German Baroque Poetry Robert Marcellus Browning, 1971 German Baroque Writers, 1580-1660 James N. Hardin, 1996 Essays on writers of German baroque literature primarily prose fiction and poetry in German and in Latin including religious tracts works by theologians and mystics as well as a vast body of alchemical astrological and quasi scientific literature published in the Holy Roman Empire of the German Nation Many important works during the first half of the seventeenth century are adaptations or translations of works from other languages The Princeton Encyclopedia of Poetry and Poetics Roland Greene, Stephen Cushman, Clare Cavanagh, Jahan Ramazani, Paul Rouzer, Harris Feinsod, David Marno, Alexandra Slessarev, 2012-08-26 Rev ed of The Princeton encyclopedia of poetry and poetics Alex Preminger and T V F Brogan co editors Frank J Warnke O B Hardison Jr and Earl Miner associate editors 1993 Encyclopedia of German Literature Matthias Konzett, 2015-05-11 Designed to provide English readers of German literature the opportunity to familiarize themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities the Encyclopedia of German Literature includes more than 500 entries on writers individual work and topics essential to an understanding of this rich literary tradition Drawing on the expertise of an international group of experts the essays in the encyclopedia reflect developments of the latest scholarship in German literature culture and history and society In addition to the essays author entries include biographies and works lists and works entries provide information about first editions selected critical editions and English language translations All entries conclude with a list of further readings

Kafka's Narrative Theater James Rolleston, 1990-10-01 Can one speak of Kafka's heroes as characters If so why is it so hard to define their characteristics If not how is the reader persuaded to accompany them on their existential journeys accepting their behavior as falling within the realm of human logic This study argues that Kafka's fiction has two conflicting premises the subjective impossibility of human existence foreclosing all hope of meaning in individual actions and the ordered structure of human thoughts which assign meaning to the smallest event and analyze endlessly the behavior of other people Kafka's characters are always either potentially or actually moving in both directions at once earnestly building up a continuous logic to their actions while skeptically dismantling their own pretensions to existence The device of the circumscribed narrator congruent with the hero knowing only what the hero knows yet not identical with him enables Kafka to contain both fundamental tendencies in a single sentence Although Kafka is widely read his works seem to give rise very easily to misconceptions this study is designed primarily to facilitate an intelligent reading of Kafka Without imposing answers of its own it seeks to foster an awareness of the problems of perspective and presentation which Kafka engages

German Baroque Literature Gerhart Hoffmeister, 1983 **Georg Trakl's Poetry** Richard Detsch, 1991-01-18 The chaotic mixture of elements in Trakl's poems is more apparent than real this book argues thus challenging the Orphic view of Walther Killy and his followers A dream of unity one of the most ancient dreams in human history is in fact reflected in all of

Trakl's work The recurring themes in Trakl's poetry are brought into focus through Dr Detsch's literary psychological and philosophical analysis the union of male and female in incest from the Jungian standpoint the union of life and death from the Heideggerian standpoint and that of German Romanticism as represented by Novalis the union of good and evil from the Dostoyevskian or Nietzschean standpoint the mixture of images from the Goethean definition of symbolism Trakl 1887-1914 is presented as a poet whose lyric voice sounded a cry of hope in its deepest despair As Dr Detsch's generous quotations from the poet's work in the original German make clear Georg Trakl sought poetic expression for a union of opposites

Literature in the Light of the Emblem Peter Maurice Daly, 1998-01-01 The literature of the 16th and 17th centuries was informed by the symbolic thought embodied in the mixed art form of emblems This study explores the relationship between the emblem and the literature of England and Germany during the period

Life's Golden Tree Thomas Kerth, George C. Schoolfield, 1996 Essays offering new insights into important topics and figures in German literature from the middle ages to the present day The essays in this volume contributed by well known Germanists and those working in the field of comparative literature take fresh looks at key figures and issues in German literary and cultural studies from the medieval to the post modernist period

John Cennick (1718-1755) Robert Edmund Cotter, 2022-04-19 This book explores the life and spirituality of John Cennick 1718-1755 and argues for a new appreciation of the contradictions and complexities in early evangelicalism It explores Cennick's evangelistic work in Ireland his relationship with Count Zinzendorf and the creative tension between the Moravian and Methodist elements of his participation in the eighteenth century revivals The chapters draw on extensive unpublished correspondence between Cennick and Zinzendorf as well as Cennick's unique diary of his first stay in the continental Moravian centres of Marienborn Herrnhag and Lindheim A maverick personality John Cennick is seen at the centre of some of the principal controversies of the time The trajectory of his emergence as a prominent figure in the revivals is remarkable in its intensity and hybridity and brings into focus a number of themes in the landscape of early evangelicalism the eclectic nature of its inspirations the religious enthusiasm nurtured in Anglican societies the expansion of the pool of preaching talent the social tensions unleashed by religious innovations and the particular nature of the Moravian contribution during the 1740s and 1750s Offering a major re-evaluation of Cennick's spirituality the book will be of interest to scholars of evangelical and church history

