The Global Competitiveness Report 2002-2003 World Economic Forum, 2003-03-27 The annual Global Competitiveness Report is widely recognized as the world's leading cross country comparison of data and information relating to economic competitiveness and growth Over the years the Report has become the most authoritative and comprehensive assessment of the comparative strengths and weaknesses of national economies throughout the world The World Economic Forum continues its tradition of excellence with The Global Competitiveness Report 2002 2003 which provides the most updated and recent data rankings and analysis of 75 industrialized and emerging economies and the latest thinking and research from prominent academics and international institution leaders on global competitiveness This year's report begins by presenting the widely quoted global competitive index that really comprises two indices one for growth and one for productivity It then provides global and regional analyses with examinations of the competitive landscapes of Africa Asia Central and Eastern Europe and Latin America Essays on a wide range of special topics follow including national innovative capacity governance foreign direct investment and trade performance The Report concludes with detailed country profiles data presentation and an exhaustive survey of senior business executives that touches on business conditions infrastructure the character of the regulatory regime the quality of government organized labor corruption and tax evasion The Global Competitiveness Report 2002 2003 provides essential information for business leaders government decision makers and for academics to examine the critical challenges facing a multitude of the world's economies IT and

European Bank Performance E. Beccalli, 2007-08-10 This book provides a detailed insight into the role of IT in European banking and investigates whether IT investments in hardware software and other IT services have influenced bank performance It considers the central question of whether or not the massive spending on IT by banks has improved their performance or productivity **IMF Staff Papers, Volume 56, No. 4** International Monetary Fund. Research

Dept., 2009-11-04 This paper empirically evaluates four types of costs that may result from an international sovereign default reputational costs international trade exclusion costs costs to the domestic economy through the financial system and political costs to the authorities It finds that the economic costs are generally significant but short lived and sometimes do not operate through conventional channels The political consequences of a debt crisis by contrast seem to be particularly dire for incumbent governments and finance ministers broadly in line with what happens in currency crises *The Palgrave Companion to Harvard Economics* Robert A. Cord, 2024-07-05 Harvard University has been and continues to be one of the

most important global centres for economics With three chapters on themes in Harvard economics and 41 chapters on the lives and work of Harvard economists these two volumes show how economics became established at the University how it produced some of the world's best known economists including Joseph Schumpeter Wassily Leontief and John Kenneth Galbraith and how it remains a global force for the very best in teaching and research in economics With original contributions from a stellar cast the volumes provide economists especially those interested in macroeconomics and the history of economic thought with an in depth analysis of Harvard economics
