Friends Shalidan Leonard and Shayanna Michaels were each happy living in the relatively New Municipality of New Las Vegas The city was created to replace its Government evacuated twin years earlier The two young people African American called blacacan now are attending college both young and hopeful for the future Yet State Senator Uresa Raychel mentor and associate did send them into Old Las Vegas The Senator believes that as she serves with two Presidents and colleagues whose real agendas are unsure that the New Symbiotic Government must ask these young people to sacrifice Shalidan must fulfill what he was born to do for the greater good of the Nation perhaps the world As for Shayanna the Senator suspects the young man will resist it but the young woman may become a victim of the time With this obligation upon them it becomes heavier Shalidan and Shayanna have become wanted fugitives under penalty of death Hounded by the various Governmental agencies and watched by mercenaries and inhabitants alike Shali and Shaya do not know whom to trust amongst a sea of deception and uncertain loyalties The young Shali must figure out a centuries old puzzle of which he is a piece The young Shaya must find within herself to trust or die at the hands of the cities forgotten inhabitants New and old allies or enemies come and go for the two Will Shaya survive the city with Shali or will Shali have to sacrifice her and his affections for the greater good of billions living Evading confinement death and inadequacy the two blacacan youth press on to the future Desert Notebooks Ben Ehrenreich, 2021-07-06

Layering climate science mythologies nature writing and personal experiences this New York Times Notable Book presents a stunning reckoning with our current moment and with the literal and figurative end of time Desert Notebooks examines how the unprecedented pace of destruction to our environment and an increasingly unstable geopolitical landscape have led us to the brink of a calamity greater than any humankind has confronted before As inhabitants of the Anthropocene what might some of our own histories tell us about how to confront apocalypse And how might the geologies and ecologies of desert spaces inform how we see and act toward time the pasts we have erased and paved over this anxious present the future we have no choice but to build Ehrenreich draws on the stark grandeur of the desert to ask how we might reckon with the uncertainty that surrounds us and fight off the crises that have already begun In the canyons and oases of the Mojave and in Las Vegas's neon apocalypse Ehrenreich finds beauty and even hope surging up in the most unlikely places from the most barren rocks and the apparent emptiness of the sky Desert Notebooks is a vital and necessary chronicle of our past and our present unflinching urgent yet timeless and profound
