president on the back of an inward looking America First promise Brexit and President Trump represent a growing and worrying trend towards protectionism in the North Atlantic countries that have led the process of globalisation since the end of the Second World War The chapters in the volume describe the state of play in Asian economic integration but more importantly look forward to the region's future and the role it might play in defending the global system that has underwritten its historic rise Asia has the potential to stand as a bulwark against the dual threats of North Atlantic protectionism and slowing trade growth but collective leadership will be needed regionally and difficult domestic reforms will be required in each country

The World Trade Organization and Trade in Services Kern Alexander, Mads Tønnesson Andenæs, 2008 The World Trade Organisation plays the primary role in regulating international trade in goods services and intellectual property Traditionally international trade law and regulation has been analysed primarily from the trade in goods perspective Services are becoming an important competence for the WTO The institutional legal and regulatory influence of the General Agreement on Trade in Services GATS on domestic economic policymaking is attracting increasing attention in the academic and policymaking

literature The growing importance of services trade to the global economy makes the application of the GATS to trade in services an important concern of international economic policy The GATS contains important innovations that build on the former GATT and existing WTO GATT trade regime for goods This book fills a void in the academic and policymaking literature by examining how the GATS governs international trade in services and its growing impact on the regulatory practice of WTO member states It offers a unique discussion of the major issues confronting WTO member states by analysing the GATS and related international trade issues from a variety of perspectives that include law political economy regulation and business Moreover the role of the WTO in promoting liberalised trade and economic development has come under serious strain because of the breakdown of the Doha Development Round negotiations The book analyses the issues in the Doha services debate with some suggested policy approaches that might help build a more durable GATS framework The book is a welcomed addition to the WTO literature and will serve as a point of reference for academics policymakers and practitioners

Augustine, 2016-07-27 International payments unions and clearing houses have been employed by 88 countries in Europe Asia Africa Latin America and the Caribbean to liberalise regional trade and payments during the past 50 years Yet their impact on participating countries has not been well understood When the republics of the former Soviet Union were deciding on new monetary regimes many economists proposed a payments union but could not estimate its potential benefits or risks This book presents the first fully articulated theory of international payments unions and clearing houses in order to answer the questions When should a country choose to participate in a payments union What benefits and costs have actually resulted from existing and past clearing houses When should countries in a clearing house seek to form a payments union

Economic Integration, Worldwide, Regional, Sectoral, 1976 **International Institutions in Trade and Finance** A. I. MacBean, P. N. Snowden, 2021-11-21 Originally published in 1981 this book provided an up to date and critical review of the recent history and current status of the main economic institutions affecting international trade and relations at the time The authors emphasise the economic effectiveness or otherwise of such bodies as GATT IMF EEC UNCTAD and the World Bank but take account of the political factors present in both the initial design and in the way that the institutions have developed In particular the book analyses the changed degree of dominance which the USA had been able to exert on the international community

Global Political Economy Robert Gilpin, Jean M. Gilpin, 2001-03-12 The end of the Cold War has unleashed unique economic and political forces Computers are an increasing impetus to the world economy along with technological developments This work studies these developments and others to survey the approaches to understanding international

economic relations **Comecon** J. J. Brine, 1992 Comecon or the Council for Mutual Economic Assistance was founded by Joseph Stalin in 1949 to counteract the Marshall Plan and reinforce the bonds between the Soviet Union and the people's democracies of Eastern Europe. Other Soviet Bloc nations later joined Comecon and for forty years it dominated the trade policies of the Soviet Bloc and profoundly influenced their domestic economic development and relations with the West. Comecon collapsed in 1991 after the countries of Eastern Europe rejected communism. It was often compared with the West European Common Market but differed vastly in its aims, structure, powers, and activities. Its influence is a critical factor in assessing both the economic failures of the Soviet Bloc and the problems facing former member states as they make the transition to free market economies. This detailed annotated bibliography is an essential guide to the extensive English language literature about Comecon from its founding until its demise. Chapters cover Comecon's history, structure, and law, socialist economic integration, the organization's arrangements for international trade and finance, environment, natural resources, and energy, labor, industry, and agriculture, science and technology. Comecon, like the rest of the Soviet Bloc, collapsed suddenly, but its legacy will color international relations and worldwide economic issues for years to come. An understanding of its institutions, mechanisms, and policies remains vital. In appreciating the economic organization of the former Soviet empire, this bibliography will therefore be indispensable to policymakers, economists, historians, and political scientists.
