Adams,1978-01-01 **Routledge Revivals: The Making**

of Urban Scotland (1978) Ian Adams,2018-02-01 Originally published in 1978 The Making of Urban Scotland traces the evolution of towns from their prehistoric origins to the present day Most of the material is based on research in Scotland s archives housed in the Scottish Record Office Special emphasis is placed on the causes of economic change and its repercussions upon Scottish town life The urban stresses of the nineteenth century are analysed in detail as well as the subsequent emergence of Scotland as Western Europe s pre eminent council house society The unique character of Scotland s housing occupies two chapters and for the first time the whole panoply of the statutory origins of the council house landscape is exposed **Madness and Society in Eighteenth-Century Scotland** R. A. Houston,2000-02-03 How did

people view mental health problems in the eighteenth century and what do the attitudes of ordinary people towards those afflicted tell us about the values of society at that time Professor Houston draws upon a wide range of contemporary sources notably asylum documents and civil and criminal court records to present unique insights into the issues around madness including the written and spoken words of sufferers themselves and the vocabulary associated with insanity The links between madness and a range of other issues are explored including madness gender social status religion and witchcraft in addition to the attributed causes of derangement such as heredity and alcohol abuse This is a detailed yet profoundly humane and compassionate study of the everyday experiences of those suffering mental impairments ranging from idiocy to lunacy and an exploration into the meaning of this for society in the eighteenth century *Essay on the Principles of Translation* Lord Alexander Fraser Tytler Woodhouselee, Alexander Fraser Tytler, 1978-01-01 This is a reprint of the third edition of Tytler's *Principles of Translation* originally published in 1791 and this edition was published in 1813 The ideas of Tytler can give inspiration to modern TS scholars particularly his open mindedness on quality assessment and his ideas on linguistic and cultural aspects in translations which are illustrated with many examples In the Introduction Jeffrey Huntsman sets Alexander Fraser Tytler Lord Woodhouselee and his ideas in a historical context As the original preface states It will serve to demonstrate that the Art of Translation is of more dignity and importance than has generally been imagined p ix

Geography and Enlightenment David N. Livingstone, Charles W. J. Withers, 1999-12-15 *Geography and Enlightenment* explores both the Enlightenment as a geographical phenomenon and the place of geography in the Enlightenment From wide ranging disciplinary and topical perspectives contributors consider the many ways in which the world of the long eighteenth century was brought to view and shaped through map and text exploration and argument within and across spatial and intellectual borders The first set of chapters charts the intellectual and geographical contexts in which Enlightenment ideas began to form including both the sites in which knowledge was created and discussed and the different means used to investigate the globe Detailed explorations of maps created during this period show how these new ways of representing the world and its peoples influenced conceptions of the nature and progress of human societies while studies of the travels of people and ideas reveal the influence of far flung places on Enlightenment science and scientific credibility The final set of chapters emphasizes the role of particular local contexts in Enlightenment thought Contributors are Michael T Bravo Paul Carter Denis Cosgrove Stephen Daniels Matthew Edney Anne Marie Claire Godlewska Peter Gould Michael Heffernan David N Livingstone Dorinda Outram Chris Philo Roy Porter Nicolaas Rupke Susanne Seymour Charles Watkins and Charles W J Withers *Can Small Urban Communities Survive?* Branka Berce-Bratko, 2018-01-17 This title was first published in 2001 Throughout the post war period there has been much activity in the conservation and renewal of old town centres throughout Europe A considerable body of knowledge has been built up on the technical side of rehabilitation over a period of 40 years but little attention has been paid to related societal and cultural aspects More often than not this results in a degree of

failure in the rehabilitation process This is an exploration of how the planning and design of urban areas might be improved by the incorporation of culturological analysis within the town planning process European practice in residential rehabilitation and conservation is renewed in order to gauge what progress has been made with particular emphasis on solutions and remedies associated with cultural ethnicity and minority issues

Popular Disturbances in Scotland 1780-1815 Kenneth J. Logue, 2003-12-15 Mobbing and rioting in late eighteenth century Scotland was often the only recourse of the people in response to high food prices the threat of eviction or the prospect of compulsory military service This study of popular disturbances in the thirty five years spanning the turn of the eighteenth century shows that rioting was not a blind or unreasoning reaction but rather an active assertion of traditional rights and a collective appeal for just treatment The book looks at meal mobs riots against the Highland Clearances the widespread anti militia disturbances of 1797 and also riots about Church patronage politics and industrial action The concluding chapter draws various themes together and examines the composition of crowds in the period the role of women in disturbances the use of handbills before and during riots and leadership organisation and forms of action of the crowd Kenneth J Logue makes full use of a range of source material the records associated with the administration of Scottish criminal justice Home Office documents and numerous newspapers and periodicals
