Weldon Kees and the Arts at Midcentury Daniel A. Siedell,2003-01-01 Born in 1914 in Beatrice Nebraska and
presumed dead in 1955 when he apparently leapt from the Golden Gate Bridge Weldon Kees has become one of the better
known unknown American poets of the twentieth century his fiction and poetry largely kept alive by other poets But Kees
was also that rare artist who excelled in many genres and media a skillful painter filmmaker jazz musician and composer He
was a gifted critic as well and his criticism bears the marks of his own deep and broad engagement with the arts Weldon
Kees and the Arts at Midcentury is the first book to reflect the full range and reach of Kees s artistic activities Bringing
together writers from various disciplines art historians poets literary critics curators and cultural scholars including Dore
Ashton James Reidel Dana Gioia and Stephen C Foster this volume offers a wide variety of perspectives through which to
evaluate the meaning and significance of Kees s achievement Although the essays themselves partake of the diversity of Kees
s impact on the culture all agree on one fundamental point any history of postwar American culture that neglects Kees s
multifaceted contribution is ultimately incomplete France and the Visual Arts since 1945 Catherine Dossin,2018-09-20
Taking on the myth of France s creative exhaustion following World War II this collection of essays brings together an
international team of scholars whose research offers English readers a rich and complex overview of the place of France and

French artists in the visual arts since 1945 Addressing a wide range of artistic practices spanning over seven decades and using different methodologies their contributions cover ground charted and unknown They introduce greater depth and specificity to familiar artists and movements such as Lettrism Situationist International or Nouveau Réalisme while bringing to the fore lesser known artists and groups including GRAPUS the Sociological Art Collective and Nicolas Schffer Collectively they stress the political dimensions and social ambitions of the art produced in France at the time deconstruct the traditional geography of the French art world and highlight the multiculturalism of the French art scene that resulted from its colonial past and the constant flux of artistic travels and migrations Ultimately the book contributes to a story of postwar art in which France can be inscribed not as a main or sub chapter but rather as a vector in the wider constellation of modern and contemporary art *The New York Times Guide to the Arts of the 20th Century: 1900-1929*, 2002 Reviews news articles interviews and essays capturing 100 years of art architecture literature music dance theater film and television

Soft Boundaries Claire Detels,1999-11-30 American education and culture are suffering from a terrible soul numbing imbalance in which there is an overemphasis on basic quantifiable skills and knowledge and a de emphasis of more creative areas of the humanities especially the arts and aesthetics Detels indicates that the marginalization of the arts and aesthetics in American education has been caused by a hard boundaried paradigm that has come to dominate American education According to this paradigm the arts are wrongly viewed and taught as separate unconnected disciplines of music visual arts dance and theater while their intimate connections to each other and to aesthetic experience and life in general are completely unrepresented The way out of this crisis is to change paradigms from a hard boundaried single minded valuation of specialization to a more soft boundaried curriculum that allows for specialized education in individual art forms as well as widespread interdisciplinary integration of the arts with each other and with general education at the K 12 and college levels Without such a change we will be unable to equip our students with the necessary skills to understand and

communicate about the increasingly complex sensually immersive artistic media and forms of the future
