion promoted by some observers and international financial organizations that there is a universally applicable model of industrialization common to Asian countries A number of senior and highly regarded Asia specialists are taking a critical look at the various development experiences of several and some often neglected Asian countries and evaluate their experiences in a comparative perspective Comparing the analyses of countries such as Mongolia the Pacific Islands or Sri Lanka with Singapore South Korea and other countries of the region leads the editors of this volume to the conclusion that the fashionable talk about a model is not justified and that the picture is much more complex Immigration in Singapore Vasu, Wen Ling Chan, Su Yin Yeap, 2025-10-01 This study traces the socio political effects of immigration on Singapore and its population a topic that has been the subject of intense debate in the nation as its population grows increasingly diverse Beyond the logic of economic imperatives the book aims to explore the larger consequences of taking in large number of immigrants and its analysis should appeal to scholars of migration social change and public policy **Policy-Making for Education Reform in Developing Countries** William K.
