spent more than half of his creative career 27 years living and working in the United States The effects of this emigration  
upon his art were once widely deemed to be wholly negative since it seemingly marked a rejection of aggressively political  
satire I had simply lost all interest in human weaknesses and individual foibles wrote Grosz in his autobiography and the  
further I drew away from them the closer I felt to nature Grosz was particularly passionate about the art of watercolor so  
much so that shortly before his death in 1959 he began to write a book on watercolor technique and his innovations in this  
area alongside his caricatures of New York life and his more apocalyptic war paintings have at last been retrieved from the  
respective shadows of Grosz's own earlier work and of American Abstract Expressionism which reigned supreme during  
Grosz's American years This is the first book devoted to this crucial phase in his life      **George Grosz : Works on Paper**
