Argument or Mythicist Myths? Maurice Casey,2014-01-16 Did Jesus exist In recent years there has been a massive

upsurge in public discussion of the view that Jesus did not exist. This view first found a voice in the 19th century when Christian views were no longer taken for granted. Some way into the 20th century this school of thought was largely thought to have been utterly refuted by the results of respectable critical scholarship from both secular and religious scholars. Now many unprofessional scholars and bloggers, mythicists, are gaining an increasingly large following for a view many think to be unsupportable. It is starting to influence the academy more than that it is starting to influence the views of the public about a crucial historical figure. Maurice Casey, one of the most important Historical Jesus scholars of his generation, takes the mythicists to task in this landmark publication. Casey argues neither from a religious perspective nor from that of a committed atheist. Rather, he seeks to provide a clear view of what can be said about Jesus and of what can't. **Alfred Loisy and the Making of History of Religions** Annelies Lanny, 2020-08-10. This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe. Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Collège de France, Alfred Loisy (1857-1940), who participated in many of the most topical debates among French and international historians of religions. Unlike his well-studied Modernist theology, Loisy's writings on comparative religion and his rich interactions with famous scholars like F. Cumont, M. Mauss, or J. G. Frazer remain largely unknown. This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908. Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence, it illuminates the scientification of the discipline between 1890-1920 and its deep entanglement with religion, politics, and society. Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical and institutional frameworks for studying the history of religions. *The Debaters of This Age* Steven H. Propp, 2019-02-05. It is June 2018 as an unusual group of scholars, professors, lecturers, and students gather in a California hotel. They are all attendees of an Apologetics conference intended to join qualified representatives of Christian, Deist, and Atheist thought for a two-week, no-holds-barred debate and discussion of their respective positions that will ultimately be included in a book published after the conference. Evangelical Christianity is represented by advocates of Evidentialist and Presuppositionalist approaches to Apologetics. Catholicism, liberal Christianity, and Deism are also well supported. The Atheist perspective is advocated by a polemical author and a college professor notorious for attacking the views of his Christian students. As the participants argue over controversial issues such as cosmology, evolution, the Bible, historical evidence for Jesus, the resurrection, biblical prophecies, and the problem of evil, intellectual fireworks result. But what will result when such a volatile and eclectic group is placed face to face for more than two weeks? *The Debaters of this Age* is the tale of what happens inside a California hotel in 2018 when a group of intellectuals gather to vigorously discuss the religious issues of our time. **IN HIS NAME** E. Christopher Reyes, 2014-05. Today almost all the major Christian sects tell their followers what they can or cannot read. The truth could be disastrous to

their faith In 1562 the Vatican established a special censoring office called Index Expurgatorius whose sole purpose was to prohibit the publication of Erroneous Passages of the Early Church Fathers which carried statements opposing their modern day dogma The Word is whatever the Christian Church says it is and when Vatican archivists came across genuine copies of the Church Fathers they corrected edited added abridged condensed and supplemented them according to the Expurgatory Index Index Expurgatorius Vaticanus R Gibbings ed Dublin 1837 The Literary Policy of the Church of Rome Joseph Mendham J Duncan London 1830 2nd ed 1840 The Vatican Censors op cit p 328 But throughout history few but the great thinkers of society understood this symbiotic relationship of politics and religion and those who spoke out became stigmatized by both the powerful priesthood and the ruling oligarchy You sniveling priest you are imposing delusions upon society for your own aggrandizement Voltaire French philosopher rationalist free thinker _____ All developed societies are but an extension of the political views of the ruling oligarchy upon the many the suffering poor If every criminal and inhumane act ever committed were traced to its root cause that root would be buried deep in religion Sherry Matulis activist 1931 _____ The most infamous Catholic of the all time one of history's great mass murderers Hitler realizes the symbiotic relationship between children and religion and puts it succinctly in the twentieth century The state must declare the child to be the most precious treasure of the people As long as the government is perceived as working for the benefit of the children the people will happily endure almost any curtailment of liberty and almost any deprivation Adolf Hitler Mein Kampf **The Making of American Liberal Theology** Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom CHRISTIANITY IS AN ARTIFICIAL RELIGION DEVELOPED IN THE LABORATORIES OF ROME Mammadov, Jabbar Manaf oglu, 2023-01-23 The book claims that Christianity was a project of Rome and was invented in its laboratories like Qumran Under the Achaemenids and even earlier in the entire Middle East up to India there lived Arameans half of whom professed Judaism or were to some extent influenced by the Bible In order to split their front and turn this force of theirs against themselves Rome organized secret centers for the study of the Hebrew Bible in different parts of the empire where the predictions of the former Jewish prophets were analyzed The remains of some of these centers

are found today on the coast of the Dead Sea for example at Qumran Mossad etc In these laboratories think tanks the image of a new preacher teacher of righteousness named Jesus of Nazareth was fabricated Using the method of adjusting events and biography to the prophecies of the Hebrew prophets Roman political technologists came up with a biography demeanor and texts of sermons for this fictional character corresponding to the predictions After the harsh suppression of the Jews during the First Jewish War 66-70 Rome was in dire need of agents of influence in order to curb the aggression of the people and reconcile them with defeat It is at this stage that the image of the hitherto unknown Jesus enters the historical arena This fictional Jewish character called his people to humility patience calmness obedience to Rome He offered not to blame Rome for anything and to look for the roots of all troubles in himself and in the Jewish Bible Christian pacifism and Christian anti-Semitism All the power of the propaganda machine of Rome was connected to the promotion of his ideas in the Middle East It was at this time after the First Jewish War that the entire Middle East was enveloped in a boom of missionaries in the guise of prostitutes merchants artisans travelers teachers mentors apostles philanthropists etc agents of influence propagating ideas this fictitious prophet As the ideas of Christianity spread a split and confrontation began to grow in the Jewish community which the Roman administrative bodies tried to do Guided by its standard policy of Divide and Conquer Rome used these methods to oppose different layers of the Aramaean Jewish society weakened and very easily conquered the entire Middle East and the Black Sea region Before the final rooting of a new artificial religion Christianity in the Middle East and the Black Sea region Rome carefully camouflaged its participation in its formation so as not to extradite its agents abroad and not disclose their source of funding It is worth emphasizing that being a Muslim the author does not belong to the Jewish religion In this book he approaches the problem from a purely scientific point of view and does not pursue any religious or ethno-political goal Sometimes the author's pronounced anti-Roman inclination is connected with the cultural role of Rome in history due to which the entire pre-Roman history culture science of the Middle East and Europe created over several thousand years was wiped off the face of the Earth

Social Democracy in the Making Gary Dorrien, 2019-04-23 An expansive and ambitious intellectual history of democratic socialism from one of the world's leading intellectual historians and social ethicists The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism a democracy in which the people control the economy and government no group dominates any other and every citizen is free equal and included With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany this book traces the story of democratic socialism from its birth in the nineteenth century through the mid-1960s Examining the tenets on which the movement was founded and how it adapted to different cultural religious and economic contexts from its beginnings through the social and political traumas of the twentieth century Gary Dorrien reminds us that Christian socialism paved the way for all liberation theologies that make the struggles of oppressed peoples the subject of redemption He argues for a decentralized economic democracy and anti-imperial
