German Expressionist Theatre David F. Kuhns,1997-08-28 German Expressionist Theatre The Actor and the Stage considers the powerfully stylized anti realistic styles of acting on the German Expressionist stage from 1916 to 1921 It relates this striking departure from the dominant European acting tradition of realism to the specific cultural crises that enveloped the German nation during the course of its involvement in World War I This book describes three distinct Expressionist acting styles all of which in their own ways attempted to show how symbolic stage performance could be a powerful rhetorical resource for a culture struggling to come to terms with the crises of historical change The examination of Expressionist script and actor memoirs allows for an unprecedented focus on description and analysis of acting itself

German Incertitudes, 1914-1945 Klemens von Klemperer,2001-03-30 The history of modern Germany has all too readily been seen in terms of an historical process that inevitably led to the horrors of National Socialism As there are no certitudes in life however so there are none in German history In this book historian Klemens von Klemperer focuses on what he terms the German Incertitudes namely the tensions between a realistic acceptance of disenchantment with the modern world and an insistence upon reenchancement Exploring this tension through a critical

assessment of the ideas and writings of major German thinkers von Klemperer seeks to account for both the achievements and the failings of German thought society and politics as responses to the challenge of modernity in the first half of the 20th century In addition to individuals such as Nietzsche Weber Spengler J nger Bonhoeffer and Heidegger the author considers broader movements and ideas such as the concept of Gemeinschaft and the German expressionists all in the wider context of Western intellectual currents Rather than belaboring presumed German deviance from the European norms von Klemperer explores the reasons why the sense of crisis in the face of modernity was singularly acute among Germans he traces a spectrum of reactions extending from an acceptance of modern disenchantment to the quest for reenchantment which found an extreme manifestation in National Socialism

The Rise and Fall of American Art, 1940s-1980s Assoc Prof Catherine Dossin, 2015-03-28 This book challenges the perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical recognition In her transnational and interdisciplinary study Dossin analyses changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors

Drones and the Annihilation-Image in Contemporary Warfare Gabriel F. Caetano, 2024-10-26 This book analyses the entanglement between Washington and Hollywood to shed light on the violence inherent in the image as a semiotic material agent in contemporary warfare In the 21st century the weaponized military drone an image centered machine has spearheaded the geopolitical curatorship of the USA in the context of the war on terror Drone violence shares the same characteristics as cinema image and movement However a drone s image is not purely a reflection of the nature of war it is more than representational it is performative Building upon the concept of annihilation image this book argues that the

image wields a destructive agency as it transitions from reflection to diffraction Rather than mirroring reality the annihilation image creates a brutal pattern of difference in the world It is a destructive ontology in which seeing and annihilating are in a state of superposition Therefore everything that is framed is potentially dead That is to say by framing bodies and objects in the terrain a state of superpositional violence is created in which one is alive but virtually dead **124 Visual Art** Mocktime Publication,101-01-01 generated by python docx [The Winchester Guide to Keywords and Concepts for International Students in Art, Media and Design](#) Annie Makhoul,Simon Morley,2014-06-25 This welcome new resource for international students in art design and media provides clear explanations of the terminology they must master in order to fulfill their academic potential and enrich their professional careers Offers a much requested new resource that fills a gap in the academic market Tailored specifically to the needs of international students in art design and media Color coded key words and phrases for quick reference Includes sections on study skills academic expectations in Western institutions methodologies and important theorists An ideal handbook for curators and gallery staff everywhere for whom English is a non native language **The Rise and Fall of American Art, 1940s-1980s** Catherine Dossin,2016-03-03 In The Rise and Fall of American Art 1940s 1980s Catherine Dossin challenges the now mythic perception of New York as the undisputed center of the art world between the end of World War II and the fall of the Berlin Wall a position of power that brought the city prestige money and historical recognition Dossin reconstructs the concrete factors that led to the shift of international attention from Paris to New York in the 1950s and documents how peripheries such as Italy Belgium and West Germany exerted a decisive influence on this displacement of power As the US economy sank into recession in the 1970s however American artists and dealers became increasingly dependent on the support of Western Europeans and cities like Cologne and Turin emerged as major commercial and artistic hubs a development that enabled European artists to return to the forefront of the international art scene in the 1980s Dossin analyses in detail these changing distributions of geopolitical and symbolic power in the Western art worlds a story that spans two continents forty years and hundreds of actors Her transnational and interdisciplinary study provides an original and welcome supplement to more traditional formal and national readings of the period
