An Economic History of the U.S.S.R. Alec Nove,1969 Study in historical perspective of developments in economic policy in the USSR covers economic structures and economic administration prior to and during the 1st world war the position during the 50 years of the communist regime political leadership of the country the collective economy industrialization political problems economic growth etc Bibliography pp 389 to 391 and statistical tables *An Economic History of the USSR, 1917-1991* Alec Nove,1992 Traces the economic development of the Soviet Union from war communism through the five year plans and collectivization to the beginning of the Gorbachev reforms and the final disintegration The Economic Transformation of the Soviet Union, 1913-1945 R. W. Davies,Mark Harrison,S. G. Wheatcroft,1994 Leading scholars in the field analyse the Soviet economy sector by sector to make available in textbook form the results of the latest research on Soviet industrialisation The Rise and Fall of the The Soviet Economy Philip Hanson,2014-09-11 Why did the Soviet economic system fall apart Did the economy simply overreach itself through military spending Was it the centrally planned character of Soviet socialism that was at fault Or did a potentially viable mechanism come apart in Gorbachev s clumsy hands Does its failure mean that true socialism is never economically viable The economic dimension is at the very heart of the Russian story in the twentieth century Economic issues were the cornerstone of soviet ideology and the soviet system and economic issues brought the whole system crashing down in 1989 91 This book is a record of what happened and it is also an analysis of the failure of Soviet economics as a concept *The Rise and Fall of the Soviet Economy* Philip Hanson,2003 Combining skilful economic political and social analysis this text provides a fascinating insight into the decline of the Soviet Union **An Economic History of the USSR** Alec Nove,1992 *The Soviet Economy* Alec Nove,1968 *A Short Economic History of the USSR* Aleksandr Mikhailovich Podkolzin,1968 **AN ECONOMIC HISTORY OF THE U.S.S.R** ,1969 *The Economic Development of the USSR* Roger Munting,2023-06-14 The Economic Development of the USSR 1982 examines the economic advances the Soviet Union made as the first major economy to adopt full scale socialist planning It argues that the Soviet experience demonstrates that remarkable quantitative economic progress can be achieved but at a price which Western democracies would not tolerate Moreover while the planning and control mechanism of the USSR produced striking results in the case of agriculture it often failed to produce satisfactory results The book provides an impartial assessment of the merits and defects of the Soviet planning system which also served as a model for many other Communist countries **Soviet Economic Development from Lenin to Khrushchev** Robert William Davies,1998-03-28 This book provides a comprehensive survey of Soviet economic development from 1917 to 1965 in the context of the pre revolutionary economy In these years the Soviet Union negotiated the first stages of modern industrialisation and then after the defeat of Nazi Germany and its allies emerged as one of the two world superpowers This was also the first attempt to construct a planned socialist order These developments resulted in great economic achievements at great human cost Using

the results of recent Russian and Western research Professor Davies discusses the inherent faults and strengths of the system and pays particular attention to the major controversies Was the Russian Revolution doomed to failure from the outset Could the mixed economy of the 1920s have led to a democratic socialist economy What was the influence of Soviet economic development on the rest of the world      **An Economic History of Twentieth-Century Europe** Ivan T.

O'Rourke,2010-06-24 Unlike most existing textbooks on the economic history of modern Europe which offer a country by country approach The Cambridge Economic History of Modern Europe rethinks Europe s economic history since 1700 as unified and pan European with the material organized by topic rather than by country This second volume tracks Europe s economic history through three major phases

since 1870 The first phase was an age of globalization and of European economic and political dominance that lasted until the First World War The second from 1914 to 1945 was one of war deglobalization and depression and the third was one of growing integration not only within Europe but also between Europe and the global economy Leading authors offer comprehensive and accessible introductions to these patterns of globalization and deglobalization as well as to key themes in modern economic history such as economic growth business cycles sectoral developments and population and living standards

macro terms along with the role of various mutations among the economists and the institutionalization of such mutations especially in the framework of the existing research institutes and universities The book also considers the attitudes of various factions of economists such as reactionaries conservatives and modernizers toward the question of the limitation of the leaders power and toward some areas of economics such as problems of mathematical modeling and institutional economics and toward the Marxist ideology The final chapter highlights the confusing struggle among the various trends in Soviet economics and the ways in which this struggle is supported by the country s political leaders This monograph will be of interest to economists political scientists politicians and economic policymakers