Basic Concepts of Poetics Emil Staiger, 2010-11-01

The Francis Daniel Pastorius Reader Patrick Erben, Alfred Brophy, Margo Lambert, 2019-08-02 Francis Daniel Pastorius was one of the first German settlers to Pennsylvania and a touchstone figure of German American cultural heritage This monumental anthology presents a selection of his many writings in one volume Pastorius sailed to North America as a Pietist but found a unique home among the Quakers in Pennsylvania Within this early modern religious context he was a lawyer educator and community leader a polymath and a prolific writer and collector of knowledge At the turn of the eighteenth century Pastorius held one of the largest manuscript collections in North America and wrote voluminously in

multiple languages His collecting curation and dissemination represents a unique look at the ways information was stored processed and utilized during the seventeenth and eighteenth centuries in both North America and Europe This rich selection of Pastorius s writings on religion education gardening law and community and the colony of Pennsylvania as well as letters poems and numerous encyclopedic and bibliographic works shows the mind of a true humanist in action Pastorius s works have long been important to the archival study of early German settlement and the Atlantic world Now available together transcribed translated and annotated his writings will have widespread significance to the study of early American literature and history

A Peculiar Mixture Jan Stievermann, Oliver Scheiding, 2015-06-26 Through innovative interdisciplinary methodologies and fresh avenues of inquiry the nine essays collected in *A Peculiar Mixture* endeavor to transform how we understand the bewildering multiplicity and complexity that characterized the experience of German speaking people in the middle colonies They explore how the various cultural expressions of German speakers helped them bridge regional religious and denominational divides and eventually find a way to partake in America s emerging national identity Instead of thinking about early American culture and literature as evolving continuously as a singular entity the contributors to this volume conceive of it as an ever shifting and tangled web of contact zones They present a society with a plurality of different native and colonial cultures interacting not only with one another but also with cultures and traditions from outside the colonies in a peculiar mixture of Old World practices and New World influences Aside from the editors the contributors are Rosalind J Beiler Patrick M Erben Cynthia G Falk Marie Basile McDaniel Philip Otterness Liam Riordan Matthias Sch nofer and Marianne S Wokeck

A History of European Literature Walter Cohen, 2017 Walter Cohen argues that the history of European literature and each of its standard periods can be illuminated by comparative consideration of the different literary languages within Europe and by the ties of European literature to world literature World literature is marked by recurrent systematic features outcomes of the way that language and literature are at once the products of major change and its agents Cohen tracks these features from ancient times to the present distinguishing five main overlapping stages Within that framework he shows that European literature s ongoing internal and external relationships are most visible at the level of form rather than of thematic statement or mimetic representation European literature emerges from world literature before the birth of Europe during antiquity whose Classical languages are the heirs to the complex heritage of Afro Eurasia This legacy is later transmitted by Latin to the various vernaculars The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular long dominated by Romance literatures That development subsequently informs the second crucial differentiating dimension of European literature the multicontinental expansion of its languages and characteristic genres especially the novel beginning in the Renaissance This expansion ultimately results in the reintegration of European literature into world literature and thus in the creation of today s global literary system The distinctiveness of European literature is to be found in these interrelated trajectories

Figures of Identity Clark S. Muenzer, 1990-10-01 The question of coherence in Goethe's novels which like Faust compelled his attention throughout his creative life has only recently occupied a few critics Professor Muenzer's study offers the most comprehensive effort of this kind by examining the problematic nature of self definition through the four novels and its emergence as a discursive process of the imagination The self of these texts Muenzer suggests evolves as a symbolic construct that records a pattern of pursuit for each of their protagonists and orients the reader toward three basic goals of human aspiration Thus Werther aspires to purposefulness as a center of teleological fulfillment while the hero of Wilhelm Meister's Apprenticeship refers to an ideological center of participation in his social desire Eduard in The Elective Affinities presumes to occupy a center of archaeological power through his typically self assertive strategies In the last of his novels Wilhelm Meister's Journeymanhood Goethe articulates the need to balance all such self involved behavior with an attitude of self denial Apparently the mind can orient itself through centers of purpose order and power but it must also recognize the illusion of their attainment Identity does not involve a substantive presence and the result of self definition for Goethe is interpretive work Each of Professor Muenzer's interpretations has been guided by this premise The interests of all of Goethe's novelistic protagonists he concludes serve as orienting postures toward goals that cannot be literally achieved Consequently symbolic resolutions are proposed These then introduce new problems as points of departure in subsequent works The hidden agenda of Goethe's work as a novelist is a self that exists as a textual problem a series of interpretive moves that endlessly defer the attainment of self presence by supplementing each other in narrative fictions
