*German Romanticism and Its Institutions* Theodore Ziolkowski, 2021-03-09 Using an illuminating method that challenges the popular notion of Romanticism as aesthetic escapism Theodore Ziolkowski explores five institutions mining law madhouses universities and museums that provide the socio historical context for German Romantic culture He shows how German writers and thinkers helped to shape these five institutions all of which assumed their modern form during the Romantic period and how these social structures in turn contributed to major literary works through image plot character and theme Ziolkowski cannot fail to impress the reader with a breadth of erudition that reveals fascinating intersections in the life and works of an artist He conveys the sense of energy and idealism that fueled Schiller and Goethe Fichte and Hegel Hoffmann and Novalis Emily Grosholz The Hudson Review This book should be put in the hands of every student who is seriously interested in the subject and I cannot imagine a scholar in the field who will not learn from it and be delighted with it Hans Eichner Journal of English and Germanic Philology Ziolkowski is among those who go beyond lip service to the historical and are able to show concretely the ways in which generic and thematic intentions are inextricably enmeshed with local and specific institutional circumstances Virgil Nemoianu MLN *German romanticism and its institutions* Theodore Ziolkowski, 1990

**Stages of European Romanticism** Theodore Ziolkowski, 2018 Employs an innovative approach by stages to offer a unified vision of European Romanticism over the half century of its growth and decline Romanticism was a truly European phenomenon extending roughly from the French Revolution to the 1848 revolutions and embracing not only literature and drama but also music and visual arts Because of Romanticism's vast scope most treatments have restricted themselves to single countries or to specific forms notably literature art or music This book takes a wider view by considering in each of six chapters representative examples of works from across Europe and across a range of the arts that were created in a single year For instance in the first chapter focusing on the year 1798 Beethoven's Pathétique sonata Wordsworth and Coleridge's Lyrical Ballads Tieck's novel Franz Sternbald's Wanderungen and Goya's painting El suegro de la raza The following chapters treat works from the years 1808 1818 1828 1838 and 1848 This approach by stages makes it possible to determine characteristics of six stages of Romanticism in its historical and intellectual context and to note the conspicuous differences between these stages as European Romanticism developed for example the waxing and waning of religious themes the shifting visions of landscape the gradual ironic detachment from early Romanticism In sum the volume offers a unified vision of European Romanticism in all its aesthetic forms over the half century of its growth and decline Theodore Ziolkowski is Professor Emeritus of German and Comparative Literature Princeton University *Travelling Notions of Culture in Early Nineteenth-Century Europe* Hannu Salmi, Asko Nivala, Jukka Sarjala, 2015-10-23 The notions of culture and civilization are at the heart of European self image This book focuses on how space and spatiality contributed to defining the concepts of culture and civilization and conversely what kind of spatial ramifications culture and civilization entailed These questions have vital importance to the understanding of this formative period of modern Europe The chapters of this volume concentrate on the following themes What were the sites of culture civilization and Bildung and how were these sites employed in defining these concepts What kind of borders did this process of definition and its inherent spatial imagination produce What were the connecting routes between the supposed centers and peripheries What were the strategies of envisioning negotiating and transforming cultural territories in early nineteenth century Europe This book adds new perspectives on ways of approaching spatiality in history by investigating for example the decisive role of the French revolution the persistent interest in classical civilization and its sites emerging urbanism and the culture of the cities the changing constellations between centers and peripheries and the colonial extensions or transfigurations of culture It also

pays attention to the spatiality of culture as a metaphor but simultaneously emphasizes the production of space in an era of technological innovation and change *Rereading Romanticism*, 2021-11-15 Historical Dictionary of Romantic Art and Architecture Allison Lee Palmer, 2019-07-26 Romanticism is multifaceted and a wide range of nostalgic emotional and exotic concerns were expressed in such styles and movements as the Gothic Revival Classical Revival Orientalism and the Pre Raphaelite Brotherhood Some movements were regional and subject specific such as the Hudson River School of landscape painting in the United States and the German Nazarene movement which focused primarily on religious art in Rome The movements range across Western Europe and include the United States This dictionary will provide a fuller historical context for Romanticism and enable the reader to identify major trends and explore artists of the period This second edition of Historical Dictionary of Romantic Art and Architecture contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced entries on major artists of the romantic era as well as entries on related art movements styles aesthetic philosophies and philosophers This book is an excellent resource for students researchers and anyone wanting to know more about Romantic art The Naked Heart: The Bourgeois Experience Victoria to Freud Peter Gay, 1996-10-17 In *The Naked Heart* Peter Gay explores the bourgeoisie's turn inward At the very time that industrialists inventors statesmen and natural scientists were conquering new objective worlds Gay writes the secret life of the self had grown into a favorite and wholly serious indoor sport Following the middle class's preoccupation with inwardness through its varied cultural expressions such as fiction art history and autobiography Gay turns also to the letters and confessional diaries of both obscure and prominent men and women These revealing documents help to round out a sparkling portrait of an age
