Nabli,Jeffrey B. identified as enabling Tunisia's initial success and those leading to its subsequent decline can provide many useful insights for improving the management of economic development across the whole MENA region and perhaps also to developing countries throughout the world

States of Discipline Cemal Burak Tansel, 2017-02-08 Despite the severity of the global economic crisis and the widespread aversion towards austerity policies neoliberalism remains the dominant mode of economic governance in the world What makes neoliberalism such a resilient mode of economic and political governance How does neoliberalism effectively reproduce itself in the face of popular opposition States of Discipline offers an answer to these questions by highlighting the ways in which today's neoliberalism reinforces and relies upon coercive practices that marginalize discipline and control social groups Such practices range from the development of market oriented policies through legal and administrative reforms at the local and national level to the coercive apparatuses of the state that repress the social forces that oppose various aspects of neoliberalization The book argues that these practices are built on the pre

existing infrastructure of neoliberal governance which strive towards limiting the spaces of popular resistance through a set of administrative legal and coercive mechanisms Exploring a range of case studies from across the world the book uses authoritarian neoliberalism as a conceptual prism to shed light on the institutionalization and employment of state practices that invalidate public input and silence popular resistance *Globalization and Geopolitics in the Middle East* Anoushiravan Ehteshami,2007-03-14 Examining globalization in the Middle East this book provides a much needed assessment of the impact of globalization in the greater Middle East including North Africa in the context of the powerful geopolitical forces at work in shaping the region today Written by a well known authority in this area this book demonstrates that unlike in other regions such as East Asia geopolitics has been a critical factor in driving globalization in the Middle East The author argues that whereas elsewhere globalisation has opened up the economy society culture and attitudes to the environment in the Middle East it has had the opposite effect with poor state formation little interregional trade foreign and interregional investment and reassertion of traditional identities This book explores the impact of globalization on the politics economies and social environment of the greater Middle East in the context of the region s position as the central site of global geopolitical competition at the start of the twenty first century **The State and Global Change** Hassan Hakimian,Ziba Moshaver,2020-08-11 Economic liberalisation and reform are widely considered as the favourite remedies for the declining economic fortunes of the Middle Eastern and North African states in the past two decades International economic institutions have been among the main advocates of transition to market led economies in the region and a force contributing to its realisation This has placed the state at the centre of the proposed transformations acting both as an instrument of and an obstacle to change With attempts at liberalisation worldwide spanning over twenty years the time is ripe for a re evaluation of its premises and outcome The essays in this volume debate the political economy of transition and reforms in the Middle East and North Africa drawing on interdisciplinary approaches and outlooks involving international regional and national levels of analysis The three central themes of the book are the rationale and strategies for reform the processes and outcomes and the nature of the state in the changing global setting *Aid and Power in the Arab World* J. Harrigan,H. El-Said,2009-02-25 This book looks at the provision of finance in the Middle East and North Africa MENA by the IMF and World Bank in return for economic liberalization exploring the political motivations of funding and geo politics in recipients The effectiveness of funding is questioned with evidence from four MENA countries **Everyday Economic Practices** Savinna Chowdhury,2007-01-22 Exploring the significance of local everyday economic practices to development policy making this book demonstrates why it is a misrepresentation to characterize all that is economic ascapitalism and offers alternative ways to conceptualize economic developments rather than just as the industrialization urbanization and environmental degradation as experienced by the West *Economic Liberalisation, Social Capital and Islamic Welfare Provision* J. Harrigan,H. El-Said,2009-02-25 This book looks at two aspects of Islamic activity in the Middle East and North

Africa the development of social capital and the provision of welfare services within the context of economic liberalisation programmes to see whether the retrenchment of the state under liberalisation has created a space for Islamic based activities

Globalized Authoritarianism Koenraad Bogaert, 2018-03-20

A rich investigation into Morocco s urban politics Over the past thirty years Morocco s cities have transformed dramatically To take just one example Casablanca s medina is now obscured behind skyscrapers that are funded by global capital and encouraged by Morocco s monarchy which hopes to transform this city into a regional leader of finance and commerce Such changes have occurred throughout Morocco Megaprojects are redesigning the cityscapes of Rabat Tangiers and Casablanca turning the nation s urban centers into laboratories of capital accumulation political dominance and social control In Globalized Authoritarianism Koenraad Bogaert links more abstract questions of government globalization and neoliberalism with concrete changes in the city Bogaert goes deep beneath the surface of Morocco s urban prosperity to reveal how neoliberal government and the increased connectivity engendered by global capitalism transformed Morocco s leading urban spaces opening up new sites for capital accumulation creating enormous class divisions and enabling new innovations in state authoritarianism Analyzing these transformations he argues that economic globalization does not necessarily lead to increased democratization but to authoritarianism with a different face to a form of authoritarian government that becomes more and more a globalized affair Showing how Morocco s experiences have helped produce new forms of globalization Bogaert offers a bridge between in depth issues of Middle Eastern studies and broader questions of power class and capital
