

German Democracy And The Triumph Of Hitler Essays In Recent German History

Karen Hagemann, Jean H. Quataert

German Democracy And The Triumph Of Hitler Essays In Recent German History:

German Democracy and the Triumph of Hitler Erich Matthias, 1972 Nine British and German scholars investigate social conditions and political problems of leadership in the Weimar Republic the origin and development of National Socialism and the impact of Nazi dictatorship on German society *Hitler, Germans, and the "Jewish Question"* Sarah Ann

Gordon, 1984-03-21 Errata slip inserted Includes index Bibliography p 389 405

Gendering Modern German History

Karen Hagemann, Jean H. Quataert, 2007-08-01 Writing on the history of German women has like women's history elsewhere undergone remarkable expansion and change since it began in the late 1960s Today Women's history still continues to flourish alongside gender history but the focus of research has increasingly shifted from women to gender This shift has made it possible to make men and masculinity objects of historical research too After more than thirty years of research it is time for a critical stocktaking of the gendering of the historiography on nineteenth and twentieth century Germany To provide a critical overview in a comparative German American perspective is the main aim of this volume which brings together leading experts from both sides of the Atlantic They discuss in their essays the state of historiography and reflect on problems of theory and methodology Through compelling case studies focusing on the nation and nationalism military and war colonialism politics and protest class and citizenship religion Jewish and non Jewish Germans the Holocaust the body and sexuality and the family this volume demonstrates the extraordinary power of the gender perspective to challenge existing interpretations and rewrite mainstream arguments Letter Dated 82/12/22 from the Permanent Representative of the United Kingdom of Great Britain and Northern Ireland to the United Nations Addressed to the Secretary-General, 1982

Dachau and the SS Christopher Dillon, 2016-11-10 Dachau and the SS studies the concentration camp guards at Dachau the first SS concentration camp and a national school of violence for its concentration camp personnel Set up in the first months of Adolf Hitler's rule Dachau was a bastion of the Nazi revolution and a key springboard for the ascent of Heinrich Himmler and the SS to control of the Third Reich's terror and policing apparatus Throughout the pre war era of Nazi Germany Dachau functioned as an academy of violence where concentration camp personnel were schooled in steely resolution and the techniques of terror An international symbol of Nazi depredation Dachau was the cradle of a new and terrible spirit of destruction Combining extensive new research into the pre war history of Dachau with theoretical insights from studies of perpetrator violence this book offers the first systematic study of the Dachau School It explores the backgrounds and socialization of thousands of often very young SS men in the camp and critiques the assumption that violence was an outcome of personal or ideological pathologies Christopher Dillon analyses recruitment to the Dachau SS and evaluates the contribution of ideology training social psychology and masculine ideals to the conduct and subsequent careers of concentration camp guards Graduates of the Dachau School would go on to play a central role in the wartime criminality of the Third Reich particularly at Auschwitz Dachau and the SS makes an original contribution to scholarship on

the pre history of the Holocaust and the institutional organisation of violence **Genocide and Fascism** Aristotle Kallis,2008-09-25 This book investigates how fascism as an ideology and political praxis reconfigured the ideological political and moral landscape of interwar Europe generating an atmosphere of extreme license that facilitated the leap into eliminationist violence It demonstrates how fascist ideology linked the prospect of violent cleansing to utopias of national racial regeneration thus encouraging and legitimizing targeted hatred against particular others It also shows how the diffusion and internationalization of fascism in the 1930s produced a sense of a revolutionary new beginning and created a transnational fascist new order in which Nazi Germany came to occupy a potent position of authority The book analyzes how the eliminationist initiative and precedent of Nazi Germany became a second license that empowered fascist regimes across Europe to embark on their own eliminationist projects with diminished accountability Finally it examines how this license enhanced by the actions of fascists and the collapse of order caused by World War Two released individuals and communities from the burden of legal and moral accountability turning them into accomplices in the most wide brutal and devastating genocidal campaign that the continent had ever experienced **Constitutions in Crisis** John E. Finn,1991 With special reference to the experience of Britain and Germany this book examines the dilemma faced by constitutional governments in trying to draft anti terrorist laws while preserving civil liberties **Lion, Eagle, and Swastika** Robert S. Garnett,2019-06-26 Originally published in 1991 this study analyses the Bavarian monarchist movement and its place in the relations between Bavaria and the Reich during the Weimar era with particular emphasis on the period up to 1929 Focusing on Bavaria s peculiar historical position in the Reich as a staunch adversary of strong national political authority the study has been anchored insofar as possible in local level organizational and governmental archival sources It makes extensive use of organizational and personal case studies *The Coming of the Third Reich* Richard J. Evans,2005-01-25 The definitive account of Hitler s rise to power and the collapse of civilization in Nazi Germany from the author of *The Third Reich in Power* *The Third Reich at War* and *Hitler s People* The clearest and most gripping account I ve read of German life before and during the rise of the Nazis A S Byatt Times Literary Supplement Impressive in its command of an immense literature perceptive in analysis fluent in style and humane in judgment this work could only have been produced by a master historian Sir Ian Kershaw Brilliant Richard Cohen The Washington Post There is no story in twentieth century history more important to understand than Hitler s rise to power and the collapse of civilization in Nazi Germany With *The Coming of the Third Reich* Richard J Evans one of the world s most distinguished historians has written the definitive account for our time A masterful synthesis of a vast body of scholarly work integrated with important new research and interpretations Evans s history restores drama and contingency to the rise to power of Hitler and the Nazis even as it shows how ready Germany was by the early 1930s for such a takeover to occur *The Coming of the Third Reich* is a masterwork of the historian s art and the book by which all others on the subject will be judged *The Frankfurt School Revisited* Richard Wolin,2013-05-13 This volume is a

