Economic Reform And Democracy:

Economic Reform and Democracy Larry Jay Diamond, Marc F. Plattner, 1995 The emergence of new democracies in Eastern Europe has raised anew the question of the relationship between economic reform and political liberalization This work brings together a group of authorities to examine this question as it relates to Latin America Europe Asia and Africa

Democracy and Reforms Ms. Prachi Mishra, Ms. Paola Giuliano, Mr. Antonio Spilimbergo, 2010-07-01 Empirical evidence on the relationship between democracy and economic reforms is limited to few reform countries and years This paper studies the impact of democracy on the adoption of economic reforms using a new dataset on reforms in the financial capital and banking sectors product markets agriculture and trade for 150 countries over the period 1960-2004 Democracy has a positive and significant impact on the adoption of economic reforms but there is no evidence that economic reforms foster democracy Our results are robust to the inclusion of a large variety of controls and estimation strategies Economic Institutions and Democratic Reform Ole Nørgaard, 2000-01-01 This book will be essential and challenging reading for political scientists and economists as well as policymakers in NGOs such as aid agencies and the institutions of the EU BOOK JACKET

Voting for Reform Stephan Haggard, Steven Benjamin Webb, 1996 **Economic Reforms in New Democracies** Luiz Carlos Bresser Pereira, José María Maravall, Adam Przeworski, 1993-04-30 This assessment of the experiences of political transition in Southern Europe Latin America and Eastern Europe implies that the most successful reforms have been those resolved through democratic negotiation as opposed to the big bang approach *Economic Reform Processes in South Asia* Philippa Dee, 2012-07-26 While South Asia's economic reform initiatives of the last two decades were often born in crisis this alone does not account for their occurrence This book looks at the processes and institutional arrangements behind these reforms and analyses what lessons can be learnt about how South Asia can improve its policy efficiency The book develops ideas about how to overcome the political restraints to reform by drawing on recent theories of political economy and policy learning It tests these ideas against authoritative case studies of actual reform initiatives in South Asia which illustrate processes and institutional arrangements that have helped South Asian governments to sustain reform efforts even in the absence of a strong political base This offers valuable lessons for the global economy as it moves into a phase of rebalancing with the structural adjustments that this will require The book goes on to identify weaknesses that could be addressed by South Asian national governments and regional forums It is an important contribution to studies on South Asian Politics and International Political Economy **Gradual Economic Reform in Latin America** Mary A. Clark, 2001-07-19 Gradual Economic Reform in Latin America questions why most Latin American countries have not nearly completed neoliberal economic reforms Examining Costa Rica as an important example of the gradual as opposed to radical approach Mary A Clark utilizes over one hundred fifty interviews as well as secondary data to present ten mini case studies of structural adjustment in the 1980s and 1990s In analyzing the economic social and political outcomes of Costa Rica's experience Clark

concludes the gradual approach has yielded positive results and compares this country's experiences with that of other Latin American welfare states Economic Reform and Democracy in Latin America and The Caribbean The North-South Institute,1990 **The Oxford Handbook of Comparative Politics** Carles Boix,Susan Carol Stokes,2007 The Oxford Handbooks of Political Science is a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science Each volume focuses on a particular part of the discipline with volumes on Public Policy Political Theory Political Economy Contextual Political Analysis Comparative Politics International Relations Law and Politics Political Behavior Political Institutions and Political Methodology The project as a whole is under the General Editorship of Robert E Goodin with each volume being edited by a distinguished international group of specialists in their respective fields The books set out not just to report on the discipline but to shape it The series will be an indispensable point of reference for anyone working in political science and adjacent disciplines The Oxford Handbook of Comparative Politics offers a critical survey of the field of empirical political science through the collection of a set of chapters written by 47 top scholars in the discipline of comparative politics Part I includes chapters surveying the key research methodologies employed in comparative politics the comparative method the use of history the practice and status of case study research the contributions of field research and assessing the possibility of constructing a science of comparative politics Parts II to IV examine the foundations of political order the origins of states and the extent to which they relate to war and to economic development the sources of compliance or political obligation among citizens democratic transitions the role of civic culture authoritarianism revolutions civil wars and contentious politics Parts V and VI explore the mobilization representation and coordination of political demands Part V considers why parties emerge the forms they take and the ways in which voters choose parties It then includes chapters on collective action social movements and political participation Part VI opens up with essays on the mechanisms through which political demands are aggregated and coordinated This sets the agenda to the systematic exploration of the workings and effects of particular institutions electoral systems federalism legislative executive relationships the judiciary and bureaucracy Finally Part VII is organized around the burgeoning literature on macropolitical economy of the last two decades Economic Policy Reform Anne O. Krueger,2000-11-15 The papers and commentary collected here constitute a vital discussion of contemporary thinking on economic policy reform in particular the difficulties that leave so much of the world seemingly mired in poverty The Soviet Social Contract and why it Failed Linda J. Cook,1993 This book is the first critical assessment of the likelihood and implications of such a contract Linda Cook pursues the idea from Brezhnev's day to our own and considers the constraining effect it may have had on Gorbachev's attempts to liberalize the Soviet economy Liberalization Against Democracy Stephen J. King,2003-06-18 Annotation Local level study of a rural Tunisian town that illustrates why market oriented economic reforms have not necessarily led to political liberalization Indiana Series in Middle East Studies Mark Tessler general editor **Political Competition, Economic**

