materials are primarily associated with assemblage object based practices which emerged in the mid 1950s and culminated in the seminal exhibition *The Art of Assemblage* in New York in 1961 With its deployment of the discarded and the filthy Whiteley argues assemblage has been viewed as a disruptive transgressive artform that engaged with narratives of social and political dissent often in the face of modernist condemnation as worthless kitsch In the Sixties parallel techniques flourished in Western Europe the US and Australia but the idiom of assemblage and the re use of found materials and objects with artist as bricoleur is just as prevalent now This is a timely book that uncovers the etymology of waste and the cultures of disposability within these economies of wealth Imperfect Fit Allen Fisher,2016-11-15 *Imperfect Fit* is a dynamic study of the relationships between modern art and avant garde poetry from the 1950s to the present that provides fascinating glimpses into both Allen Fisher s remarkable work as a poet painter and critic as well as the state of avant garde aesthetics as a whole British Sculptors of the Twentieth Century Alan Windsor,2020-09-10 This title was first published 2003 In the twentieth century Britain was rich in artistic achievement especially in sculpture Just some of those working in this field were Jacob Epstein Henri Gaudier Brzeska Henry Moore Barbara Hepworth Anthony Caro Richard Long Mona Hatoum and Anish Kapoor The work of these and other known and less well known artists has an astonishing variety and expressive power a range and strength that has placed Britain at the hub of the artistic world Alan Windsor has compiled a concise biographical dictionary of sculpture in Britain in book form Richly informative and easy to use this guide is an art lover s and expert s essential reference Written by scholars the entries are cross referenced and each concise biographical outline provides the relevant facts about the artist s life a brief characterization of the artist s work and where appropriate major bibliographical references **Sculpture and the Garden** Patrick Eyres,2017-07-05 Although the integration of sculpture in gardens is part of a long tradition dating back at least to antiquity the sculptures themselves are often overlooked both in the history of art and in the history of the garden This collection of essays considers the changing relationship between sculpture and gardens over the last three centuries focusing on four British archetypes the Georgian landscape garden the Victorian urban park the outdoor spaces of twentieth century modernism and the late twentieth century sculpture park Through a series of case studies exploring the contemporaneous audiences of gardens the book uncovers the social political and gendered messages revealed by sculpture s placement and suggests that the garden can itself be read as a sculptural landscape **Studio International** ,1976 **Playing with Paradox** George Fullard,John Kirby,1998 Bibliographic Guide to Art and Architecture New York Public Library. Art and Architecture Division,1975 **Radicalised by FIFA** Jean Williams,2025-07-03 What do a childhood on a remote farm a career in academia and the corrupt underbelly of global football have in common In *Radicalised by FIFA* Football History and Feminism Professor Jean Williams weaves them together with sharp humour and political bite Part memoir part cultural critique *Radicalised by FIFA* explores how a love of football and outrage at its inequalities sparked a lifelong campaign for justice both on and off the pitch From muddy

grassroots fields to the politics of the Women's World Cup Jean exposes the systemic barriers facing women in sport and in life With themes of gender power institutional hypocrisy and the personal toll of pushing against entrenched systems Radicalised by FIFA is essential reading for anyone who believes in the transformative potential of sport and the need to reform it The memoir also covers the impact of global events like the SARS and COVID pandemics and September 11 alongside the rise of social media and the fight for equal pay in women's football **George Fullard, 1923-1973** George Fullard, 1974 The Sculpture Journal, 1997 British Art of the Long 1980s Imogen Racz, 2020-11-26 The sculptural history of the long 1980s has been dominated by New British Sculpture and Young British Artists Arguing for a more expansive history of British sculpture and its supporting infrastructures these twenty three vivid and enthralling interviews with artists curators dealers and facilitators working then demonstrate the interconnected networks diversity of ideas and practices energy imagination and determination that transformed British art from being marginal to internationally celebrated With a substantial introduction this timely volume provides valuable new insights into the education work careers studios infrastructures and exhibitions of the artists and facilitators substantially enlarging our understanding of the era
