Extreme Programming Refactored Don Rosenberg,Matt Stephens,2008-01-01 Extreme Programming Refactored The Case Against XP featuring Songs of the Extremos takes a satirical look at the increasingly hyped extreme programming XP methodology It explores some quite astonishing Extremo quotes that have typified the XP approach quotes such as XPers are not afraid of oral documentation Schedule is the customer s problem Dependencies between requirements are more a matter of fear than reality and Concentration is the enemy In between the chuckles though there is a serious analysis of XP s many flaws The authors also examine C3 the first XP project whose team most of whom went on to get XP book deals shortly before C3 s cancellation described themselves as the best team on the face of the Earth In a later chapter the authors also note that one problem which can affect pair programmers is overconfidence or is that eXcessive courage The authors examine whether the problems that led to C3 s inexplicable cancellation could also afflict present day XP projects In the final chapter Refactoring XP Matt and Doug suggest some ways of achieving the agile goals of XP using some XP practices used in moderation combined with other less risk laden methods **Extreme Programming and Agile Methods - XP/Agile**

experiences and build connections XP 2010 continued in the tradition of this conference series and provided an interesting and varied program As usual we had a number of different kinds of activities in the conference program including research papers experience reports tutorials workshops panels lightning talks and posters These proceedings contain full search papers short research papers and experience reports Moreover we have also included in these proceedings the abstracts of the posters the position papers of the PhD symposium and the abstract of the panel This year we had two different program committees for evaluating research papers and experience reports Each committee included experts in the specific area This approach allowed us to better evaluate the quality of the papers and provide better suggestions to the authors to improve the quality of their contributions

a unique forum for industry and academic professionals to discuss their needs and ideas for incorporating Extreme Programming and Agile Methodologies into their professional life under consideration of the human factor We celebrated this year's conference by reflecting on what we had achieved in the last half decade and we also focused on the challenges we will face in the near future