collection of essays by Richard Wolin a leading political theorist and intellectual historian It is the follow up to Wolin s two recent widely acclaimed books *Heidegger s Children* and *The Seduction of Unreason* In those books he explored the legacy of Martin Heidegger and his impact on some of his most influential and notable students He dealt particularly with the effect that Heidegger s subsequent embrace of fascism and National Socialism had on these students Delving further in his next book Wolin explored the question of why philosophers and intellectuals have been drawn to antiliberal antidemocratic fascism The essays in this book are focused on European Political Thought particularly with figures associated with the Frankfurt School The collection represents a virtual who s who of European political thinkers with essays on Walter Benjamin Adorno Marcuse Arendt Heidegger Weber Jaspers and Carl Schmitt Moving beyond these thinkers and those books this collection will also include essays on contemporary political issues such as post communist revolutions human rights global democracy the revival of republicanism and religion and public life

Press and Politics in the Weimar Republic Bernhard Fulda, 2009-01-08 *Press and Politics* offers a new interpretation of the fate of Germany s first democracy and the advent of Hitler s Third Reich It is the first study to explore the role of the press in the politics of the Weimar Republic and to ask how influential it really was in undermining democratic values Anyone who seeks to understand the relationship between the press and politics in Germany at this time has to confront a central problem Newspapers certainly told their readers how to vote especially at election time It was widely accepted that the press wielded immense political power And yet power ultimately fell to Adolf Hitler a radical politician whose party press had been strikingly unsuccessful *Press and Politics* unravels this apparent paradox by focusing on Berlin the political centre of the Weimar Republic and the capital of the German press The book examines the complex relationship between media presentation popular reception and political attitudes in this period What was the relationship between newspaper circulation and electoral behaviour Which papers did well and why What was the nature of political coverage in the press Who was most influenced by it Bernhard Fulda addresses all these questions and more looking at the nature and impact of newspaper reporting on German politics politicians and voters He shows how the press personalized politics how politicians were turned into celebrities or hate figures and how through deliberate distortions individual newspapers succeeded in building up a plausible partisan counter reality

The Weimar Republic Stephen J. Lee, 2013-09-13 *The Weimar Republic* provides a comprehensive introduction to Germany in the aftermath of the First World War Exploring themes including the formation of the Republic the impact of the Treaty of Versailles and the Republic s problems and achievements it is an invaluable study guide This second edition includes two new chapters the first looks at the Chancellors and Presidents of the Republic the second assesses the career of Gustav Stresemann It also contains a timeline and updated analysis to enhance readers understanding of events and controversies Integrating historical interpretation exam style questions and evaluation of sources this book provides students with a clear understanding and a foundation for examination success

The Third Reich in Power Richard J. Evans, 2006-09-26 *The*

acclaimed and comprehensive account of Germany's transformation under Hitler's total rule and the inexorable march to war by the author of *The Coming of the Third Reich* *The Third Reich at War* and *Hitler's People* Evans's three volume history is shaping up to be a masterpiece Fluidly narrated tightly organized and comprehensive *The New York Times* Mr Evans's magisterial study should be on our shelves for a long time to come *The Economist* By the middle of 1933 the democracy of the Weimar Republic had been transformed into the police state of the Third Reich mobilized around the cult of the leader Adolf Hitler In *The Third Reich in Power* Richard J Evans chronicles the incredible story of Germany's radical reshaping under Nazi rule As those who were deemed unworthy to be counted among the German people were dealt with in increasingly brutal terms Hitler's drive to prepare Germany for the war that he saw as its destiny reached its fateful hour in September 1939 This is the fullest and most authoritative account yet written of how in six years Germany was brought to the edge of that terrible abyss

