Economic Instruments For Air Pollution Control:

Economic Instruments for Air Pollution Control Ger Klaassen, Finn R. Førsund, 2012-12-06 Economic theory and empirical models suggest that economic instruments should help us to meet environmental goals at lower cost Practical experience however shows that the cost savings of emission trading are smaller than expected and charges usually have had small incentive impacts This book gives the first comprehensive review of economic theory simulation models and practical experience with the use of economic instruments The book focuses on air pollution control Part I examines theoretical aspects and simulation modeling in a national context Part II surveys the practical experience in a variety of countries Part III explores international issues such as joint implementation Because of its unique blend of theoretical and empirical research the book will prove interesting for both economists and those interested in environmental policy **Survey of Economic**

Instruments for Air Pollution Control, 1991 **Economic Instruments for Air Pollution Control in Sweden** Kerstin

Lövgren, 1994 *The role of economic instruments within the Mexico City air pollution control policy* Andres

Flores-Montalvo, 1998 **Alternative Approaches to Pollution Control and Waste Management** Janis D.

Bernstein, World Bank, 1993 **The Theory and Practice of Command and Control in Environmental Policy** Peter

Berck, 2018-01-12 This title was first published in 2003 Economists have had increasing success in arguing the merits of market based approaches to environmental problems By making polluting expensive market based approaches provide polluters with incentives to clean up rather than mandates to stop polluting These approaches include pollution taxes transferable emissions permits and subsidies for pollution abatement The purpose of this volume is to explore the situations where Command and Control CAC may not be all bad and in fact might even have some advantages over market based instruments MBI *Using Economic Instruments to Control Air Pollution from Stationary Sources*, 1994

Environmental Economic Series Using Economic Instruments to Control Air Pollution from Stationary

Sources Walter MOORE, NSW Environment Protection Authority, 1994 *Economic Instruments of Pollution Control in an*

Imperfect World Tingsong Jiang, 2003 In this book Tingsong Jiang extensively discusses the wider issues of economic instruments of pollution control as well as paying specific attention to the control of carbon dioxide emissions in China The book begins with a general analysis of economic instruments of pollution control and is followed by the application of these in CO2 emission control The former presents the discussion of pollution control policies in general equilibrium settings focusing on the comparison of pollution taxes and tradable permits in certain kinds of circumstances with imperfections such as uncertainty and pre existing distortions An empirical evaluation of China s environmental policies is also included The latter brings the discussion into the area of global warming policies with the focus on the implications to China A dynamic general equilibrium model G Cubed T is developed to produce CO2 emissions projections from China the US and the rest of the world and to simulate various policy targets and instruments China may adopt to control its CO2 emissions With its systematic

evaluation of China's environmental policy this thorough and rigorous assessment will be invaluable reading for academics in environmental economics and environmental management policy analysts in environmental protection and global warming fields policymakers and government officials around the world as well as China specialists The Handbook of Maritime Economics and Business Costas Grammenos, 2013-07-04 This book is the founding title in the Grammenos Library The diversity of the subjects covered is unique and the results of research developed over many years are not only comprehensive but also have important implications on real life issues in maritime business The new edition covers a vast number of topics including Shipping Economics and Maritime Nexus International Seaborne Trade Economics of Shipping Market and Shipping Cycles Economics of Shipping Sectors Issues in Liner Shipping Economics of Maritime Safety and Seafaring Labour Market National and International Shipping Policies Aspects of Shipping Management and Operations Shipping Investment and Finance Port Economics and Management Aspects of International Logistics *Handbook of Environmental and Resource Economics* Jeroen C. J. M. Van den Bergh, 2002-01-01 This major reference book comprises specially commissioned surveys in environmental and resource economics written by an international team of experts Authoritative yet accessible each entry provides a state of the art summary of key areas that will be invaluable to researchers practitioners and advanced students **Economic Instruments for Pollution Control and Natural Resources Management in OECD Countries**, 1999 **Environmental Policy Between Regulation and Market** C. Jeanrenaud, 2013-03-07 Environmental policies have traditionally relied on direct controls and on government investment to protect natural resources Today the drawbacks and impediments to this approach are evident heavy burdens borne by companies and the community complex regulations a danger of legislative inflation difficulties in meeting the goals set to name a few In response the environmental authorities in many countries have begun to reassess the efficacy of their programs with the result that market incentives and voluntary agreements with companies or branches of industry have been added to the arsenal of traditional environmental protection measures There are great expectations for new economic instruments which offer the twofold advantage of giving companies more freedom in the choice of means and of increasing the chances for meeting goals in a more cost effective way The authors of this book analyse these instruments green taxes tradeable permits covenants joint implementation internationally tradeable quotas from the point of view of cost effectiveness their ability to achieve environmental goals and public and corporate acceptability They endeavour to determine on the basis of experience to date whether these instruments are living up to the hopes placed in them Handbook of Environmental Economics Karl-Goran Maler, Jeffrey R. Vincent, 2003-05-20 The Handbook of Environmental Economics focuses on the economics of environmental externalities and environmental public goods Volume I examines environmental degradation and policy responses from a microeconomic institutional standpoint Its perspective is dynamic including a consideration of the dynamics of natural systems and global with attention paid to issues in both rich and poor nations In addition to chapters on well established topics such as the theory and practice

