Arnold-Friend,1979 *Puma Sdkfz 234/1 and Sdkfz 234/2 Heavy Armoured Cars* Dennis Oliver,2023-07-30 a well researched title that covers a lesser known type and that manages to squeeze a heck of a lot into 64 pages WarWheels The lightning advances of the German armored units during the Polish and French campaigns were spearheaded by fast moving armed reconnaissance vehicles But

these early designs suffered heavily due to their light weaponry and thin armor and a program was soon underway led by the firm of Büssing NAG which culminated in the development of the Sdkfz 234 series of heavy eight wheeled armored cars the first of which entered service in late 1943 These vehicles proved to be rugged and reliable and were gradually up armed to serve in the infantry support role and eventually as tank killers This volume of the LandCraft series concludes the story of the Sdkfz 234 series examining the versions that took part in the last battles of the war Using archive photos and extensively researched color illustrations Dennis Oliver examines the Sdkfz 234 1 and Sdkfz 234 2 and the units that operated these often neglected yet important armored vehicles A key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeler needs to recreate an accurate representation of these historic tanks 1914-1938 Armored Fighting Vehicles George

Bradford,2010-09-20 George Bradford s latest collection of scale drawings of armored fighting vehicles focuses on the years from World War I to the eve of World War II a period of fast paced AFV development around the world The volume is filled with detailed diagrams of more than 100 vehicles from Britain Czechoslovakia France Germany Italy Japan Poland Romania the Soviet Union and the United States including Whippet medium tank Britain Renault R35 light tank France Panzer I light tank Germany T 35 multiturreted tank Soviet Union T3 Christie tank United States And many more **Pakwagen SDKFZ**

234/3 and 234/4 Heavy Armoured Cars Dennis Oliver,2022-10-24 squeezes a lot of useful information into a modest 64 pages and is a useful addition to any library of German armored cars War Wheels Experience in the Polish and French campaigns had convinced the German high command of the value of fast moving armed reconnaissance vehicles But it was realised that many of the early designs were too lightly armed and development of a heavy eight wheeled prototype resulted in the Sdkfz 234 series of armored cars the first of which entered service in late 1943 Built by the firm of Büssing NAG these sturdy and reliable vehicles were gradually up armed and served in the infantry support role and eventually as tank killers largely as the result of Hitler s desperation to arm as many vehicles as possible with anti tank weapons Drawing on official documentation and unit histories Dennis investigates the formations that operated these vehicles and uses archive photos and extensively researched color illustrations to examine the markings camouflage and technical aspects of the Sdkfz 234 2 234 3 and 234 4 armored cars that served on the Western and Eastern Fronts in the last months of the war A key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeller needs to recreate an accurate representation of these historic vehicles

Hitler Strikes North Jack Greene,Alessandro Massignani,2013-03-19 A detailed account of Germany's groundbreaking Operation Weser bung the first three dimensional land sea air strategic invasion in history The German invasion of Denmark and Norway in April 1940 brought a sudden and shocking end to the Phoney War in the West In a single day multiple seaborne and airborne landings established German forces ashore in Norway overwhelming the unprepared Norwegian forces and catching the Allied Powers completely by surprise Their belated response was ill thought out and badly organized and by June 9 all resistance had formally ended The strategic importance of Scandinavian iron ore shipped through the port of Narvik to Germany was the

main cause of the campaign The authors show how Allied attempts to interdict these supplies provoked German plans to secure them and also how political developments in the inter war years resulted in both Denmark and Norway being unable to deter threats to their neutrality despite having done so successfully in the First World War The German attack was their first joint air sea and land operation making large scale use of air landing and parachute forces and the Luftwaffe's control of the air throughout the campaign would prove decisive Although costly particularly for the Kriegsmarine it was a triumph of good planning improvisation and aggressive determined action by the troops on the ground Making full use of Norwegian Danish and German sources this book is a full and fascinating account of this highly significant campaign and its aftermath both for the course of the Second World War and the post war history of the two countries conquered with such unprecedented speed

A History of Czechoslovakia Between the Wars Patrick Crowhurst, 2015-06-22 Here Patrick Crowhurst identifies the crucial political problem that faced Czechoslovakia between 1918 and 1939 the rift between the Czechs and the Sudeten Germans that would open the way for the rise of Konrad Henlein's right wing Sudeten Deutsch party and which was exploited ruthlessly by Hitler during Nazi Germany's 1938 annexation of Czechoslovakia A History of Czechoslovakia Between the Wars deepens our understanding of a fragile Europe before World

War II and is essential for students and scholars of 20th century history
