German Aesthetic and Literary Criticism David Simpson,1984      **German Aesthetic Literary Criticism**

Simpson,1984-05-24 The volume comprises selections from the major work of Kant Schopenhauer and Hegel as well as from Fichte and Schelling some of whose writings are translated here for the first time The volume comprises selections from the major work of Kant Schopenhauer and Hegel as well as from Fichte and Schelling some of whose writings are translated here for the first time It thus provides a much fuller context for the German Idealist movement than has been hitherto available in any comparable form in English The texts reveal aesthetic philosophy and literary criticism not as abstract or peripheral disciplines but as absolutely central topics in the mainstream of German Idealist thought Dr Simpson's introduction places the writers and their work in an appropriate intellectual context and his extensive annotation seeks to clarify and render more accessible their complex and often elusive ideas      Coleridge and German Philosophy Paul Hamilton,2007-05-01

Samuel Taylor Coleridge frequently bridged the gap between British and European Romantic thought This study sets Coleridge's mode of thinking within a German Romantic philosophical context as the place where his ideas can naturally extend themselves stretch and find speculations of comparable ambition It argues that Coleridge found his philosophical adventures in the dominant idiom of his times exciting and as imaginatively engaging as poetry Paul Hamilton situates major themes in Coleridge's prose and poetic writings in relation to his passion for German philosophy He argues that Coleridge's infectious attachment to German post-Kantian philosophy was due to its symmetries with the structure of his Christian belief Coleridge is read as an excited and winning expositor of this philosophy's power to articulate an absolute grounding of reality Its comprehensiveness however rendered redundant further theological description undermining the faith it had seemed to support Thus arose Coleridge's anxious disguising of his German plagiarisms aspersions cast on German originality and his claims to have already experienced their insights within his own religious sensibility or in the writings of Anglican divines and neo-Platonists This book recovers the extent to which his ideas call to be expanded within German philosophical debate

Kiarina Kordela,2017-10-06 A Kiarina Kordela steps beyond extant commentaries on

Marx's theory of commodity fetishism from A Sohn Rethel to L Althusser Balibar Slavoj Žižek and others to show that in capitalism value is the manifestation of the homology between thought and being while their other aspect power is foreclosed and becomes the object of biopower Using monistic Marxian Lacanian structuralism as an alternative to dominant models from Plato and Kant to phenomenological accounts deconstruction and other contemporary approaches Kordela expertly argues that Marx's theory of commodity fetishism is a reformulation of the Spinozian thesis that thought mind and things bodies or extension are manifestations of one and the same being or substance Kordela's link between Spinoza and Marx shows that being consists of two aspects value and power the former leading to structuralist thought the latter becoming the object of contemporary biopower Epistemology in Spinoza Marx Freud Lacan intervenes between two dominant lines of thought in the reception of Marx today on the one hand an approach that relates Marxian thought to psychoanalysis from a Hegelian dialectical perspective and on the other hand an approach that links Marxism to Spinozian monism at the total exclusion of psychoanalysis This book will interest scholars and researchers who study Marxism post structuralism psychoanalysis critical theory ontology epistemology and theories of representation theoreticians of cultural studies and comparative literature aesthetic theory including the relation of art to economy and politics and biopolitics *German Aesthetics* J. D. Mininger, Jason Michael Peck, 2016-09-22 *German Aesthetics* provides English speaking audiences with accessible explanations of fundamental concepts from the German tradition of philosophical aesthetics Organized with the understanding that aesthetic concepts are often highly contested intellectual territory and that the usage and meanings of terms often shift within historical cultural and political debates this volume brings together scholars of German literature philosophy film studies musicology and history to provide informative and creative interpretations of German aesthetics that will be useful to students and scholars alike **The Cambridge History of Literary Criticism: Volume 5, Romanticism** George Alexander Kennedy, 1989 The history of the most hotly debated areas of literary theory including structuralism and deconstruction *Literature and Gender* Supriya Chaudhuri, Sajni Mukherji, 2002 This book brings together a rich collection of new work on the cultural interface of literature and gender ranging from essays on medieval and Renaissance Europe to nineteenth century political movements and representations in modern Indian film The contributors are some of the most distinguished scholars of our time working in Europe and in India **Literature on Trial** S. D. Chrostowska, 2012-07-09 *Literature on Trial* traces the rise of modern literary criticism in Central and Eastern Europe during the eighteenth century S D Chrostowska juxtaposes the discourse's written forms in three linguistic cultural regions Germany Poland and Russia to show how fluid the relationship once was between the genres of criticism and those of literature An alternative history of literary criticism *Literature on Trial* marks a shift from earlier studies focus on aesthetic principles to an emphasis on the development of literary critical forms Chrostowska relates cultural and institutional changes in these areas to the formation of literary critical knowledge She accounts for the ways in which critical discourse organized itself formally and deemed

some genres proper while eliminating others Analysing works by Lessing Goethe and Karamzin among others Literature on Trial brings a fresh theoretical perspective to the links between genre as a discursive strategy and socio political life

*Studies in Weimar Classicism* Roger H. Stephenson, 2010 This book is a study of central aspects of Weimar Classicism written in the light of Ernst Cassirer's cultural theory It provides a close reading of key texts ranging across Goethe and Schiller's oeuvre as a whole from their philosophical poems through their drama prose writing and theoretical reflections on cultural and scientific topics The work seeks to demonstrate the attested but hitherto largely unanalysed aesthetic power at the very heart of their writings which in turn underpins their epistemological and ethical significance The main theme of Weimar Classicism is the role of symbolism in Classicism as distinct from the centrality of semiosis in competing cultural norms The overall aim of the book is thus to see Weimar Classicism anew both historically and analytically as an enlightening context in which to reconsider many of the central tenets of contemporary often called postmodern cultural theory
