Institutions and Economic Growth in Asia Flora Huang, Horace Yeung, 2018-03-20. This book explores the role of institutions in economic growth, looking in particular at specific Asian countries and at particular cities within those countries. It considers a wide range of factors besides institutions, including the law, cultural factors and overall government arrangements. The differences between the countries studied are highlighted and the impact of these differences assessed: the impact of English common law on arrangements in Hong Kong, Singapore and Malaysia; sharia law in Malaysia; the differing lengths of time of colonial rule; the extent to which Chinese family businesses control an economy. Also studied are the degree to which the law is effectively applied and a range of other social, economic and cultural factors. The book's conclusions as to which factors have the greatest impact will be of considerable interest to economists of Asia and those interested in economic growth more widely.

Economic Freedom: Lessons Of Hong Kong Kui-wai Li, 2012-07-03. Hong Kong has been one of the fastest growing East Asian economies since the end of the Second World War. The adoption and practice of economic freedom have been major pillars in its economic success. Indeed, the experience of Hong Kong has served as a reference for other emerging economies in the region. The scope of the book elaborates the context and ingredients of economic freedom that have brought success and prosperity to Hong Kong. With sovereignty reversion to China in 1997, it is even more relevant to see how economic freedom is shaping and adapting to the new environment. There exist a number of economic indices based on economic freedom. Hong Kong has been ranked as the freest economy in the world for a number of consecutive years. While the economic freedom indices compare the performance of a large number of world economies, there is a lack of economic literature that studies the absolute level of economic freedom of a single economy. This book boldly serves the purpose of elaborating on the absolute performance of

economic freedom in the world's freest economy. It is therefore the first of its kind and unique in its field. Numerous areas of studies related to economic freedom are examined, studied and elaborated so that readers can have a full and comprehensive understanding of the content of economic freedom in Hong Kong.

ASEAN-China Economic Relations in the Context of Pacific Economic Development and Co-operation Siow Yue Chia, Bifan Cheng, 1992. Volume I of the series on ASEAN-China Relations focused on trends and patterns in bilateral economic relations between ASEAN countries on the one hand and China on the other. Volume II focused on macroeconomic and institutional developments in China and in selected sectors in ASEAN and China and their implications for bilateral economic relations. This third volume focuses on developments in the global arena and in the Pacific and their impact on bilateral economic relations between ASEAN and China. The papers cover the following economic developments in the Pacific region: the economic role of Japan and the United States; industrial restructuring in the Asian Newly Industrializing Economies; the special role of Hong Kong; prospects for Pacific economic cooperation; and China's membership in GATT.

Hong Kong's Economic And Financial Future Y. F. Luk, 2019-04-12.

SIGNIFICANT ISSUES SERIES papers are written for and published by the Center for Strategic and International Studies. The series will present the insights of prominent East Asian analysts and draw conclusions about complementarities or divergences that may exist. Those insights in turn will serve in the aggregate as the basis for a richer cross.

Introduction to Hong Kong Gilad James, PhD. Hong Kong is a special administrative region of the People's Republic of China. It is situated on the southeastern coast of China and has a population of over 7 million people. Hong Kong is made up of a main island and a series of smaller islands and is known for its impressive skyline and bustling port. The official languages of Hong Kong are Chinese and English and the region is known for its vibrant culture and cuisine. Hong Kong has a rich history that encompasses both Chinese and British influences. In 1842 the region was handed over to Great Britain by China in the Treaty of Nanking. Hong Kong remained under British rule until 1997 when it was returned to China under the principle of one country, two systems. Today Hong Kong has a highly developed economy that is centered on international trade and finance. The region also boasts a highly efficient public transportation system that includes buses, trains, trams, and ferries. With a unique blend of Eastern and Western cultures and a strong economic landscape, Hong Kong is truly a global city.

Skills Formation for Economic Growth David Lim, 2025-03-31. This book explores the vocational education programmes of Hong Kong programmes that are repeatedly noted for their excellence. The book traces the founding and development of the Vocational Training Council of Hong Kong which was set up in 1982 to offer sub-degree programmes in vocational and professional education and training. It shows how it transformed itself from an institution seen by industry, government and the public alike as not meeting the needs of Hong Kong to one that has spearheaded the development of this form of education in Hong Kong including offering degree programmes in these areas through its Technological and Higher Education Institute. Written by a leading scholar of vocational education with extensive experience of devising and

implementing vocational education programmes it offers this as a valuable resource to students and scholars of education particularly in an Asian context as well as of vocational and professional education and training

Widening Income Distribution in Post-Handover Hong Kong Hon-Kwong Lui, 2013-03-20 Before the handover to China in 1997 Hong Kong's economic growth was very strong and the unemployment rate dropped to a record low of 2.2 per cent. In recent years the widening income dispersion in Hong Kong has caught public attention. This book investigates the economic development and changes in income distribution of Hong Kong from different perspectives. Based on latest empirical evidence of Hong Kong, the book examines the relationship between economic restructuring and rising income disparity. Public housing programmes in Hong Kong affect half of the population directly and the other half indirectly. This book assesses the redistributive effect of public rental housing on income distribution. Moreover, Hong Kong embarked on an ambitious expansion programme of tertiary education in 1989. The expansion represents an exogenous increase in the supply of university graduates and the book evaluates the impact on income distribution. It also investigates the income dispersion among and between natives and immigrants. Researchers, politicians and policy makers should be interested to learn about the causes of rising income dispersion in post-handover Hong Kong uncovered in this book. Although economic restructuring is named as the prime suspect that caused rising income inequality, the empirical evidence proves otherwise. The book will be of interest to policy makers with implications on the social security system and income disparity.

Proceedings of the 9th International Conference on Financial Innovation and Economic Development (ICFIED 2024) Khaled Elbagory, Zefu Wu, Hamdan Amer Ali Al-Jaifi, Shafie Mohamed Zabri, 2024-05-07 This is an open access book. Background: Financial globalization plays a huge role in promoting the development of the world economy and the optimal allocation of world resources stimulates the accelerated development of the international division of labor and increases the international flow of production factors such as industrial transfer, capital transfer and technology transfer. It enables developing countries to make up for the lack of their own capital and technology and obtain industrial evolution, technological progress and institutional innovation, thereby accelerating the speed of economic development. It also enables developed countries to open up cheap labor, raw material markets and broad consumer markets, prolonging product value. More profits ease the economy, the contradiction of stagflation and restore economic growth. Present situation: At the current stage, the overall environment of the international financial market is relatively stable and the market environment has been improved to some extent. However, due to the complexity and diversity of the world economy coupled with the national characteristics of some countries, there is great uncertainty in international policies which has greatly affected the stability of the international financial market. In addition, the current international environment is changing. The conflict between Russia and Ukraine, the epidemic and the Taiwan issue have all had an impact on the international economic situation. This is also the difference between this conference and previous conferences. We hope to have a deeper discussion on the current situation. Objectives of this conference: The 9th
