Day, 1996-10-11 This book offers a much needed reassessment of F R Leavis Gary Day argues that post structuralist theory has defined itself in opposition to Leavis

when in fact there are certain parallels between the two types of criticism Day also draws attention to the connections between Leavis's early work and the emergent discourses of consumerism and scientific management In particular he notes how at the centre of each is an image of the body and he analyses what this means for Leavis's conception of reading By situating Leavis in relation to the concerns of post structuralism and by locating him firmly in his historical context Day is able to chart how far criticism can justly claim to be oppositional At the same time Day is able to recuperate from Leavis's work a notion of value a topic which is becoming increasingly important in literary and cultural studies today Civil Humor Stephen W. Delchamps, 2002 Individual chapters treat the poetry Ewart contributed to various little magazines during the 1930s and 1940s references in Ewart's poems to poetic craft audience and tradition and his handling of characteristic themes including place the world of work marriage and children and death A full chapter is devoted to the erotically charged poetry for which Ewart was probably best known the author argues that the richness of this poetry arises from the dynamic interplay of two contrasting poetical personae BOOK JACKET
