Georges Bataille Rene Guenon:

Georges Bataille, René Guénon Pierre Prévost, 1992 **Georges Bataille** Dr Michael Richardson, Michael Richardson, 2005-07-26 George Bataille 1867 1962 is widely recognized as one of the most important thinkers of the twentieth century This is the first book in English to examine Bataille's work as a whole It offers an accessible introduction to a complex and often ambiguous thinker *Georges Bataille - René Guénon. L'expérience souveraine* Pierre Prévost, 1992-01-01 **The Ideology of Tyranny** G. Preparata, 2007-09-14 The book ascribes the late state of paralysis affecting dissent in America to the adoption of a peculiar gospel of divisiveness which was promoted in the Eighties by importing from France the theories of philosopher Michel Foucault **War and the Cosmos in Picasso's Texts, 1936-1940** Lydia Gasman, 2007-04 War and the cosmos in Picasso's texts 1936 1940 is a study that builds upon the material and ideas discussed in my 1981 Ph D dissertation Mystery magic and love in Picasso 1925 1938 Picasso and the Surrealist poets **Georges Bataille** Michel Surya, 2002 Translated by Krzysztof Filjalkowski and Michael Richardson Winner of the 1987 Prix Goncourt for Biography Georges Bataille 1897 1962 philosopher writer and founder of the influential literary review Critique had an enormous impact on the thinking of Foucault Derrida and Baudrillard and his ideas have been the subjects of recent debates in a wide range of disciplines In this acclaimed intellectual biography Michel Surya enters into a complicity with Bataille's oeuvre to provide a detailed exposition of its themes as they developed against the backdrop of his life The essence of Bataille's life and work were defined by transience and effacement reflecting a will both to contest the impermanence of things and to confront death His troubled childhood his relationships with surrealism and his paradoxical position at the heart of twentieth century French thought are enriched here with testimonies from Bataille's closest acquaintances making this a vivid and detailed study Revealing the contexts in which he worked and the ways in which his work and ideas took shape Surya sheds essential light on a figure Foucault described as one of the most important writers of the century **Sensible Ecstasy** Amy Hollywood, 2010-01-15 Sensible Ecstasy investigates the attraction to excessive forms of mysticism among twentieth century French intellectuals and demonstrates the work that the figure of the mystic does for these thinkers With special attention to Georges Bataille Simone de Beauvoir Jacques Lacan and Luce Irigaray Amy Hollywood asks why resolutely secular even anti Christian intellectuals are drawn to affective bodily and widely denigrated forms of mysticism What is particular to these thinkers Hollywood reveals is their attention to forms of mysticism associated with women They regard mystics such as Angela of Foligno Hadewijch and Teresa of Avila not as emotionally excessive or escapist but as unique in their ability to think outside of the restrictive oppositions that continue to afflict our understanding of subjectivity the body and sexual difference Mystics such as these like their twentieth century descendants bridge the gaps between action and contemplation emotion and reason and body and soul offering new ways of thinking about language and the limits of representation Georges Bataille and the Mysticism of Sin Peter Tracey Connor, 2000-02-10 Peter Connor

argues that literary scholars eager to represent Bataille as a philosopher or as an early deconstructionist have tended to neglect or misunderstand Bataille's interest in mysticism. His study is intended to correct this distorted view of Bataille, giving us a more complete picture of the complex and influential writer. *Scripture, Reason, and the Contemporary Islam-West Encounter* S. Kepnes, B. Koshul, 2007-08-06 The unique essays in this collection use the underlying allegiance to scripture in Islam, Judaism, and Christianity to underscore the deep affinities between the three monotheistic traditions while at the same time encouraging respect for the differences between the traditions to be preserved. *La Métaphysique de René Guénon* Jean-Marc Vivenza, 2016-05-19 La Métaphysique de René Guénon fait suite au Dictionnaire de René Guénon et ce titre doit être regardé comme son complément théorique naturel permettant d'offrir aux lecteurs de l'œuvre de Guénon un éclairage approfondi portant sur les bases essentielles de la doctrine ternaire laquelle il consacra toute sa vie. Jacques Ellul on Politics, Technology, and Christianity Jacques Ellul, Patrick Troude-Chastenet, 2005-06-16 The Final Interviews Before Jacques Ellul Died Jacques Ellul on Politics, Technology, and Christianity is the best and most satisfying set of interviews ever carried out with Jacques Ellul and we are most fortunate to have this rich legacy of thought now available to a broader audience. Patrick Chastenet knew Ellul personally as well as intellectually. His questions display a rare balance of respect, boldness, and insight that perhaps no one else could have achieved. Chastenet elicits Ellul's thoughts in Ellul's voice and refuses to edit or reorganize the text in any way that would diminish the realism and authenticity of the conversation. Chastenet truly takes the reader into Ellul's salon for a rare and wonderful experience. David W. Gill, President of the International Jacques Ellul Society. Patrick Chastenet's interviews are a must read for anyone interested in Jacques Ellul or in issues pertaining to modern France. This book is full of important insights into an impressive range of issues from technology and ecology to theology. Professor Joyce Hanks, University of Scranton. Jacques Ellul (1912-1994) was Professor of the History of Institutions at the University of Bordeaux, France, from the end of World War II until his retirement in 1980. He is best known for his brilliant path-finding analysis of our world in *The Technological Society* (original French edition 1954) and many other writings such as *The Technological System*, *The Technological Bluff*, and *The Political Illusion*. Ellul was also a powerful lay voice for a renewed and reformed Christian theology and ethics. Many of his Christian writings such as *Presence of the Kingdom*, *Living Faith*, and *Hope in Time of Abandonment* continue to challenge and inspire. For more information, visit www.ellul.org, the web site of the International Jacques Ellul Society. Patrick Troude-Chastenet is Professor of Political Science at the University of Poitiers. He studied with Professor Ellul at the Institute for Political Studies, University of Bordeaux (1974-76). He is author of an introduction to Ellul's thought, *Lire Ellul: Introduction à l'œuvre socio-politique de Jacques Ellul* (1992), and editor of two anthologies on Ellul's thought: *Sur Jacques Ellul: Un penseur de notre temps* (1994) and a forthcoming collection from the international colloquium at Poitiers (October 2004) entitled *Jacques Ellul: Libre examen d'une pensée sans frontières*. Chastenet is the founding president of L'Association Internationale Jacques Ellul (www.jacques-ellul.org) and founding editor of the