Republican and Fascist Germany John Hiden, 2020-10-28 This important addition to modern German studies treats the Weimar Republic and the Third Reich as a continuum exploring its themes through the 1920s and 1930s without artificial breaks John Hiden looks at key issues in political social and economic history and in international relations He highlights Germany's potentially constructive role in Europe before Hitler analyses the country's structural problems considers the importance of personalities and personal responsibility in the period and examines the legacy of the Third Reich to postwar Germany Filled with energy and ideas the book has an intellectual substance far beyond its relatively modest length

The Death of the KPD Patrick Major, 1998-02-05 Why was the West German Communist Party banned in 1956 only 11 years after it had emerged from Nazi persecution Although politically weak the postwar party was in fact larger than its Weimar predecessor and initially dominated works councils at the Ruhr pits and Hamburg docks as well as the steel giant Krupp Under the control of East Berlin however the KPD was sent off on a series of overambitious and flawed campaigns to promote national unification and prevent West German rearmament At the same time the party was steadily criminalized by the Anglo American occupiers and ostracized by a heavily anti communist society Patrick Major has used material available only since the end of the Cold War from both Communist archives in the former GDR as well as western intelligence to trace the final decline and fall of the once powerful KPD

Concentration Camps Alan Kramer, 2025-03-26 A global and comprehensive history of a modern institution of inhumanity In popular perception concentration camps are synonymous with genocide and Nazi racial extermination Yet concentration camps were and are a global phenomenon not restricted to Nazi Germany used at times even by democracies with an astonishing range of functions Drawing together a wide range of multi lingual archival research and synthesising a broad secondary literature Alan Kramer provides here a comprehensive history of concentration camps charting their first establishment at the beginning of the twentieth century on the colonial periphery through their most extreme and inhuman instances in the mid twentieth century to their continued use today Concentration camps are shown to be a truly transnational phenomenon that emerged both

simultaneously within and between imperial spheres Britain Spain the USA and Germany around 1900 and diachronically from then to the First World War the Gulag and Nazi camps Such camps existed and exist under a variety of regimes often concomitant with empire building by revolutionary dictatorships as sites of genocide mass murder and performative violence but also as central elements of utopian schemes of social and racial transformation Integrating the perspective of perpetrators and the victims and contextualising them within the historiography of other carceral institutions the book will reshape the way we think about concentration camps as part of modern civilization past and present Status and the Challenge of Rising Powers Steven Ward,2017-11-16 The rise of China and other great powers raises important questions about the persistence and stability of the liberal international order This book provides a new perspective on these questions by offering a novel theory of revisionist challenges to international order It argues that rising powers sometimes seem to face the condition of status immobility which activates social psychological and domestic political forces that push them toward lashing out in protest against status quo rules norms and institutions Ward shows that status immobility theory illuminates important but often overlooked dynamics that contributed to the most significant revisionist challenges in modern history The book highlights the importance of status in world politics and further advances a new understanding of this important concept s role in foreign policy This book will be of interest to researchers in international politics and security especially those interested in great power politics status power transitions revisionism and order The Nazi Machtergreifung (RLE Nazi Germany & Holocaust) Peter D. Stachura,2014-09-19 This book analyses some of the fundamental reasons for the triumph of National Socialism in 1933 Written in 1983 by historians at Canadian American and British universities it provides a clear and balanced historiographical perspective of the dynamics of socio political mobilization which helped make the Machtergreifung possible The relationship during the Weimar republic between the Nazi Party and various social groups constitutes a major element in the book as do the attitudes towards Hitler displayed by a number of influential institutions The Nazis successful mobilization of popular support before 1933 is illustrated through the impact of foreign policy and ideology propaganda on the Germans *Forging Political Compromise* Daniel Miller,2010-11-23 Historians have long claimed Czechoslovakia between the world wars as an island of democracy in a sea of dictatorships The reasons for the survival of democratic institutions in the Czechoslovak First Republic with its profound divisions have never been fully explained partly because for years critical research was thwarted by the communist state Drawing on information from European archives Miller pieces together the story of the party and its longtime leader Antonin Svehla the Master of Compromise who had an extraordinary capacity to mediate between political parties factions and individual political leaders Miller shows how Svehla s official and behind the scenes activities in the parliament provided the new state with stability and continuity German Politics and the Jews Anthony Kauders,1996 Through a study of Dusseldorf and Nuremberg two German towns of comparable size but disparate regional religious and economic characteristics he explores the attitudes of

journalists politicians clerics and ordinary people
