Crider, 2004 The Great Redan at Sebastopol James W. Bancroft, 2023-04-06 On 18 June 1855 the 40th anniversary of the Battle of Waterloo British assault troops moved out of their trenches before Sebastopol in the Crimea and attacked the formidable Russian bastion known as the Great Redan They came under such a murderous fire from the Russian defenders that the attack faltered and the British were eventually forced to fall back As they did so they left over 1 000 comrades dead and dying out in the open and at the mercy of enemy snipers The Siege of Sebastopol saw the development of trench warfare for the first time Using eyewitness accounts and unpublished letters the author tells the story of how the men coped with the terrible conditions as they prepared for the assault as well as the events during and after the fighting Among the anecdotes is an officer who had the ingenious idea of warming up cannon balls in the camp fires and taking them into the tents at night to keep warm and he went on to live for over a hundred years Well known for his depth of research the author questions a number of points regarding the Great Redan that are commonly believed to be historical fact Quoting the father of Alexander the Great it was the Russians who soon after the assault on the Great Redan first referred to the British as An army of lions led on by donkeys For over 100 years it was stated in many publications that the most Victoria Crosses awarded for a single action was the eleven presented for actions during the defense of Rorke's Drift during the Zulu War in 1879 However as the author reveals twenty of the lions who fought at the Great Redan received Britain's highest gallantry award in whole or in part for their actions on 18 June 1855 The book includes biographical tributes to many of the men who were killed in action gives details of the places where they are commemorated and provides biographies with all the up to date information concerning the twenty Victoria Cross recipients **Encyclopedia of African Colonial Conflicts** Timothy J. Stapleton, 2016-11-07 Two volumes introduce the history of colonial wars in Africa and illustrate why African countries like the Democratic Republic of Congo Nigeria Somalia and Sudan continue to experience ethnic political and religious violence

Babits, Douglas Dowell Scott, David G. Orr, 2010-12-15 The recent work of anthropologists historians and historical archaeologists has changed the very essence of military history While once preoccupied with great battles and the generals who commanded the armies and employed the tactics military history has begun to emphasize the importance of the common man for interpreting events As a result military historians have begun to see military forces and the people serving in them from different perspectives The Historical Archaeology of Military Sites has encouraged efforts to understand armies as human communities and to address the lives of those who composed them Tying a group of combatants to the successes and failures of their military commanders leads to a failure to understand such groups as distinct social units and in some instances self supporting societies structured around a defined social and political hierarchy regulated by law needing to be supplied and nurtured and often at odds with the human community whose lands they occupied be they those of friend or foe The Historical Archaeology of Military Sites will afford students professionals dealing with military sites and the interested public examples of the latest techniques and proven field methods to aid understanding and conservation of these vital pieces of the world s heritage *Term Paper Resource Guide to Nineteenth-Century World History* William T. that continue to have tremendous impact **The Victorians at War, 1815-1914** Harold E. Raugh Jr.,2004-10-25 Capturing the strength of the British Army from 1815 to 1914 this groundbreaking reference presents the most recent research on the most significant wars campaigns battles and leaders The Victorians at War 1815 1914 An Encyclopedia of British Military History surveys the major wars campaigns battles and expeditions of the British Army as well as its weaponry tactics and all other aspects of its operations from the end of the Napoleonic Wars to the dawn of World War I Containing numerous maps depicting various theaters of war this all encompassing volume explains why the numerous military operations took place and what the results were Biographies reveal fascinating facts about British and Indian Army officers and other ranks while other entries deal with recruitment training education and literacy uniforms equipment pay and conditions social backgrounds of the soldiers diseases and wounds they fell victim to and much more This volume is indispensable to those wanting to gain information about the British Army during this remarkable imperial era Bastions and Barbed Wire Tony Pollard,Iain Banks,2009-04-15 Various papers on the archaeology of conflict including battlefield archaeology The main focus of the volume is confinement as expressed by a wide variety of contexts Most obviously these include Nazi concentration camps which are in need of credible archaeological attention the editorial points out the dangers of the misappropriation of archaeological and scientific techniques by Holocaust deniers Other forms of confinement are examined in papers focussing on the archaeology of island defences and siege sites with the sieges of Leith from 1650 and of Fort William from 1646 both recently being subject to archaeological investigation Other contributions include a study of shell holes and field defences from the battle of the Bulge 1944 **Into the Valley of Death** Nick Thomas,2021-06-09 Unique work that details the status of each man known to have taken an active part in the Charge listing the evidence supporting their case for inclusion among the ranks of the immortal Light Cavalry Brigade Into the Valley of Death tells the thrilling story of the Charge of the Light Brigade in the words of the men who fought during the most heroic and yet futile engagement of the modern era By drawing on key evidence the author has not only provided a clear narrative of the events leading up to the 25th October 1854 but has painted a vivid picture of the Charge itself No punches are pulled and the carnage which ensued is clear for all to read dispelling the romantic myth of death or glory fostered by the Victorians This work tells the blood and guts story of a desperate charge by 673 men in the face of what seemed insurmountable odds It reveals the trauma endured by the rank and file who witnessed all around them men and horses cut to pieces while endeavoring to ride through walls of flying iron and lead and not knowing if the next second would be their last Yet in the midst of this horror and devastation the author takes time to give an overview of the battle itself and puts on the hats of some of the commanders involved looking at not only what they did but also at how a terrible disaster could so easily have been turned into the greatest single victory of its time Could such an apparently mad cap charge have succeeded Did sufficient men arrive at the guns to successfully capture them Were there troops and close support that could have been utilized to drastically change the course of events Could a simple stalling

tactic have allowed these resources to have been fully exploited All of these questions are answered This work truly lifts the lid on the events of over 150 years ago and through the words of the survivors allows the reader to assign the responsibility for the Charge having taken place and for the consequent loss of the Light Brigade Picturing War in France, 1792-1856 Katie Hornstein,2018-02-06 From the walls of the Salon to the pages of weekly newspapers war imagery was immensely popular in postrevolutionary France This fascinating book studies representations of contemporary conflict in the first half of the 19th century and explores how these pictures provided citizens with an imaginative stake in wars being waged in their name As she traces the evolution of images of war from a visual form that had previously been intended for mostly elite audiences to one that was enjoyed by a much broader public over the course of the 19th century Katie Hornstein carefully considers the influence of emergent technologies and popular media such as lithography photography and panoramas on both artistic style and public taste With close readings and handsome reproductions in various media from monumental battle paintings to popular prints Picturing War in France 1792 1856 draws on contemporary art criticism war reporting and the burgeoning illustrated press to reveal the crucial role such images played in shaping modern understandings of conflict