annual Cahiers Jacques Ellul The interviews in the present volume were conducted over a fourteen year period 1981 1994 and were originally published as *Entretiens avec Jacques Ellul* 1994

Georges Bataille, à l'extrémité fuyante de la poésie Sylvain Santi, 2007 A l'heure où l'œuvre de Georges Bataille a acquis une nouvelle dimension avec la publication de ses romans et de ses écrits dans la Pléiade il est temps de reconnaître toute son importance au mot de poésie qui dans son œuvre claire le mieux le rapport complexe que cet auteur entretenait avec la littérature tous genres confondus Bien que le temps soit venu où les études critiques consacrées à Bataille se contentaient quand elles prenaient la peine de le faire de le reléguer la poésie au rang de question mineure force est de constater que celle-ci reste encore marginalisée et mal comprise dans les études les plus récentes La méditation de Bataille n'est pas d'un bloc Fragmentaire elle est plutôt faite de reprises incessantes où chaque fois la question de la poésie est rejouée abordée à partir d'un biais nouveau comme si Bataille trouvait dans cette multiplication des angles d'attaque la meilleure manière de s'approcher d'un objet qu'il savait le plus fuyant Ainsi seront tour tour envisagés les rapports que Bataille entretenait avec le surréalisme et plus particulièrement avec la critique automatique l'articulation qu'il voulut opérer entre la poésie et l'expérience la manière dont il se servit du sacrifice pour penser les modalités de la critique de la poésie la façon dont il se mit en jeu dans les poèmes et les rapports que cette mise en jeu entretenait avec celle qu'il tenta de traverser ses fictions la question enfin de la communauté avec laquelle ses méditations trouvent peut-être leur plus grand accomplissement si bien que ce qui se formule alors est sans doute ce qui de cette œuvre nous interroge le plus aujourd'hui

André Breton in Exile Victoria Clouston, 2017-09-22 Following the journey of André Breton the leader of the Surrealist movement into exile during the Second World War the author of this book traces the trajectory of his thought and poetic output from 1941 1948 Through a close examination of the major and as yet little studied works written during these years she demonstrates how Breton's quest for a new myth for the postwar world led him to widen his enquiry into hermeticism myth and the occult This groundbreaking study establishes Breton's profound intellectual debt to 19th century Romanticism its literature and thought revealing how it defined his understanding of hermeticism and the occult and examining the differences between the two It shows how having abandoned political action on leaving the Communist Party in 1935 Breton nonetheless held firmly to political thought moving in his quest for a better world via Hermes Trismegistus across the utopian ideas of Charles Fourier and the magical practices of the Hopi Indians The author finally reveals Breton's misreading of the situation in postwar Paris on his return in 1946 and his failure to communicate the span of his ideas for creating a better society while at the same time maintaining a close connection between art and life

The Beribboned Bomb Robert James Belton, 1995 Surrealism was ostensibly directed at the emancipation of the human spirit but it represented only male aspirations and fantasies until a number of women artists began to redefine its agenda in the later 1930s This book addresses the former using a thick description of the historically specific circumstances which required the

male Surrealists to manufacture a sexual reputation of narcissism and misogyny These circumstances were determined by hegemonic masculinity an ideological construct which had little to do with individual masculinities In male Surrealism the beribboned bomb signified something both attractive and volatile a specific instance of the Surrealist principle of convulsive beauty In hegemonic masculinity similar devices served as metaphors of the sexuality all men were supposed to possess The intersection of these two axes produced an imagery of unrepentant violence

Haeckel's Monism and the Birth of Fascist Ideology Daniel Gasman,1998 Utilizing hitherto unexplored material that has become available only after the dismantling of the Berlin Wall this book examines the Monist philosophy of the German zoologist Ernst Haeckel and its role in stimulating the birth of Fascist ideology in Italy and France Focusing on the relevance of evolutionary science Fascist thought is revealed as intimately related to Haeckel s scientific Monism an approach that differs from most interpretations that tend to voice skepticism about the existence of a specific intellectual origin for Fascist ideology

The French Writers' War, 1940-1953 Gisèle Sapiro,2014-04-23 The French Writers War 1940 1953 is a remarkably thorough account of French writers and literary institutions from the beginning of the German Occupation through France s passage of amnesty laws in the early 1950s To understand how the Occupation affected French literary production as a whole Gis le Sapiro uses Pierre Bourdieu s notion of the literary field Sapiro surveyed the career trajectories and literary and political positions of 185 writers She found that writers stances in relation to the Vichy regime are best explained in terms of institutional and structural factors rather than ideology Examining four major French literary institutions from the conservative French Academy to the Comit national des crivains a group formed in 1941 to resist the Occupation she chronicles the institutions histories before turning to the ways that they influenced writers political positions Sapiro shows how significant institutions and individuals within France s literary field exacerbated their loss of independence or found ways of resisting during the war and Occupation as well as how they were perceived after Liberation
