Exterminators In The Year 3000:

'80s Action Movies on the Cheap Daniel R. Budnik, 2017-03-21 The 1980s was the decade when the action film as it is now known came into being. Nonstop big budget excitement became the standard as epic adventures like *Raiders of the Lost Ark* and *The Road Warrior* set the tone for the summer blockbusters of Sylvester Stallone, Arnold Schwarzenegger and Chuck Norris. Homages and ripoffs made with lesser budgets followed every hit, especially with the advent of direct to video releases. Providing detailed commentary on 284 films, this book explores the excitement, audacity and sheer weirdness of 80s low budget action cinema from the American Ninja series to dime a dozen barbarian pictures to such bargain basement productions as *The Courier of Death*, *Kill Squad* and *Samurai Cop*. **Watching the World Die** Mike Bogue, 2023-10-26 During the 1980s popular fear of World War III spurred moviemakers to produce dozens of nuclear threat films. Categories ranged from monster movies to post-apocalyptic adventures to realistic depictions of nuclear war and its immediate aftermath. Coverage of atomic angst films isn't new, but this is the first book to solely analyze 1980s nuclear threat movies as a group. Entries range from classics such as *The Day After* and *WarGames* to obscurities such as *Desert Warrior* and *Massive Retaliation*. Chronological coverage of the 121 films released between 1980 and 1990 includes production details, chapter notes and critical commentaries. *Spaghetti Westerns--the Good, the Bad and the Violent* Thomas Weisser, 2014-03-11 Spaghetti Westerns, mostly produced in Italy or by Italians but made throughout Europe, were bleaker, rougher, grittier imitations of Hollywood Westerns focusing on heroes only slightly less evil than the villains. After a main filmography covering 558 Spaghetti Westerns, another section provides filmographies of personnel: actors and actresses, directors, musical composers, scriptwriters, cinematographers. Appendices provide lists of the popular Django films and the Sartana films, a listing of U.S. made Spaghetti Western lookalikes, top ten and twenty lists, and a list of the genre's worst. **Horror and Science Fiction Films III** Donald C. Willis, 1984 The third volume in the author's *Horror and Science Fiction Films* series covers new titles released from 1981 to 1983 and updates entries in the original list. **The Italian Cinema Book** Peter Bondanella, 2019-07-25 THE ITALIAN CINEMA BOOK is an essential guide to the most important historical, aesthetic and cultural aspects of Italian cinema from 1895 to the present day. With contributions from 39 leading international scholars, the book is structured around six chronologically organised sections: THE SILENT ERA 1895-22, THE BIRTH OF THE TALKIES AND THE FASCIST ERA 1922-45, POSTWAR CINEMATIC CULTURE 1945-59, THE GOLDEN AGE OF ITALIAN CINEMA 1960-80, AN AGE OF CRISIS, TRANSITION AND CONSOLIDATION 1981 TO THE PRESENT, NEW DIRECTIONS IN CRITICAL APPROACHES TO ITALIAN CINEMA. Acutely aware of the contemporary rethinking of Italian cinema history, Peter Bondanella has brought together a diverse range of essays which represent the cutting edge of Italian film theory and criticism. This provocative collection will provide the film student, scholar or enthusiast with a comprehensive understanding of the major developments in what might be called twentieth century Italy's greatest and most original art form. **Fights**

