Eye of the Blackbird Holly L. Skinner, 2001 From California to the Klondike prospector Holly Skinner follows a trail of gold across the nineteenth century American West Living in a ghost town on Wyoming's South Pass she steps back into a world where gold ruled the passions of those who pursued it and changed the shape of the nation that found it In a style reminiscent of John McPhee Skinner weaves the story of her own solitudinous search for the precious metal into her accounts of the gold rushes that so dramatically accelerated the westward movement

Ortiz-Robles,2016-06-17 Why do animals talk in literature In this provocative book Mario Ortiz Robles tracks the presence of animals across an expansive literary archive to argue that literature cannot be understood as a human endeavor apart from its capacity to represent animals Focusing on the literary representation of familiar animals including horses dogs cats and songbirds Ortiz Robles examines the various tropes literature has historically employed to give meaning to our fraught relations with other animals Beyond allowing us to imagine the lives of non humans literature can make a lasting contribution to Animal Studies an emerging discipline within the humanities by showing us that there is something fictional about our relation to animals Literature and Animal Studies combines a broad mapping of literary animals with detailed readings of key animal texts to offer a new way of organizing literary history that emphasizes genera over genres and a new way of classifying animals that is premised on tropes rather than taxa The book makes us see animals and our relation to them with fresh eyes and in doing so prompts us to review the role of literature in a culture that considers it an endangered art form
