Germaine De Stael Crossing The Borders:

Germaine de Staël Madelyn Gutwirth, Avriel H. Goldberger, Karyna Szmurlo, 1991 Crossing the borders Germaine de Staël in Germany Judith E. Martin, 2011-05-12 Germaine de Staël and German Women Gender and Literary Authority 1800-1850 investigates Staël's significance as an icon of female artistic genius and political engagement for two generations of German women including Caroline A Fischer, Caroline Pichler, Johanna Schopenhauer, Bettina von Arnim, Ida Hahn-Hahn and Luise Mehlbach. These authors drew a significant impetus from Staël's exemplary life and writings, especially her influential novels of political and artistic heroines, *Delphine* (1802) and *Corinne or Italy* (1807), referring to them in order to authorize their own discourses on art and politics and to buttress their identity as writers in a period when female authorship generated intense controversy. Taking references to Staël and her texts as a starting point opens fresh perspectives on German women's novels while at the same time revealing their authors' participation in the broader European women's literary tradition. Whereas several novels from the first decade of the century echo *Delphine* by uniting domestic fiction with political themes, Staël's epoch-making novel of female poetic genius, *Corinne*, left a more lasting literary legacy in a tradition of German female artist novels. *Corinne* exemplified the creative woman's dilemma between fame and love, and subsequent German novelists explore this conflict while several also emulate Staël's myth-making in *Corinne* as a strategy for attributing transcendent genius to their heroines. Reading for subtexts of female self-expression and development brings to light counter-narratives of female creative transcendence often evoked through allusions to mythological figures. Martin suggests a revision of German literary history by uncovering a neglected tradition of artist novels positioned between the German *Künstlerroman* and Staël's newly inaugurated international dialogue on women's role in public culture.

Mme de Staël and Political Liberalism in France Chinatsu Takeda, 2018-07-31 This book sheds light on the unique aspects of communal liberalism in Mme de Staël's writings and considers her contribution to nineteenth-century French liberal political thought. Focusing notably on the *Considérations sur les principaux événements de la Révolution française*, it examines the originality of Staël's liberal philosophy. Rather than contrasting liberalism with either multiculturalism or republicanism, the book argues that Staël's communal liberalism challenges the conventions of nineteenth-century political thought notably through her assertion of the need to institutionalize an organic intermediary connecting the two spheres, an idea later advanced by thinkers such as Jürgen Habermas. Offering a critical reappraisal of Staël's multifaceted work, this book assesses the political impact of her work, arguing that the political influence of the *Considérations* permeates the liberal historiography of the French Revolution up to the present day.

Staël, Romanticism and Revolution John Claiborne Isbell, 2023-08-17 Two centuries of sexism have hidden Staël's place in international history. Straddling the divides of the French Revolution, Napoleonic Europe, emergent nationalism, and European Romanticism, and playing pivotal roles in those movements, she was also a friend of Byron, Jefferson, and Tsar Alexander. Extensive archival research and a complete contextual overview of Staël's writings here restore Staël's

canonical status as political philosopher historian European Romantic theorist and Revolutionary While the term stateswoman is not commonly used it describes Stael aptly acting as she necessarily did through men around her The brilliant game of masks and proxies imposed on her by patriarchy is detailed here alongside her unending fight for the oppressed from the nations of Napoleon's subjugated Europe to the victims of the Atlantic slave trade This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details

The Novel's Seductions Karyna Szmurlo, 1999 The distinctive place of Stael's novel in literature and its disseminative powers are documented in Part III Genie at Large From Corilla Olimpica to Marguerite Yourcenar the critics depict affiliations among female writers striving for public recognition and explore the ideological textual borrowings among Corinne and other classic works

Fanaticism and the History of Philosophy Paul Katsafanas, 2023-11-07 Voltaire called fanaticism the monster that pretends to be the child of religion Philosophers politicians and cultural critics have decried fanaticism and attempted to define the distinctive qualities of the fanatic whom Winston Churchill described as someone who can't change his mind and won't change the subject Yet despite fanaticism's role in the long history of social discord human conflict and political violence it remains a relatively neglected topic in the history of philosophy In this outstanding inquiry into the philosophical history of fanaticism a team of international contributors examine the topic from antiquity to the present day Organized into four sections topics covered include Fanaticism in ancient Greek Indian and Chinese philosophy Fanaticism and superstition from Hobbes to Hume including chapters on Locke and Montesquieu Shaftesbury and Hutcheson Kant Germaine de Stael Hegel Nietzsche William James and Jorge Portilla on fanaticism Fanaticism and terrorism and extremism and gender including the philosophy and morality of the manosphere Closed mindedness and political and epistemological fanaticism Spanning themes from superstition enthusiasm and misanthropy to the emotions purity and the need for certainty Fanaticism and the History of Philosophy is a landmark volume for anyone researching and teaching the history of philosophy particularly ethics and moral philosophy It is also a valuable resource for those studying fanaticism in related fields such as religion the history of political thought sociology and the history of ideas

