Fabric Of Defeat

John A. Salmond

Fabric Of Defeat:

A Fabric of Defeat Bryant Simon, 1998 In this book Bryant Simon brings to life the politics of white South Carolina millhands during the first half of the twentieth century His revealing and moving account explores how this group of southern laborers thought about and participated in politics *Tangled* Travis Sutton Byrd, 2024-01-12 Labor strife in piedmont mills had left eight dead in the summer of 1929 prompting the AFL affiliated United Textile Workers of America UTW to strike an uneasy deal with the North Carolina governor Their mutual goal was to root out and destroy the efforts of a rival communist organization the National Textile Workers Union NTWU and thus erase Bolshevism in Dixie The stage was set for a new round of conflict that would unfold over the next half decade not only in North Carolina but in several surrounding states In this follow up to *Unraveled* his account of the 1929 events Travis Sutton Byrd deftly explores a complex story of labor relations political transitions and emergent class consciousness in the industrial South He seeks to answer why with the coming of the Depression and New Deal initiatives to combat it the region proved to be such a vexing battleground for labor organizers whether mainstream or radical This book examines the initiation and failure of the AFL UTW s Organize the South Campaign and the attendant rise and demise of Coalitionism a fusion between organized labor progressive Republicans and disaffected Democrats It also documents the evolution of contradictory impulses trade unionism and collective bargaining versus individualism and right to work doctrine and pays special attention to the now forgotten High Point North Carolina hosiery strike of 1932 which achieved its goals in remarkable fashion even though it never regularized under either the UTW or the NTWU The story culminates in 1934 when a general strike swept the country in a desperate effort to force the reform promised by the National Recovery Act Drawing especially on regional newspaper accounts to show how the key actors millhands owners organizers and politicians understood the events *Tangled* is a thoroughly engrossing chronicle that carries vital lessons for today s labor leaders and policymakers *Gruesome Looking Objects* Elijah Gaddis, 2022-11-17 The 1898 lynching of Tom Johnson and Joe Kizer is retold in this groundbreaking book Unlike other histories of lynching that rely on conventional historical records this study focuses on the objects associated with the lynching including newspaper articles fragments of the victims clothing photographs and souvenirs such as sticks from the hanging tree This material culture approach uncovers how people tried to integrate the meaning of the lynching into their everyday lives through objects These seemingly ordinary items are repositories for the comprehension interpretation and commemoration of racial violence and white supremacy Elijah Gaddis showcases an approach to objects as materials of history and memory insisting that we live in a world suffused with the material traces of racial violence past and present

Entangled by White Supremacy Janet Hudson, 2009-03-20 In *Entangled by White Supremacy* Reform in World War I era South Carolina Janet G Hudson analyzes World War I era South Carolina a state whose white minority maintained political power by rigidly enforcing white supremacy over its African American majority Considering the aspirations and

actions of both black and white reformers Hudson looks at African American activism the vigor of white reformers and the influence of a multifaceted ideology of white supremacy that became a barrier to the region's progress Detailing African American resistance to white supremacy long before the traditional Civil Rights era the book illuminates the critical nature of South Carolina to the civil rights movement and to the later demise of Progressivism **A Fabric of Defeat** Bryant Simon,1992

Paths Out of Dixie Robert Mickey,2015-02-22 The transformation of the American South from authoritarian to democratic rule is the most important political development since World War II It has re sorted voters into parties remapped presidential elections and helped polarize Congress Most important it is the final step in America's democratization Paths Out of Dixie illuminates this sea change by analyzing the democratization experiences of Georgia Mississippi and South Carolina Robert Mickey argues that Southern states from the 1890s until the early 1970s constituted pockets of authoritarian rule trapped within and sustained by a federal democracy These enclaves devoted to cheap agricultural labor and white supremacy were established by conservative Democrats to protect their careers and clients From the abolition of the whites only Democratic primary in 1944 until the national party reforms of the early 1970s enclaves were battered and destroyed by a series of democratization pressures from inside and outside their borders Drawing on archival research Mickey traces how Deep South rulers dissimilar in their internal conflict and political institutions varied in their responses to these challenges Ultimately enclaves differed in their degree of violence incorporation of African Americans and reconciliation of Democrats with the national party These diverse paths generated political and economic legacies that continue to reverberate today Focusing on enclave rulers their governance challenges and the monumental achievements of their adversaries Paths Out of Dixie shows how the struggles of the recent past have reshaped the South and in so doing America's political development **Americans in a World at War** Brooke L. Blower,2023 Americans in a World at War tells the panoramic and often surprising story of seven worldly Americans their personal histories their politics and

