**German Aircraft in Russian and Soviet Service, 1914-1940** Andrei Alexandrov, Genadi Petrov, 2002 The two books by authors Andrei Alexandrov and Genadi Petrov illustrated with many previously unpublished photos depict the blooming period of the Soviet aviation industry which owed a great deal of its knowledge to technology derived from German designs

*Warships of the Soviet Fleets 1939-1945* Przemyslaw Budzbon, Jan Radziemski, Marek Twardowski, 2023-07-30 Seventy five years after the end of the Second World War the details of Soviet ships their activities and fates remain an enigma to the West In wartime such information was classified and after a brief period of glasnost openness the Russian state has again restricted access to historical archives Therefore the value and originality of this work is difficult to exaggerate It sees the first publication of reliable data on both the seagoing fleets and riverine flotillas of the Soviet Navy listing over 6200 vessels from battleships to river gunboats and mercantile conversions as well as purpose built warships This third and final part of the series includes all the ships in naval service that were not frontline fighting vessels Despite auxiliary status these were not insignificant ships indeed the icebreakers were the largest vessels built by the USSR before the war and carried so much prestige that every leading member of the Soviet regime wanted their name on one Apart from the obvious fleet support types oilers tugs and depot ships this volume also covers unsung heroes like the salvage fleet highly significant in the 1930s for generating much needed foreign currency and later essential to the war effort allowing so many sunken Soviet warships to be returned to service Another major feature of this volume is the first clear and comprehensive listing of ex mercantile transport ships their periods of service and ultimate fates Even harbor service craft are included right down to the humble heaters that supplied warmth to icebound warships in the depth of the Russian winters This volume concludes with a number of important appendices on subjects like weaponry and a massive cross referenced index that will allow readers to differentiate between ships of the same name and to track every name change This is undoubtedly one of the most important naval reference works of recent years and will be welcomed by anyone with an interest in warships the Soviet Navy or wider maritime aspects of the Second World War Furthermore as recent Russian actions appear to revive Soviet era aspirations this book offers both new insights and valuable background of contemporary relevance

Publishing, 2009-10-01 War has been central to the rise and fall of civilizations since the dawn of time The history of warfare

first emerges from legend in Mesopotamia the cradle of civilization around 3 000 years before the birth of Christ The first armies that we know about fought in Sumeria Ancient Egypt and Syria From these first battles fought with spears or axes on horseback or on foot War traces the campaigns and conflicts that have shaped world history and examines the evolution of military tactics and technology The story of the development from these primitive battles to the global conflicts of the 20th century and the modern War on Terror is the story of humanity itself reflecting the same political cultural and technological forces that have defined human history From longbows to laser guided missiles from chariots to jet aircraft and from Samurai warriors to SAS soldiers War provides the definitive visual chronicle of this intense brutal and often heroic tale War combines a coherent and compelling spread by spread historical narrative with a wealth of supporting features on weapons and technology strategy and tactics the experience of war and history s fighting elites to recount the epic 5 000 year story of warfare and combat through the ages