Reform and Growth Ivan Pavletic, 2010 Which political and institutional factors trigger reforms that enable the poor to benefit from the process of economic growth How can the incentives of policy makers be influenced in order to achieve such a dynamic These are the questions this study seeks to address by examining the transition process in post communist countries The author argues that political competition within an accepted and respected institutional environment has been a driving force in shaping the direction and success of transition reforms Evidence shows that in countries with a sufficient degree of political competition citizens responded to economic crises by calling for economic liberalization Economic liberalization removed existing distortions increased economic efficiency and raised public welfare This activated a dynamic self enforcing reform process that also strengthened the political and economic power of the poor In the absence of political competition such a process failed to emerge thereby contributing to the persistence of poverty Based on these findings there is good reason to postulate that some level of political competition is essential for transition reforms to improve economic efficiency and public welfare in a sustainable manner

Democracy's Place Ian Shapiro, 2018-10-18 One of our nation's most prolific and widely discussed political theorists Ian Shapiro speaks with a distinctive voice His work is Deweyan in its inspiration cosmopolitan in its concerns and practical in its referents In this book he provides his first extended statement on contemporary democratic politics Democracy's Place includes seven essays in which Shapiro carefully integrates the theoretical and the applied Four deal principally with democratic theory and its link to problems of social justice the other three detail applications in the United States the postcommunist world and the author's native South Africa All advance a view of democratic politics which rests on principled yet nuanced suspicion of hierarchical social arrangements and of political blueprints Shapiro's writing is unified as well by a pervasive concern with the relations between the requirements of democracy and those of social justice These themes substantiated by complex yet accessible arguments offer a constructive democratic perspective on contemporary debates about liberalism communitarianism and distributive justice

Networks of Privilege in the Middle East: The Politics of Economic Reform Revisited S. Heydemann, 2004-08-20 This volume explores the role of informal networks in the politics of Middle Eastern economic reform The editor's introduction demonstrates how network based models overcome limitations in existing approaches to the politics of economic reform The following chapters show how business state networks in Egypt Morocco Tunisia Syria Lebanon and Jordan have affected privatization programs and the reform of fiscal policies They help us understand patterns and variation in the organization and outcome of economic reform programs including the opportunities that economic reforms offered for reorganizing networks of economic privilege across the Middle East

From Economic Crisis to Reform Grigore Pop-Eleches, 2008-12-08 The wave of neoliberal economic reforms in the developing world since the 1980s has been regarded as the result of both severe economic crises and policy pressures from global financial institutions such as the International Monetary Fund IMF Using comparative evidence from the initiation and implementation of IMF programs in Latin America and Eastern Europe From Economic

Crisis to Reform shows that economic crises do not necessarily persuade governments to adopt IMF style economic policies. Instead ideology interests and institutions at both the international and domestic levels mediate responses to such crises. Grigore Pop Eleches explains that the IMF's response to economic crises reflects the changing priorities of large IMF member countries. He argues that the IMF gives greater attention and favorable treatment to economic crises when they occur in economically or politically important countries. The book also shows how during the neoliberal consensus of the 1990s economic crises triggered IMF style reforms from governments across the ideological spectrum and how these reforms were broadly compatible with democratic politics. By contrast during the Latin American debt crisis the contentious politics of IMF programs reflected the ideological rivalries of the Cold War. Economic crises triggered ideologically divergent domestic policy responses and democracy was often at odds with economic adjustment. The author demonstrates that an economic crisis triggers neoliberal economic reforms only when the government and the IMF agree about the roots and severity of the crisis.

The Politics of Market Reform in Fragile Democracies Kurt Gerhard Weyland, 2002. This book takes a powerful new approach to a question central to comparative politics and economics. Why do some leaders of fragile democracies attain political success culminating in reelection victories when pursuing drastic painful economic reforms while others see their political careers implode? Kurt Weyland examines in particular the surprising willingness of presidents in four Latin American countries to enact daring reforms and the unexpected resultant popular support. He argues that only with the robust cognitive psychological insights of prospect theory can one fully account for the twists and turns of politics and economic policy in Argentina, Brazil, Peru, and Venezuela during the 1980s and 1990s. Assessing conventional approaches such as rational choice, Weyland concludes that prospect theory is vital to any systematic attempt to understand the politics of market reform. Under this theory, if actors perceive themselves to be in a losing situation, they are inclined toward risks; if they see a winning situation around them, they prefer caution. In Latin America, Weyland finds where the public faced an open crisis, it backed draconian reforms. And where such reforms yielded an apparent economic recovery, many citizens and their leaders perceived prospects of gains. Successful leaders thus won reelection and the new market model achieved political sustainability. Weyland concludes this accessible book by considering when his novel approach can be used to study crises generally and how it might be applied to a wider range of cases from Latin America, Africa, and Eastern Europe.

The Dynamics of States Klaus Schlichte, 2016-12-05. State domination in the non-Western world is hallmarked by its constantly shifting character. This stimulating book develops a new approach to the study of state formation and state erosion to explain dynamics that neither follow the pathways of development nor the rule of stagnation that dependency theory once suggested. Carefully edited by Klaus Schlichte, this book provides a fresh angle to the study of states with an attempt to overcome Weber with Weber. The approach focuses on the historical authenticity of states and their institutional frameworks describing the trajectories taken as they react to the effects of changes in their international and local social environments. The emphasis

laid on the specific characteristics of individual states does not however lead to the theoretical difficulty of a new contextual relativism The conceptual design employs sociological categories developed by Max Weber Norbert Elias Michel Foucault Pierre Bourdieu and others *Foreign Operations, Export Financing, and Related Programs Appropriations for 2006* United States. Congress. House. Committee on Appropriations. Subcommittee on Foreign Operations, Export Financing, and Related Programs, 2005 **The Political Economy of Pension Policy Reversal in Post-Communist Countries** Sarah Wilson Sokhey, 2017-10-26 This book examines how and why policies are reversed by focusing on post communist backtracking on pension privatization
