German Fighters Over The Med:

The Mediterranean and Middle East: The Germans come to the help of their ally (1941) Ian Stanley Ord Playfair, 1961

A History of the Mediterranean Air War, 1940-1945 Christopher Shores, Russell Guest, 2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would not have air superiority When these directives were issued it was envisaged that as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich s oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern Front so giving manifest support to the Soviets In this volume the early months of this hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany s Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies

The Mediterranean Air War Robert S. Ehlers, Jr., 2015-03-27 Without what the Allies learned in the Mediterranean air war in 1942 1944 the Normandy landings and so perhaps the Second World War II would have ended differently This is one of many lessons of The Mediterranean Air War the first one volume history of the vital role of airpower during the three year struggle for control of the Mediterranean Basin in World War II and of its significance for the Allied successes in the war s last two years Airpower historian Robert S Ehlers opens his account with an assessment of the pre war Mediterranean theater highlighting the ways in which the players strategic choices strengths and shortcomings set the stage for and ultimately shaped the air campaigns over the Middle Sea Beginning with the Italian invasion of Abyssinia Ehlers reprises the developing international crisis initially between Britain and Italy and finally encompassing France Germany the US other

members of the British Commonwealth and the Balkan countries He then explores the Mediterranean air war in detail with close attention to turning points joint and combined operations and the campaign s contribution to the larger Allied effort In particular his analysis shows how and why the success of Allied airpower in the Mediterranean laid the groundwork for combined arms victories in the Middle East the Indian Ocean area North Africa and the Atlantic northwest Europe Of grand strategic importance from the days of Ancient Rome to the Great Power rivalries of the eighteenth and nineteenth centuries the Middle Sea was no less crucial to the Allied forces and their foes Here in the successful offensives in North Africa in 1942 and 1943 the US and the British learned to conduct a coalition air and combined arms war Here in Sicily and Italy in 1943 and 1944 the Allies mastered the logistics of providing air support for huge naval landings and opened a vital second aerial front against the Third Reich bombing critical oil and transportation targets with great effectiveness The first full examination of the Mediterranean theater in these critical roles as a strategic and tactical testing ground for the Allies and as a vital theater of operations in its own right The Mediterranean Air War fills in a long missing but vital dimension of the history of World War II [A History of the Mediterranean Air War, 1940-1945. Volume 2](#) Christopher Shores, Giovanni Massimello, Russell Guest, Frank Olynk, Winfried Bock, 2014-07-19 This second volume in the seminal series on aerial combat pilots and tactics in Libya and Egypt in the middle of World War II In volume two of this series historian Christopher Shores begins by exploring the 8th Army s movements after Operation Crusader when they were forced back to the Gazala area in northeastern Libya as well as their defeat in June 1942 the loss of Tobruk and the efforts of Allied air forces to protect their retreating troops Shores continues with the heavy fighting that followed in the El Alamein region This features the Western Desert Air Force and the arrival of the first Spitfires The buildup of both army and air forces and the addition of new commanders on the ground aided the defeat of Rommel s Deutsche Afrika Korps at Alam el Halfa after which came the Second Battle of El Alamein With the arrival of the United States Army Air Force the Allied air forces gained dominance over the Axis Shores recounts the lengthy pursuit of the Italo German forces right across Libya including the capture of Tripoli and the breakthrough into Southern Tunisia This allowed a linkup with other Allied forces in Tunisia whose story appears in Volume 3 Included with the action are stories of some of the great fighter aces of the Desert campaign such as Jochen Marseille and Otto Schulz of the Luftwaffe Franco Bordoni Bisleri of the Regia Aeronautica and Neville Duke Billy Drake and Eddie Edwards of the Commonwealth air forces Finally Shores touches on the Allied and Axis night bombing offensives and the activities of the squadrons cooperating with the naval forces in the Mediterranean [Bf 109 Aces of North Africa and the Mediterranean](#) Jerry Scutts, 2012-11-20 Totally outnumbered throughout their short two year sojourn in the Western Desert the crack fighter pilots of the handful of Jagdgeschwader in theatre fought an effective campaign in support of Rommel s Afrika Korps against the British and American forces Relying almost exclusively on the Luftwaffe s staple fighter of World War 2 the Messerschmitt Bf 109 the battle hardened aces used the aircraft s superior performance to achieve