the paths that led them to board a Pan American Airways seaplane bound for Lisbon in February 1943 When the Yankee Clipper crashed in the Tagus River it took numerous lives but left a paper trail that leads to a richer deeper understanding of Americans diverse global commitments during the first half of the twentieth century as well as how the Second World War would transform those engagements With All Deliberate Speed Brian J. Daugherty, Charles C. Bolton, 2011-05 This is the first effort to provide a broad assessment of how well the Brown v Board of Education decision that declared an end to segregated schools in the United States was implemented Written by a distinguished group of historians the twelve essays in this collection examine how African Americans and their supporters in twelve states Arkansas North Carolina Virginia South Carolina Georgia Mississippi Florida Delaware Missouri Indiana Nevada and Wisconsin dealt with the Court's mandate to desegregate with all deliberate speed The process followed many diverse paths Some of the common themes in these efforts were the importance of black activism especially the crucial role played by the NAACP entrenched white opposition to school integration which wasn't just a southern state issue as is shown in Delaware Wisconsin and Indiana and the role of the federal government a sometimes inconstant and sometimes reluctant source of support for implementing Brown The Politics of Whiteness Michelle Brattain, 2004 The Politics of Whiteness presents the first sustained analysis of white racial identity among workers in what was the South's largest industry for much of the twentieth century textiles Michelle Brattain who grounds her work in a study of Rome Georgia from the Great Depression to the 1970s adds a significant new dimension to a field that before had focused primarily on antiunionism paternalism or mill village culture Many scholars have argued that racial tensions kept black and white workers from seeing their shared interests While that may be so says Brattain Jim Crow and southern industry also functioned to give white workers very different and racially specific interests Most important Brattain uncovers considerable white working class political influence and activism which by re-creating and defending southern institutions grounded in the idea of racial difference helped pave the way for resistance to the civil rights movement **"Our Country First, Then Greenville"** Courtney L. Tollison Hartness, 2023-06-15 Places Greenville's experience during World War I within the context of the progressive era to better understand the rise of this New South city Greenville South Carolina has become an attractive destination frequently included in lists of the Best Small Cities in America While Greenville's twenty first century Renaissance has been impressive in Our Country First Then Greenville Courtney L. Tollison Hartness explores an earlier period revealing how Greenville's experience during World War I served to generate massive development in the city and the region It was this moment that catalyzed Greenville's development into a modern city setting the stage for the continued growth that persists into the present day Our Country First Then Greenville explores Greenville's home front experience of race relations dramatic population growth the number of Greenville residents nearly tripled between 1900 and 1930s the women's suffrage movement and the contributions of African Americans and women to Greenville's history This important work features photos of Greenville found in archival collections throughout the

country and dating back over one hundred years **Southern Workers and the Search for Community** George Calvin Waldrep, 2000 *Southern Workers and the Search for Community* is the first major effort to interpret the enduring legacy of the southern textile industry company owned mill villages and the union struggles of the 1930s Focusing on Spartanburg County South Carolina G C Waldrep offers an eloquent study of the hopes and fears that define patterns of labor activism Revealing a complex meshing of community ties and traditions with the goals and ideals of unionism Waldrep shows how unions fed into a social vision of mutuality equality and interdependency already established in mill villages This powerful sense of community however ultimately rested on sand Because the villages themselves were the property of management any labor conflict involved not only issues of wages hours and working conditions inside the mill but also virtually every other aspect of life Most important the mill owners held the trump card of eviction Waldrep looks beyond official versions of union activity in Spartanburg County to explain the episodic and apparently erratic eruptions of labor tensions and intervening periods of calm Drawing on private records of textile workers their employers and their unions during the 1930s and 1940s as well as more than a hundred oral interviews with workers Waldrep reinterprets the periods of quiescence that have long puzzled historians Documenting the high stakes of labor protest in mill villages Waldrep shows how the erosion or outright destruction of community systematically undermined the ability of workers to respond to the assaults of employers overwhelmingly supported by government agencies and agents Beautifully written and persuasively argued *Southern Workers and the Search for Community* opens the gates of southern company towns to illuminate the human issues behind the mechanics of labor *The General Textile Strike of 1934* John A. Salmond, 2002 *The Federal Reporter*, 1894 Includes cases argued and determined in the District Courts of the United States and Mar May 1880 Oct Nov 1912 the Circuit Courts of the United States Sept Dec 1891 Sept Nov 1924 the Circuit Courts of Appeals of the United States Aug Oct 1911 Jan Feb 1914 the Commerce Court of the United States Sept Oct 1919 Sept Nov 1924 the Court of Appeals of the District of Columbia

A Companion to the American South John B. Boles, 2008-04-15 *A Companion to the American South* surveys and evaluates the most important and innovative writing on the entire sweep of the history of the southern United States Contains 29 original essays by leading experts in American Southern history Covers the entire sweep of Southern history including slavery politics the Civil War race relations religion and women s history Surveys and evaluates the best scholarship on every important era and topic Summarizes current debates and anticipates future concerns **To Face Down Dixie** James O. Heath, 2017-12-14 In an era during which the United States Supreme Court handed down some of its most important decisions including *Brown v Board of Education* 1954 *Baker v Carr* 1962 and *Miranda v Arizona* 1966 three senators from South Carolina Olin Johnston Strom Thurmond and Ernest Fritz Hollings waged war on the court s progressive agenda by targeting the federal judicial nominations process *To Face Down Dixie* explores these senators role in some of the most contentious confirmation battles in recent history including those of Thurgood Marshall Abe Fortas and Clement Haynsworth

In scrutinizing Supreme Court nominees and attempting to restrict the power of the nine justices of the court these senators defied not only the leadership of the Democratic Party but also the Senate traditions of hierarchy and seniority Along with South Carolina s conservative segregationist political establishment which maintained ironclad control over the state s legislature Johnston Thurmond and Hollings effectively drowned out the many moderate voices in South Carolina that remained critical of their obstructionism thus advancing their own conservative credentials and boosting their chances of reelection To Face Down Dixie examines for the first time the central role that South Carolina played in turning Supreme Court nomination hearings into confrontational and political public events James O Heath argues that the state s war on the court concealed its antipathy to civil rights by using the confirmation process to challenge the court s function as the final arbiter of policy on questions relating to law and order obscenity communist subversion and school prayer Heath s study illustrates that while South Carolina s history of massive resistance is less prominent than that of other states its politicians acted as persistent antagonists in the complex and dramatic debates in the U S Senate during the era of civil rights
