Enseigner à communiquer en langue étrangère Sophie Moirand, 1982-01-01 T00:00:00+01:00. Depuis quelques années les théories sur l'enseignement de la communication circulent et se bousculent. L'auteur essaie dans une première partie de définir le cadre théorique de cet enseignement en langue étrangère les notions auxquelles on se réfère situation compétence de communication etc les méthodes d'analyse utilisées pour décoder les discours authentiques ou la communication dans la classe de langue. Mais le lecteur plus attiré par les implications de la théorie dans les pratiques enseignantes peut commencer cet ouvrage par la deuxième partie où l'auteur fait des propositions concrètes pour la laboration de programmes communicatifs ainsi que pour une approche de l'oral interactionnel et une approche communicative de l'écrit. Il s'agit donc de mises au point et de suggestions qui se veulent constructives pour les enseignants de langue.