incredible scores against the Allies Similarly once pushed out of North Africa these units continued to take the fight to the RAF and USAAF from makeshift bases in northern Italy **Mediterranean Sweep** Thomas McKelvey Cleaver,2025-03-13 Filled with personal accounts of the action this book details the USAAF s tactical and strategic campaigns in the skies over Italy in World War II With the defeat of the Germans and Italians on Sicily in mid July 1943 the focus of the war in the air shifted toward the battle for the Italian mainland itself This campaign took place in the context of the coming invasion of northwest Europe with many of the best units from the North African and Sicilian campaigns withdrawn to prepare for the new front while those units that remained had a lower priority for replacements of men and material Despite these difficulties the air war in the Italian campaign is a study in the successful application of tactical air power Mediterranean Sweep describes how USAAF forces alongside Free French Italian Co Belligerent British and Commonwealth units and even a squadron of the Brazilian Air Force took the war to the Axis in both the fighter bomber war and Operation Bingo the successful bombing campaign to withhold supplies from the German forces fighting on the Gothic Line Building on the story of the USAAF in North Africa and over Sicily told in his previous work Turning The Tide renowned aviation expert Tom Cleaver uses a wide range of first hand accounts from American Allied German and Italian pilots and other aircrew to bring to life the bitter struggle in the skies over Italy from mid 1943 through to the end of World War II **The Second World War: Europe and the Mediterranean** Thomas E. The Mediterranean and Middle East: British fortunes reach their lowest (Sept. 1941 to Sept. 1941) Ian Stanley Ord Playfair, 1960 *Airborne Missions in the Mediterranean 1942-1945* Коллектив авторов, This monograph treats the airborne missions flown by American troop carrier units in the Mediterranean area during World War II as case histories in the development of a type of warfare in which the United States had no previous experience For this reason much attention is given to the background of plans preparation and training preceding the missions and to the impact of the missions on the development of doctrine United States Army in WWII - the Mediterranean - Sicily and the Surrender of Italy Albert N. Garland, Howard McGaw Smyth, Martin Blumenson, 2014-08-15 Includes 17 maps and 113 illustrations This volume the second to be published in the Mediterranean Theater of Operations subseries takes up where George F. Howe's Northwest

Africa Seizing the Initiative in the West left off It integrates the Sicilian Campaign with the complicated negotiations involved in the surrender of Italy The Sicilian Campaign was as complex as the negotiations and is equally instructive On the Allied side it included American British and Canadian soldiers as well as some Tabors of Goums major segments of the U S Army Air Forces and of the Royal Air Force and substantial contingents of the U S Navy and the Royal Navy Opposing the Allies were ground troops and air forces of Italy and Germany and the Italian Navy The fighting included a wide variety of operations the largest amphibious assault of World War II parachute jumps and air landings extended overland marches tank battles precise and remarkably successful naval gunfire support of troops on shore agonizing struggles for ridge tops and extensive and skillful artillery support Sicily was a testing ground for the U S soldier fighting beside the more experienced troops of the British Eighth Army and there the American soldier showed what he could do The negotiations involved in Italy s surrender were rivaled in complexity and delicacy only by those leading up to the Korean armistice The relationship of tactical to diplomatic activity is one of the most instructive and interesting features of this volume Military men were required to double as diplomats and to play both roles with skill **The Trident Conference: May 1943** Joint History Office (U.S.),2017-09-15

The principal participants at the Trident Conference which was held in Washington DC from May 12 to 25 1943 were President Franklin D Roosevelt British prime minister Winston S Churchill and the Combined Chiefs of Staff British Field Marshal Archibald P Wavell Major General Claire L Chennault USA and Lieutenant General Joseph W Stilwell USA from the China Burma India Theater were also present for the discussions on this region marking the first time when Allied commanders from Asia attended a major wartime conference Building on the decision at the Casablanca Conference to knock Italy out of the war first the planning for the Italian campaign which would begin with the amphibious invasion of Sicily Operation Husky was a major focus at the Trident Conference The Allied leaders also deliberated on how and when to stage the cross Channel invasion of France to bring the war with Germany to an end Other notable topics of discussion at Trident included increasing air attacks on Axis targets with an emphasis on bombing the oil fields in Ploiesti Romania and recapturing Burma from Japanese forces and reopening the supply lines to China Trident was one in a series of high level conferences held by the US and British leaders in Washington DC Casablanca Quebec Cairo Tehran Malta Yalta and Potsdam to formulate the Allied grand strategy At the Tehran Yalta and Potsdam conferences the Soviet leader Joseph Stalin was also in attendance and played an important role The World War II Inter Allied Conferences is a new digital original eBook series produced by the Office of the Chairman of the Joint Chiefs of Staff available for free download This resource is also available in Mobi format ISBN 9780160938795 and PDF format ISBN 9780160938801 and are also available for free download Other resources in the WWII Inter Allied Conferences series include the following titles Arcadia Conference Washington DC December 24 1941 January 14 1942 ISBN 9780160938870 Mobi ISBN 9780160938863 ePub ISBN 9780160938887 PDF Post Arcadia Conference Washington DC January 23 May 19 1942 ISBN 9780160938900 Mobi ISBN 9780160938894 ePub ISBN
