current information about every imaginable cosmetic innovation **Working Out Desire** Sertaç Sehlíkoglu, 2021-01-12

Working Out Desire examines spor meraki as an object of desire shared by a broad and diverse group of Istanbulite women. Sehlíkoglu follows the latest anthropological scholarship that defines desire beyond the moment it is felt, experienced or even yearned for, and as something that is formed through a series of social and historical makings. She traces Istanbulite women's ever increasing interest in exercise not merely to an interest in sport but also to an interest in establishing a new self, one that attempts to escape from conventional feminine duties and an investment in forming a more agentive, desiring self. Working Out Desire develops a multilayered analysis of how women use spor meraki to take themselves out of the domestic zone, physically, emotionally, and also imaginatively. Sehlíkoglu pushes back against the conventional boundaries of scholarly interest in Muslim women as pious subjects. Instead, it places women's desiring subjectivity at its center and traces women's agentive aspirations in the way they bend the norms which are embedded in the multiple patriarchal ideologies of nationalism, religion, aesthetics, which operate on their selves. Working Out Desire presents the ways in which women's changing habits, leisure, and self-formation in the Muslim world and the Middle East are connected to their agentive capacities to shift and transform their conditions and socio-cultural capabilities.

Rewind Your Body Clock Jayney Goddard, 2019-05-14

Packed with science-based insight into what it really means to age, and reminding us that we have far more control over how young we feel and look than most of us realize, this comprehensive guide by natural health expert Jayney Goddard offers the ultimate blueprint for anti-ageing the natural way. Our attitudes towards ageing have undergone radical changes in recent years, and many women now recognize that beauty and health come not from invasive procedures, fillers, or expensive skincare brands, but from the inside out. This book is an expert, holistic guide on the science of how to age well, not only physically and mentally, but also emotionally, and even spiritually, covering everything from nutrition, herbal medicine, good breathing, the best exercise, mental attitude, natural skincare, haircare, and facelift techniques, hormonal balance, good relationships, the power of nature, and the power of sleep. Each chapter includes easily implementable techniques which, while natural, are supported by solid scientific research, with a focus on the neurobiology of happiness and how to develop a 'rewind' mindset. All this is underpinned with biological age tests for readers to try for themselves, and at the end, a specifically designed practical programme called the Personal 21 Day Rewind Plan. The result: Better skin, a leaner body, stronger bones, improved cognitive function, enhanced libido, more energy, improved immune function, increased resistance to degenerative diseases, more resilience against stress, and much more. So, while we can't change our chronological age, we can dramatically reduce, and even reverse, our biological age, so that we have plenty more healthy, happy years to look forward to.
