Written in the post-Civil War era, Harris's distinctive literary style embraces the vernacular of his characters, offering readers a rich, authentic glimpse into the lives of the Black community in the South. These sketches not only entertain but also highlight the complexities of race and identity during a transformative period in American history, serving as an early precursor to the voice of Southern Gothic literature. Harris, known for his work as a journalist and folklorist, was deeply influenced by the storytelling traditions of enslaved African Americans. Having grown up in Georgia amidst a diverse cultural milieu, his experiences as an editor for the *Atlanta Constitution* and his interactions with the Rural South imbued him with a profound appreciation for the narrative styles and lives of Black individuals, prompting him to document their stories with both respect and artistry. Harris's position as a white Southerner who sought to present Black voices authentically is a testament to his commitment to social issues of his time. *Mingo and Other Sketches in Black and White* is highly recommended for readers interested in the intersection of folklore and social critique. This collection not only enriches our understanding of African American storytelling but also serves as a historical document that reflects the complexities of race relations in America. Harris's work remains a significant contribution to American literature, offering timeless insights that resonate in contemporary discussions of race and identity.      **Major Jones' Scenes in Georgia** Joseph Jones, 1858      **The Voyage of George Vancouver, 1791-1795** W. Kaye Lamb, 2017-07-05      Four of the greatest maritime exploring expeditions were crammed into two decades late in the 18th century: Cook's third voyage, the French expedition commanded by Lapérouse.

the Malaspina expedition sent out by Spain and George Vancouver's Voyage of Discovery. All four visited the northwest coast of North America but weather and circumstances prevented Cook from making more than what Beaglehole calls a magnificent epoch-making reconnaissance. La Perouse only touched the coast in a significant way at Yakutat Bay and Lituya Bay and Malasina's memorable visits were to Yakutat Bay and Nootka Sound. Vancouver by contrast surveyed the enormous extent of coast from Lower California to Cook Inlet and his meticulous survey literally set out on the map of the world the intricacies of Puget Sound and the western coast of mainland Canada. It was an achievement that places him with his mentor Cook in the first rank of marine surveyors. As a midshipman Vancouver had been with Cook when he discovered the Sandwich Hawaiian Islands in 1778. They attracted his interest and the attention he devoted to the islands, their inhabitants and their political future when he twice later wintered there will surprise many. This is the first annotated edition of Vancouver's journal as he revised it for publication in 1798. The original manuscript has disappeared but fortunately no fewer than 25 partial or complete logs or journals by other members of the expedition have survived. These supplement Vancouver's narrative at many points. It has been possible to identify virtually all the host of islands, channels and inlets that Vancouver encountered and the provenance of most of the approximately 400 place names he bestowed, nine out of ten of which are still in use is indicated. Book 2 and part of Book 3 of a new and annotated edition of *A Voyage of Discovery* London 1798. The main pagination of this, the preceding volume and the following two volumes is continued.
