Images of people about to die surface repeatedly in the news particularly around the difficult and unsettled events of war  
political revolution terrorism natural disaster and other crises Their appearance raises questions What equips an image to  
deliver the news how much does the public need to know to make sense of what they see and what do these images  
contribute to historical memory About To Die addresses these questions by using images of imminent death as a litmus test  
for considering news imagery and visual meaning more broadly      *Winning Photo Contests* Jeanne Stallman,1990
