The German Army 1939-45 (4) Nigel Thomas,2012-08-20 In early 1943 the annihilation of the 6th Army at Stalingrad marked the irreversible turning point of the war in the East Despite occasional local successes gained in the face of great odds testimony to the Wehrmacht s extraordinary resilience from now on Germany was on the defensive Despite Hitler s damaging interference the quality of German field leadership and of new weapons remained high but each new Soviet offensive pushed the front line closer to and finally across the borders of the Reich In this

carnage that it would tear the German forces apart In his major reassessment of the war on the Eastern Front Anthony Tucker Jones casts new light on the brutal fighting including such astounding German defeats as at Stalingrad Kursk Minsk and finally Berlin He controversially contends that from the very start intelligence officers on both sides failed to influence their leadership resulting in untold slaughter He also reveals the shocking blunders by Hitler Stalin and even Churchill that led to the appalling needless destruction of Hitler s armed forces as early as the winter of 1941 42 Step by step Tucker Jones describes how the German war machine fought to its very last against a relentless enemy fully aware that defeat was inevitable
