Georgian Metalwork Shalva Iasonovich Amiranashvili, Karel Neubert, 1971 **The Cult of the Mother of God in Byzantium** Leslie Brubaker, Mary B. Cunningham, 2016-12-05 This volume on the cult of the Theotokos Virgin Mary in Byzantium focuses on textual and historical aspects of the subject thus complementing previous work which has centred more on the cult of images of the Mother of God The papers presented here by an international team of scholars consider the development and transformation of the cult from approximately the fourth through the twelfth centuries The volume opens with discussion of the origins of the cult and its Near Eastern manifestations including the archaeological site of the Kathisma church in Palestine which represents the earliest Marian shrine in the Holy Land and Syriac poetic treatment of the Virgin The principal focus however is on the 8th and 9th centuries in Byzantium as a critical period when Christian attitudes toward the Virgin and her veneration were transformed The book re-examines the relationship between icons relics and the Virgin asking whether increasing devotion to these holy objects or figures was related in any way Some contributions consider the location of relics and later icons in Constantinople and other centres of Marian devotion others explore gender issues such as the significance of the Virgin's feminine qualities and whether women and men identified with her equally as a holy figure The aim of this volume is to build on recent work on the cult of the Virgin Mary in Byzantium and to explore areas that have not yet been studied The rationale is critical and historical using literary artistic and archaeological sources to evaluate her role in the development of the Byzantine understanding of the ways in which God interacts with creation by means of icons relics and the Theotokos Studies in Armenian Art Nira Stone, 2019-07-29 Nira Stone 1938 2013 was a scholar of Armenian and Byzantine Art Her broad and close acquaintance with the field of Armenian art history covered many fields of Armenian artistic creativity Nira Stone made notable contributions to the study of Armenian manuscript painting mosaics and other forms of artistic expression Of particular interests are her researches on this art in its historical and religious contexts such as the study of apocryphal elements in Armenian Gospel iconography the place of the mosaics of Jerusalem in the context of mosaics in Byzantine Palestine and of the interplay between religious movements such as hesychasm and Armenian manuscript painting Dictionary of Enamelling Erika Speel, 2018-10-26 First Published in 1998 The Dictionary of Enamelling is the first book to provide a comprehensive guide to this most diverse of the decorative arts Indispensable for anyone interested in the evolution of enamelling technique the book includes some 400 entries covering every aspect of its history There are entries on key pieces individual enamellers designers schools techniques and the major achievements are described in every era The knowledge and insight of Erika Speel's account are supported and enhanced by a brilliantly researched collection of 200 illustrations 100 in colour portraying the most dazzling and important pieces a unique visual record of enamelling history The Dictionary of Enamelling will be invaluable to people who collect study create