of pollution regulation it includes chapters on new areas of environmental economics research related to common property management regimes population and poverty mechanism design political economy of regulation experimental evaluations of policy instruments and technological change *Evaluating Economic Instruments for Environmental Policy* Stephen Smith, Organisation for Economic Co-operation and Development, 1997 Evaluering af milj politikkens konomiske instrumenter

Remediation and Management of Degraded River Basins Vladimir Novotny, Laszlo Somlyódy, 2013-04-17 Leading experts present methodologies for basinwide approaches to water quality restoration In 15 chapters the identification of pollution sources definition of standards and their attainability surface and groundwater modeling remediation of contaminated soils and sediments development and implementation of low cost treatment technologies basinwide water quality management and remediation and economic and institutional issues are covered The book focuses on the situation in central and eastern European countries however the topics and solutions are of general interest and have worldwide applications **Emissions Trading** Thomas H. Tietenberg, 2010-09-30 First published in 1985 Emissions Trading was a comprehensive review of the first large scale attempt to use economic incentives in environmental policy in the U S and of the empirical and theoretical research on which this approach is based Since its publication it has consistently been one of the most widely cited works in the tradable permits literature The second edition of this classic study of pollution reform considers how the use of transferable permits to control pollution has evolved looks at how these programs have been implemented in the U S and internationally and offers an objective evaluation of the resulting successes failures and lessons learned over the last twenty five years *Flashpoints in Environmental Policymaking* Sheldon Kamieniecki, George A. Gonzalez, Robert O. Vos, 1997-04-25 As a contribution to public policy and to help educate students about natural resource issues this book identifies the likely hot spots of environmental policy and presents alternative and often opposing points of view on the major controversies that are likely to be with us well into the next century Among the topics covered are comparative risk assessment market incentives in environmental regulation environmental justice public versus private management of public lands international trade and sustainable development and the relationship between national security and environmental protection Green Civilization Xiaoxi Li, 2020-09-24 This book approaches Green Civilization based on the background of international initiative on sustainable development and in depth analyzes the valuable era consensus reached by 193 countries on the UN Sustainable Development 2030 Agenda The Author expounds own point of view to debate the well known book Clash of Civilizations by the method of contradictory debate dialectically In addition it demonstrates the development of Human Green Civilization systematically by Multi dimensional history material of human civilization This book covers the academic political and business in the world It is suitable for scholars researchers students and university degree readers for economics eco environment political science sociology and anthropology It aims at promoting the realization of the UN 2030 Agenda for Sustainable Development at promoting the dialogue between the East

and the West working for facilitating peace for mankind and spreading the advanced concept of sustainable human development to the people of all countries *Ecotaxes on Polluting Inputs and Outputs* Raja Jesudoss Chelliah, 2007 The use of taxes to put pressure on polluters has had mixed results internationally according to this study of economic instruments EIs as a means for cleaning up environmental hazards The analysis identifies several key considerations in structuring effective ecotaxes including trade offs between environmental and other goals the size of the tax base distortions in prices the possibility of phasing in the taxes incentives for compliance and the advisability of earmarking of funds for environmental protection Industries in India covered in the discussion include makers of automobiles coal fertilizers lead acid batteries paper and pulp pesticides plastics phosphate based detergents and rayon

Unveiling the Magic of Words: A Overview of "**Economic Instruments For Air Pollution Control**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring. Enter the realm of "**Economic Instruments For Air Pollution Control**," a mesmerizing literary masterpiece penned with a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve to the book is central themes, examine its distinctive writing style, and assess its profound impact on the souls of its readers.