of Fancy George Edgar Slusser, Eric S. Rabkin, 1993 This collection of fifteen original essays offers new perspectives on armed conflict as a central aspect of science fiction and fantasy writing Looking past the superficial conventions associated with ray guns and aliens swords and sorcerers the contributors show how writers in the genre today are not so much imagining war more fully as they are completely re imagining it Science fiction and fantasy writing is no longer mired in epic or chivalric models but is responding to new and more complex real world motivations for armed aggression advances in weaponry shifts in the theaters of war and changes in battlefield conditions Most of the papers were presented at the annual J Lloyd Eaton Conference on Science Fiction and Fantasy Literature the field s most prestigious international gathering The trend throughout the book is away from critical interest in stories of spatial or territorial conquest and toward works that deal with topics related to wars of temporal logistics and the internationalization of the combat zone including urban street violence gender conflicts and resistance to runaway technology The essays range from studies of the semantics and linguistics of warfare in science fiction to a critique of Osip Senkovsky s *Fantastic Journeys of Baron Brambeus* from writer Joe Haldeman s assessment of the impact of his Vietnam experiences on his fiction to inquiries into a shared author reader agenda in novels concerning potential mass destruction including Stephen King s *Dead Zone* and M J Engh s *Arslan* The collection also charts new directions in writing such as the anti apocalyptic science fiction of Samuel R Delany and embraces new modes of presentation particularly computer animation and the bande dessinée or illustrated narrative as exemplified by French novelist Phillippe Druillet s *La Nuit* Musician Bob Marley film actor directors Sylvester Stallone and Bruce Lee and the cyberpunk film classics *Terminator* and the *Road Warrior* series are among other topics discussed Together the essays reinforce the editors contention that the true function of these fantasies and science fictions is neither nostalgia nor fancy but analysis The contributors treat the texts they examine as a means not of playing war games but of understanding the role of war in the present and the future

How the World Remade Hollywood Ed Glaser, 2022-03-07 For decades filmmakers worldwide have been remaking Hollywood movies in colorful ways They've chronicled a singing and dancing Hannibal Lecter in India star crossed lovers aboard the doomed Nigerian ship Titanic a Japanese expedition to the planet of the apes and an uncivil war in Turkey between Captain America and a mobbed up Spider Man Most of these films were low budget and many were unauthorized but all of them were fantastic and lately have begun to resurface thanks to cherry picked YouTube clips But why and how were they made in the first place This book tells the little known stories of the wily filmmakers who made an Italian 007 flick by casting Sean Connery's tradesman brother produced a Turkish space opera by stealing a print of Star Wars for its effects footage and transported a full fledged Terminator to the present day not from a post apocalyptic future but from the vibrant mythology of Indonesia Their stories reveal more than mere imitations they demonstrate the fascinating ways ideas evolve as they cross borders

Atomic Bomb Cinema Jerome F. Shapiro, 2013-05-13 Unfathomably merciless and powerful the atomic bomb has left its indelible

mark on film In Atomic Bomb Cinema Jerome F Shapiro unearths the unspoken legacy of the bombing of Nagasaki and Hiroshima and its complex aftermath in American and Japanese cinema According to Shapiro a Bomb film is never simply an exercise in ideology or paranoia He examines hundreds of films like Godzilla Dr Strangelove and The Terminator as a body of work held together by ancient narrative and symbolic traditions that extol survival under devastating conditions Drawing extensively on both English language and Japanese language sources Shapiro argues that such films not only grapple with our nuclear anxieties but also offer signs of hope that humanity is capable of repairing a damaged and divided world [www atomicbombcinema com](http://www.atomicbombcinema.com)

Film and the Nuclear Age Toni A. Perrine, 2019-01-22 Just as we generally pay scant attention to the potential dangers of nuclear power and nuclear war until quite recently scholars have made limited critical attempts to understand the cultural manifestations of the nuclear status quo Films that feature nuclear issues most often simplify and trivialize the subject They also convey a sense of the ambivalence and anxiety that pervades cultural responses to our nuclear capability The production of popular narrative films with nuclear topics largely conforms to periods of heightened nuclear awareness or fear such as the fear of fallout from nuclear testing manifested in the atomic creatures in science fiction movies of the late 1950s By their very numbers and through a set of recurring stylistic and narrative conventions nuclear films reflect a deep seated cultural anxiety This study includes detailed textual analysis of films that depict nuclear issues including the development and use of the first atomic bombs nuclear testing and the fear of fallout nuclear power the Cold War arms race loose nukes and future nuclear war and its aftermath Includes bibliographic references index filmography chronology Illustrated