Stael's Philosophy of the Passions Tili Boon Cuillé, Karyna Szmurlo, 2013 Sensibility or the capacity to feel played a vital role in philosophical reflection about the natural sciences the social sciences and the arts in eighteenth century France Yet scholars have privileged the Marquis de Sade's vindication of physiological sensibility as the logical conclusion of Enlightenment over Germaine de Stael's exploration of moral sensibility's potential for reform and renewal that paved the way for Romanticism This volume of essays showcases Stael's contribution to the affective revolution in Europe investigating the personal and political circumstances that informed her theory of the passions and the social and aesthetic innovations to which it gave rise Contributors move seamlessly between her political philosophical and fictional works attentive to the relationship between emotion and cognition and aware of the coherence of her thought on an individual national and international scale They first examine the significance Stael attributed

to pity happiness melancholy and enthusiasm in *The Influence of the Passions* as she witnessed revolutionary strife and envisioned the new republic They then explore her development of a cosmopolitan aesthetic in such works as *On Literature* *Corinne* or *Italy* *On Germany* and *The Spirit of Translation* that transcended traditional generic national and linguistic boundaries Finally they turn to her contributions to the visual and musical arts as she deftly negotiated the transition from a Neoclassical to a Romantic aesthetic

Stall Philosophy of the Passions concludes that rather than founding a republic based on the rights of man Stall's reflection fostered international communities of women artists models and collectors authors performers and spectators enabling them to participate in the rearticulation of sociocultural values in the wake of the French Revolution Contributors Tili Boon Cuill Catherine Dubeau Nanette Le Coat Christine Dunn Henderson Karen de Bruin M Ione Crummy Jennifer Law Sullivan Lauren Fortner Ravalico C C Wharram Kari Lokke Susan Tenenbaum Mary D Sheriff Heather Belnap Jensen Fabienne Moore Julia Effertz

European Feminisms, 1700-1950 Karen M. Offen, 2000 This ambitious book explores challenges to male hegemony throughout continental Europe over the past 250 years For general readers and those interested primarily in the historical record it provides a comprehensive comparative account of feminist developments in European societies as well as a rereading of European history from a feminist perspective By placing gender or relations between women and men at the center of European politics it aims to reconfigure our understanding of the European past and to make visible a long but neglected tradition of feminist thought and politics On another level the book seeks to disentangle some misperceptions and to demystify some confusing contemporary debates about the Enlightenment reason nature and public vs private equality vs difference In the process the author aims to show that gender is not merely a useful category of analysis but that sexual difference lies at the heart of human thought and politics

Dying to be English Kelly McGuire, 2015-10-06 This study examines the presentation of suicide within the genre of the eighteenth century novel Referencing several key writers of the period McGuire demonstrates that their work inscribes a nationalist imperative to frame suicide as self sacrifice

The National Habitus Marie-Pierre Le Hir, 2014-08-27 Stories about border crossers illegal aliens refugees that regularly appear in the press everywhere point to the crucial role national identity plays in human beings lives today *The National Habitus* seeks to understand how and why national belonging became so central to a person's identity and sense of identity Centered on the acquisition of the national habitus the process that transforms subjects into citizens when a state becomes a nation state the book examines this transformation at the individual level in the case of nineteenth century France Literary texts serve as primary material in this study of national belonging because as Germaine de Staël pointed out long ago literature has the unique ability to provide access to inner feelings The term habitus in the title of this book signals a departure from traditional approaches to nationalism a break with the criteria of language race and ethnicity typically used to examine it It is grounded instead in a sociology that deals with the subjective dimension of life and is best exemplified by the works of Norbert Elias 1897 1990 and Pierre Bourdieu 1931 2002 two sociologists who approach

belief systems like nationalism from a historical instead of an ethical vantage point By distinguishing between two groups of major French writers three who experienced the 1789 Revolution firsthand as adults Olympe de Gouges Fran ois Ren de Chateaubriand and Germaine de Sta l and three who did not Stendhal Prosper M rim e and George Sand the book captures evolving understandings of the nation as well as thoughts and emotions associated with national belonging over time Le Hir shows that although none of these writers is typically associated with nationalism all of them were actually affected by the process of nationalization of feelings thoughts and habits irrespective of aesthetic preferences social class or political views By the end of the nineteenth century they had learned to feel and view themselves as French nationals they all exhibited the characteristic features of the national habitus love of their own nation distrust and or hatred of other nations By underscoring the dual contradictory nature of the national habitus the book highlights the limitations nation based identities impose on the prospect for peace

Enlightening Romanticism, Romancing the Enlightenment Miriam L. Wallace,2016-05-06 As eighteenth century scholarship expands its range and disciplinary boundaries such as Enlightenment and Romanticism are challenged novels published during the rich period from 1750 to 1832 have become a contested site of critical overlap In this volume scholars who typically write under the rubric of either the long eighteenth century or Romanticism examine novels often claimed by both scholarly periods This shared enterprise opens new and rich discussions of novels and novelistic concerns by creating dialogue across scholarly boundaries Dominant narratives critical approaches and methodological assumptions differ in important ways but these differences reveal a productive tension Among the issues engaged are the eighteenth century novel s development of emotional interiority including theories of melancholia the troubling heritage of the epistolary novel for the 1790s radical novel tensions between rationality and romantic affect issues of aesthetics and politics and constructions of gender genre and race Rather than positing a simple opposition between an eighteenth century Enlightenment of rationality
