Economics Of Information In The Networked Environment:

The Economics of Information in the Networked Environment Meredith A. Butler, Bruce R. Kingma, 2019-12-06 In this book first published in 1998 world renowned experts on the subject of contemporary librarianship analyse the problems associated with coping with an ever expanding knowledge base given their current economic constraints and budgets It examines challenging marketplace solutions to problems in the economics of information economic modelling of investments in information resources at academic institutions the economics of resource sharing consortia and document delivery and measuring the costs and benefits of distance learning *Handbook on the Economics of the Internet* Johannes M. Bauer, Michael Latzer, 2016-05-27 The Internet is connecting an increasing number of individuals organizations and devices into global networks of information flows It is accelerating the dynamics of innovation in the digital economy affecting the nature and intensity of competition and enabling private companies governments and the non profit sector to develop new business models In this new ecosystem many of the theoretical assumptions and historical observations upon which economics rests are altered and need critical reassessment Copyright and the NII Patricia Brennan, 1996 **The Economic Transformation of the United States, 1950-2000** George Kozmetsky, Piyu Yue, 2005 A detailed analysis of US economic transformation in the last 50 years including the principal drivers for economic growth US demographic transformation and the changing sector structure of the US economy High Performance Computing and Network Program United States. Congress. House. Committee on Science, Space, and Technology. Subcommittee on Science, 1993 The purpose of the hearing transcribed in this document was to obtain the views of representatives of network user and provider communities regarding the path the National Science Foundation NSF is taking for recompetition of the NSFNET computer network In particular the committee was interested in the consistency of the evolution of NSFNET with the goals and characteristics of the National Research and Education Network specified in the High Performance Computing Act Another purpose of the hearing was to explore possible legislation that would expand the program into additional applications for broad public benefit including education teacher training manufacturing technologies medical imaging and the creation of standards for the storage of data in digital libraries Persons who offered testimony and prepared statements were 1 Robert C Heterick Jr EDUCOM 2 Thomas J Tauke NYNEX 3 Kenneth J Klingenstein University of Colorado at Boulder and Federation of American Research Networks 4 Mitchell Kapor Electronic Frontier Foundation 5 Kenneth R Kay Computer Systems Policy Project 6 Michael McDonald Communications and Computer Applications in Public Health 7 Sara A Parker Pennsylvania State libraries and representing the American Library Association and 8 Charlie Bender Coalition of Academic Supercomputer Centers KRN **The Law and Economics of Intellectual Property in the Digital Age** Niva Elkin-Koren, Eli Salzberger, 2012-11-27 This book explores the economic analysis of intellectual property law with a special emphasis on the Law and Economics of informational goods in light of the past decade s technological revolution In recent

years there has been massive growth in the Law and Economics literature focusing on intellectual property on both normative and positive levels of analysis The economic approach to intellectual property is often described as a monolithic coherent approach that may differ only as it is applied to a particular case Yet the growing literature of Law and Economics in intellectual property does not speak in one voice The economic discourse used in legal scholarship and in policy making encompasses several strands each reflecting a fundamentally different approach to the economics of informational works and each grounded in a different ideology or methodological paradigm This book delineates the various economic approaches taken and analyzes their tenets It maps the fundamental concepts and the theoretical foundation of current economic analysis of intellectual property law in order to fully understand the ramifications of using economic analysis of law in policy making In so doing one begins to appreciate the limitations of the current frameworks in confronting the challenges of the information revolution The book addresses the fundamental adjustments in the methodology and underlying assumptions that must be employed in order for the economic approach to remain a useful analytical framework for addressing IPR in the information age
