Economic Stress Vonnie C. McLoyd, Constance A. Flanagan, 1990      *Societal Contexts of Child Development* Elizabeth T. Gershoff, Ph.D., Rashmita Mistry, Danielle A. Crosby, Ph.D., 2014 Societal Contexts of Child Development provides comprehensive literature reviews for six broad contextual influences on children's development and addresses these contexts from an applied research perspective      The Oxford Handbook of the Social Science of Poverty David Brady, Linda Burton, 2016 The Oxford Handbook of the Social Science of Poverty builds a common scholarly ground in the study of poverty by bringing together an international interdisciplinary group of scholars to provide their perspectives on the issue Contributors engage in discussions about the leading theories and conceptual debates regarding poverty the most salient topics in poverty research and the far reaching consequences of poverty on the individual and societal level      *Social and Emotional Adjustment and Family Relations in Ethnic Minority Families* Ronald D. Taylor, Margaret C. Wang, Margaret C Wang, 2013-11-26 This collection of essays addresses issues related to the intersection of family relationships and several contexts for the social and emotional development of ethnic minority adolescents The papers are organized in sections under subtitles which reflect three contextual frames through which these issues may be examined The first section focuses on the relationship between economic factors and resources on the one hand and family relations as environments for development on the other The next part focuses on family and peer networks and relations as contexts for the emotional and social development of adolescents The last section takes neighborhood and school as contexts for and determinants of social and emotional adjustment in adolescence Like much of the extant work and current thought concerning development in ethnic minority children and adolescents the authors have highlighted the more stressful and negative aspects of these several contexts There are a few explicit and several implicit references made to supportive and more positive contexts and manifestations of relationships which frame the developmental experiences of ethnic minority adolescents These serve as a reminder that many ethnic minority adolescents do overcome the odds against success and grow into healthy and wholesome adults However in large measure this book is a contribution to our understanding of the problematic circumstances under which a significant segment of the population exists reminding us that life for ethnic minority adolescents is difficult The fact that some of these young people manage to overcome the negative and stressful aspects of their experiences and defy the implicit prediction of failure to thrive is truly remarkable      **Handbook of Child Psychology and Developmental Science, Socioemotional Processes**, 2015-03-31 The essential reference for human development theory updated and reconceptualized The Handbook of Child Psychology and Developmental Science a four volume reference is the field defining work to which all others are compared First published in 1946 and now in its Seventh Edition the Handbook has long been considered the definitive guide to the field of developmental science Volume 3 Social Emotional and Personality Development presents up to date knowledge and theoretical understanding of these several facets of social emotional and
